## Contents

*List of contributors* viii  
*Foreword* xi  
*Preface* xiii

### Section 1 — Epidemiology, pathophysiology, and pathogenesis of fetal and neonatal brain injury

1. Neonatal encephalopathy: epidemiology and overview  
   Philip Sunshine

2. Mechanisms of neurodegeneration and therapeutics in animal models of neonatal hypoxic–ischemic encephalopathy  
   Lee J. Martin

3. Cellular and molecular biology of hypoxic–ischemic encephalopathy  
   Zinaida S. Vexler, Donna M. Ferriero, and Janet Shimotake

4. The pathogenesis of preterm brain injury  
   Laura Bennet, Justin Mark Dean, and Alistair J. Gunn

### Section 2 — Pregnancy, labor, and delivery complications causing brain injury

5. Prematurity and complications of labor and delivery  
   Yasser Y. El-Sayed, Maurice L. Druzin, Justin Collingham, and Amen Ness

6. Risks and complications of multiple gestations  
   Yair Blumenfeld and Usha Chitkara

7. Intrauterine growth restriction  
   Alistair G. S. Philip, David K. Stevenson, and William W. Hay Jr.

8. Maternal diseases that affect fetal development  
   Bonnie Dwyer and Maurice L. Druzin

9. Obstetrical conditions and practices that affect the fetus and newborn  
   Justin Collingham, Jane Chueh, and Reinaldo Acosta

10. Fetal and neonatal injury as a consequence of maternal substance abuse  
    H. Eugene Hoyme, Melanie A. Manning, and Louis P. Halamek

11. Hypertensive disorders of pregnancy  
    Bonnie Dwyer and Deirdre J. Lyell

12. Complications of labor and delivery  
    Yair Blumenfeld and Masoud Tashimi

13. Fetal response to asphyxia  
    Laura Bennet and Alistair J. Gunn

14. Antepartum evaluation of fetal well-being  
    Deirdre J. Lyell and Maurice L. Druzin

15. Intrapartum evaluation of the fetus  
    Israel Hendler and Daniel S. Seidman

### Section 3 — Diagnosis of the infant with brain injury

16. Clinical manifestations of hypoxic–ischemic encephalopathy  
    Jin S. Hahn

17. The use of EEG in assessing acute and chronic brain damage in the newborn  
    Donald M. Olson and Alexis S. Davis

18. Neuroimaging in the evaluation of pattern and timing of fetal and neonatal brain abnormalities  
    Patrick D. Barnes

19. Light-based functional assessment of the brain  
    Ken Brady and Chandra Ramamoorthy

20. Placental pathology and the etiology of fetal and neonatal brain injury  
    Theonia K. Boyd and Rebecca N. Baergen
Correlations of clinical, laboratory, imaging, and placental findings as to the timing of asphyxial events
Philip Sunshine, David K. Stevenson, Ronald J. Wong, and William E. Benitz

Section 4 – Specific conditions associated with fetal and neonatal brain injury

Congenital malformations of the brain
Jin S. Hahn and Ronald J. Lemire

Neurogenetic disorders of the brain
Jonathan A. Bernstein and Louanne Hudgins

Hemorrhagic lesions of the central nervous system
Linda S. de Vries

Neonatal stroke
Hannah C. Glass and Donna M. Ferriero

Hypoglycemia in the neonate
Satish C. Kalhan, Robert Schwartz, and Marvin Cornblath

Hyperbilirubinemia and kernicterus
David K. Stevenson, Ronald J. Wong, and Phyllis A. Dennery

Polycythemia and fetal–maternal bleeding
Ted S. Rosenkrantz, Shikha Sarkar, and William Oh

Hydrops fetalis
David P. Carlton

Bacterial sepsis in the neonate
Hayley A. Gans

Neonatal bacterial meningitis
Alistair G. S. Philip

Neurological sequelae of congenital perinatal infection
Rima Hanna-Wakim, Andrea Enright, and Kathleen Gutierrez

Perinatal human immunodeficiency virus infection
Avinash K. Shetty and Yvonne A. Maldonado

Inborn errors of metabolism with features of hypoxic–ischemic encephalopathy
Gregory M. Enns

Acidosis and alkalosis
Ronald S. Cohen

Meconium staining and the meconium aspiration syndrome
Thomas E. Wiswell

Persistent pulmonary hypertension of the newborn
Alexis S. Davis, William D. Rhine, and Krsna P. Van Meurs

Pediatric cardiac surgery: relevance to fetal and neonatal brain injury
Giles J. Peek and Susan R. Hintz

Section 5 – Management of the depressed or neurologically dysfunctional neonate

Neonatal resuscitation: immediate management
Louis P. Halamek and Julie M. R. Arafeh

Improving performance, reducing error, and minimizing risk in the delivery room
Louis P. Halamek

Extended management following resuscitation
William E. Benitz, Susan R. Hintz, David K. Stevenson, Ronald J. Wong, and Philip Sunshine

Endogenous and exogenous neuroprotective mechanisms after hypoxic–ischemic injury
Alistair J. Gunn, Robert D. Barrett, and Laura Bennet

Neonatal seizures: an expression of fetal or neonatal brain disorders
Mark S. Scher

Nutritional support of the asphyxiated infant
John A. Kerner

Section 6 – Assessing outcome of the brain-injured infant

Early childhood neurodevelopmental outcome of preterm infants
Susan R. Hintz

Cerebral palsy: advances in definition, classification, management, and outcome
Trenna L. Sutcliffe

Long-term impact of neonatal events on speech, language development, and academic achievement
Heidi M. Feldman and Irene M. Loe
## Table of Contents
