- constant–goods index
as most common form of
cost-of-living index, 101,
113–115, 200, 243–244, 295
- defined, 99, 101–102
- indexation and, 379
- macroeconomic analysis and,
137–138, 321–324
- problems with, 101–104, 115–118,
194–195
- supported by institutional
economists, 98–99, 110–113,
137–138, 201
- as weighted average of price relatives,
110–113, 166–167, 199, 201,
204–205, 210–211
- See also* Cost-of-Living Index (U.S.),
Consumer Price Index (CPI)
- constant–utility index
basic definition of, 17, 99, 105
- bounding limits for, 302–303, 328
- criticism of (1920s), 106, 110, 112,
114–115
- criticism of (1960s), 317, 321–323, 350
- income adjustment and, 299–300,
334–336, 340–341, 352,
377–381
- “flow of services” pricing and, 314
- novel goods in, 314
- macroeconomic analysis and, 299,
321–324, 329–333
- provides framework for price index
problems, 314–316
- quality change and, 314–316
- reformulation of, 319, 325–329, 351
- stymied by changes in utility
functions, 301–305, 316–317,
322–323
- supported by BLS, 351, 353
- supported by neoclassical economists
in 1920s, 105–106
- treated as equivalent to “cost-of-living
index,” 336–337

- constant-utility index (*cont.*)
 welfare state and, 345, 358–359
