.....  
Every effort has been made in preparing this book to provide accurate  
and up-to-date information that is in accord with accepted standards  
and practice at the time of publication. Although case histories are  
drawn from actual cases, every effort has been made to disguise the  
identities of the individuals involved. Nevertheless, the authors, editors,  
and publishers can make no warranties that the information contained  
herein is totally free from error, not least because clinical standards are  
constantly changing through research and regulation. The authors,  
editors, and publishers therefore disclaim all liability for direct or  
consequential damages resulting from the use of material contained in  
this book. Readers are strongly advised to pay careful attention to  
information provided by the manufacturer of any drugs or equipment  
that they plan to use.
