.....  
Every effort has been made in preparing this book to provide accurate and up-to-date information  
that is in accord with accepted standards and practice at the time of publication. Although case histories  
are drawn from actual cases, every effort has been made to disguise the identities of the individuals  
involved. Nevertheless, the authors, editors, and publishers can make no warranties that the information  
contained herein is totally free from error, not least because clinical standards are constantly  
changing through research and regulation. The authors, editors, and publishers therefore disclaim  
all liability for direct or consequential damages resulting from the use of material contained  
in this book. Readers are strongly advised to pay careful attention to information provided by the  
manufacturer of any drugs or equipment that they plan to use.
