

*Kripke's Wittgenstein on Rules and
Private Language at 40*

Saul Kripke's *Wittgenstein on Rules and Private Language* is one of the most celebrated and important books in philosophy of language and mind of the past forty years. It generated an avalanche of responses from the moment it was published and has revolutionized the way in which we think about meaning, intentionality, and the work of Ludwig Wittgenstein. It introduced a series of questions that had never been raised before concerning, most prominently, the normativity of meaning and the prospects for a reductionist account of meaning. This volume of new essays reassesses the continuing influence of Kripke's book and demonstrates that many of the issues first raised by Kripke, both exegetical and philosophical, remain as thought-provoking and as relevant as they were when he first introduced them.

Claudine Verheggen is Professor of Philosophy at York University, Toronto. She is the coauthor (with Robert Myers) of *Donald Davidson's Triangulation Argument: A Philosophical Inquiry* (2016) and the editor of *Wittgenstein and Davidson on Language, Thought, and Action* (Cambridge University Press, 2017).

Cambridge Philosophical Anniversaries

The volumes in this series reflect on classic philosophy books from the second half of the twentieth century, assessing their achievements, their influence on the field, and their lasting significance.

Titles Published in This Series

Kripke's *Wittgenstein on Rules and Private Language* at 40
Edited by Claudine Verheggen

Kuhn's *The Structure of Scientific Revolutions* at 60
Edited by K. Brad Wray

MacIntyre's *After Virtue* at 40
Edited by Tom Angier

Acknowledgments

I am very grateful to the authors for their contributions to this volume, all of which demonstrate that Kripke, in the spirit of Wittgenstein, continues to provoke new thought-provoking thoughts. I also want to thank the participants in a workshop on Kripke's *Wittgenstein on Rules and Private Language* at 40, which I organized at York University, Toronto, in June 2022, and the Department of Philosophy for sponsoring it. Preparation of the volume was made possible in part by a Research Leader Release from the Faculty of Liberal Arts and Professional Studies at York University and a Small Research Grant from York University. Thanks are also due to my editor, Hilary Gaskin, for first encouraging me to put together this volume for the Cambridge Philosophical Anniversaries series and for her support throughout the whole process. Finally, I am grateful to Nathan Malcomson, Robert Myers, and Olivia Sultanescu for their help with the preparation of the volume.

I dedicate this book to the memory of Barry Stroud, who taught me much about Wittgenstein and philosophy, and who, I think, even though (or perhaps because) he often disagreed with Kripke's interpretation of Wittgenstein, would have found this book congenial, as it fulfills Wittgenstein's (and, I think, Kripke's) goal not to spare people the trouble of thinking but to stimulate them to thoughts of their own. I am sorry that neither he nor Kripke lived to see it.
