

Television in the Streaming Era

This groundbreaking study explores transformations in the TV industry under the impact of globalizing forces and digital technologies. Chalaby investigates the making of a digital value chain and the distinct value-adding segments that form the new video ecosystem. He provides a full account of the industry's global shift from the development of TV formats and transnational networks to the emergence of tech giants and streaming platforms. The author takes a deep dive into the infrastructure (communication satellites, subsea cable networks, data centres) and technology (cloud computing, streaming software) underpinning this ecosystem through the prism of global value chain theory. The book combines empirical data garnered during twenty years of researching the industry and offers unique insights from television and tech executives.

Jean K. Chalaby was born in Geneva and studied at the University of Lausanne before undertaking his PhD at the London School of Economics. He joined the Department of Sociology at City, University of London, in 2000, where he is currently Professor of International Communication. He is the author of several books and multiple articles published in world-leading journals of media and communication.

9.1 Structure of the UK independent production sector, by turnover bracket, 2021	150
10.1 The local/global organisational matrix of the transnational media firm	174

Tables

2.1 Telecom operators' major acquisitions in the media and entertainment sector, 2013–19	<i>page</i> 27
3.1 Korean TV exports, 2016–18 (in US\$ millions)	39
3.2 Values and shares of creative goods exports, 2002–15 (in US\$ millions)	41
3.3 World's top 20 travelling TV formats, 2020	46
3.4 US TV network brands established in the EU, ranked by number of localised services, 2017	52
3.5 European TV network brands established in the EU, ranked by number of localised services, 2017	53
4.1 Type of platform by streaming business model	66
4.2 Leading international SVoD platforms, by number of subscribers, November 2021	68
4.3 Leading international AVoD platforms, by advertising revenue, 2021	70
4.4 Leading international video-sharing platforms, by number of monthly users, November 2021	71
4.5 Leading international niche streaming platforms, 2021	73
5.1 Leading European video neighbourhoods, 2021	78
5.2 Streaming services launched in the mid-2000s, by launch date	83
5.3 Key CDN providers, by launch date	87
6.1 Cable rates from Britain to selected countries (per word), 1890 vs 1902	96
6.2 Median prices per month at 10 Gbit/s, selected subsea cable routes, 2015 vs 2019	96
6.3 Global application traffic share, 2021	100
6.4 Global mobile application traffic share, 2021	100
7.1 Top ten global TV studios, by estimated size and revenue, 2020	109

xii | *List of Tables*

8.1 Media delivery: past and present	126
8.2 Outsourcing by British broadcasters in media delivery	127
8.3 Ericsson's key acquisitions in the media delivery chain	132
8.4 Communications satellite operators with global capabilities, 2021	135
8.5 Intelsat's customer set, 2019–20	136
8.6 Global CDNs for the media and entertainment sector, 2021	138
9.1 Lead firms' revenue and market capitalisation, 2019–21	149
9.2 Tech giants active in media delivery or streaming, by annual revenue, 2020	155
9.3 Facebook's and Google's advertising revenue, 2017–20	155
10.1 International audience for India's five top YouTube channels, by geographical location, October 2021	164
10.2 Ten wealthiest football clubs' YouTube presence (key metrics), October 2021	166
10.3 US sports leagues' YouTube presence (key metrics, main channel), October 2021	167
10.4 Typical organisational configurations of firms in the TV GVC	169
11.1 Development impact of GVCs: selected highlights	181

Acknowledgements

This book is the culmination of several years of research and would not have seen the light of day without support from friends and colleagues. I am thankful to all the interviewees for their time and cooperation (see full list of interviewees at the end of the book). Their insights into the TV industry have been invaluable. I would like to express my deep gratitude to the series editors, the anonymous reviewers, and colleagues in the GVC network for their kind support, comments, and feedback. I would like to thank Duke University Press; the European Audiovisual Observatory; K7 Media; Pact, Oliver & Ohlbaum; and Sandvine for granting me permission to include licensed material. I am also grateful to Jane, my wife, for the first edit of the manuscript, and the entire production team at Cambridge University Press.
