## Index

- 60 Minutes*, 274
- ABC News, 17, 306
- ACA, *See* Affordable Care Act
- access to care
- as compared to Gabrielle Giffords, 158–159
  - barriers to, 158
  - Maggie Worthen's assistive device issue, 266
- Accountable Care Organizations, 160
- acquired brain injury, 31
- activation in neuroimaging
- falling outside of ROI for Maggie Worthen, 277
  - first-order vs network activation, 174
  - implications for DBS, 217
  - in Di et al., 177
  - in Greg Pearson, 206, 209
  - in MCS patients vs vegetative state patients, 174–175
  - in Owen et al., 176–177
- acute care
- and helpful staff, 46–47, 50–53
  - and therapeutic hypothermia, 107–108
  - as it relates to time, 175–176
  - as specialized care, 107–109
  - biases toward brain injury, 72
  - decisions for Maggie, 17, 48–51
  - initial heroics of, 42, 196
  - premature discharge from, 89–90, 106–107
  - premature prognoses in, 46–48
  - transitions from, 92
- ADA, *See* Americans with Disabilities Act
- Ad Hoc Committee, Harvard Medical School, 28–29
- advance directive, 282
- advocacy
- and civil rights, 299, 309–311
  - and communication, 294
  - and legislation, 123, 157
  - and medical necessity, 136, 143, 154–155
  - by Maggie's roommate, 184
  - by Nancy, 179–181, 269–270
  - by nurses, 109
- affirming the right to care, 127, 279
- Affordable Care Act (ACA)
- associated costs, 159
  - Carusone's appeal for inclusion of rehabilitation, 157–159
  - coverage inclusion, 157
  - efficiency models, 161
  - in practice, 160–161
  - meaning for brain injury, 160–161
  - rehabilitation as afterthought, 156–157
- Almodovar, Pedro, 294
- Amantadine, 295, 301
- Ambien, 177, 273–274. *See also* Zolpidem
