

#### THE SOCIOCULTURAL CONTEXT OF ROMANTIC RELATIONSHIPS

Embedded within the sociocultural context of romantic relationships are features such as race, culture, neighborhoods, the legal system, and governmental policy. Due to the inherent difficulties with studying large structures and systems, little work has been done at the macro level in relationship science. This volume spotlights the complex interplay between romantic relationships and these structural systems, including varied insights from experts in the field. In turn, more diverse and generalizable research programs on the social ecology of relationships can be developed, helping to facilitate advances in theory. Scholars and students of relationship science in psychology, sociology, communication, and family studies will benefit from these discussions. This title is part of the Flip it Open programme and may also be available Open Access. Check our website Cambridge Core for details.

Brian G. Ogolsky is Professor of Human Development and Family Studies at the University of Illinois Urbana-Champaign, USA. He is an expert on how romantic relationships change over time with particular attention to the intersection between law, public policy, and family life. He has won many awards for his scholarship, mentorship, and instruction. He has authored two previous books, which both received international acclaim from the International Association for Relationship Research.

### Advances in Personal Relationships

 Terri L. Orbuch  
*Oakland University*

Although scholars from a variety of disciplines have written and conversed about the importance of personal relationships for decades, the emergence of personal relationships as a field of study is relatively recent. *Advances in Personal Relationships* represents the culmination of years of multi-disciplinary and interdisciplinary work on personal relationships. Sponsored by the International Association for Relationship Research, the series offers readers cutting-edge research and theory in the field. Contributing authors are internationally known scholars from a variety of disciplines, including social psychology, clinical psychology, communication, history, sociology, gerontology, and family studies. Volumes include integrative reviews, conceptual pieces, summaries of research programs, and major theoretical works. *Advances in Personal Relationships* presents first-rate scholarship that is both provocative and theoretically grounded. The theoretical and empirical work described by authors will stimulate readers and advance the field by offering new ideas and retooling old ones. The series will be of interest to upper-division undergraduate students, graduate students, researchers, and practitioners.

### Other Books in the Series

*Attribution, Communication Behavior, and Close Relationships*

Valerie Manusov and John H. Harvey, editors

*Stability and Change in Relationships*

Anita L. Vangelisti, Harry T. Reis, and Mary Anne Fitzpatrick, editors
