### Topic sentences

The main idea is usually found in the first sentence of the paragraph. This sentence is called the topic sentence.

#### A Read these paragraphs about people’s best and worst qualities. Underline the topic sentence in each paragraph.

**I think that my most positive quality is that I’m always pretty calm and cool, especially when something breaks. I’m really into solving tricky problems and finding solutions to things. My specialty is electronics. People come to me if something goes wrong with their computers or phones. For example, two days ago, my dad’s brand new tablet suddenly froze up. He was afraid of causing more damage, so he asked me to figure out the problem. It only took me 15 minutes to fix it, and I loved doing it!**

**My most negative quality is that I’m not very neat and tidy. Sometimes I worry about being so disorganized, but I never feel like doing anything about it. My apartment is always a mess, so I can never find anything. Last week, for example, I finished doing some homework and then started to make dinner. In the morning, I couldn’t find my assignment anywhere, so I had to redo it. I really want to change my bad habits, but I don’t know where to start.**

#### B Think about your own personal qualities. Make a list. Then decide which quality is the most positive and which is the most negative. Circle each one.

#### C Write a paragraph about either your most positive or your most negative quality. Make sure your paragraph has only one main idea.

#### D Pair work Exchange paragraphs with a partner. Then answer the questions.

1. What is your partner’s topic sentence? Underline it.
2. What examples does your partner give to support the topic sentence?
3. What do you find most interesting about your partner’s paragraph?

I was supposed to be studying for a math test this weekend, but my friends made me go to the beach with them instead. I mean, I didn’t have to go with them, but I did. Now the test is in two hours, and I’m totally unprepared. I should have stayed home and studied!

In high school, I had to wear a uniform, so I didn’t have a lot of fashionable clothes. When I started college, I thought I needed to have more, so I wasted a lot of money on trendy outfits. But I really shouldn’t have done it. Now I’m broke!

— Kenichi, Osaka, Japan

We weren’t supposed to cook in our dorm rooms, but I had a microwave anyway. The cafeteria was right next door, so I really didn’t need to have it. Anyway, I got caught making popcorn last week, and the school took the microwave away.
