.....
Every effort has been made in preparing this book to provide accurate and up-to-date information that
is in accord with accepted standards and practice at the time of publication. Although case histories
are drawn from actual cases, every effort has been made to disguise the identities of the individuals
involved. Nevertheless, the authors, editors, and publishers can make no warranties that the information
contained herein is totally free from error, not least because clinical standards are constantly changing
through research and regulation. The authors, editors, and publishers therefore disclaim all liability
for direct or consequential damages resulting from the use of material contained in this book. Readers
are strongly advised to pay careful attention to information provided by the manufacturer of any drugs
or equipment that they plan to use.
