INDEX

The dates of letters to and from Darwin's correspondents are listed in the biographical register and index to correspondents and are not repeated here. Darwin's works are indexed under the short titles used throughout this volume and listed in the bibliography. The abbreviation FD refers to Francis Darwin, ED to Erasmus Darwin (1731–1802), and CD to Charles Darwin.

- Aberdeen Angus cattle 41 & nn 1–3
 Aberdeen University, lectureship 28 & nn 2–5
 aboriginal people, of Sulawesi 356–7 & 357 nn 1–3

Darwin, William Erasmus (supplement 1831–80), cont.

242 & 243 nn 1–2; CD asks him to look for *Utricularia* in Winchester 332–3 & 333 nn 1–4, 333 & 334 n2; CD buys photography supplies for 203–4 n1; CD has been studying William's old notes on *Pulmonaria* 371 & nn 1–3; CD requests bank pens 230 & nn 1–3; CD tells him Joseph has had teeth out 187 & nn 1–2; CD visits in Southampton 310 & n1, 334 & n1, 379 n7; on CD's ideas about glacial deposits 372 & n3; Claythorpe estate, inherited from S.E. Darwin 255 n1, 300–1 & 301 n1, 359 & n3; Claythorpe estate, would like J. Higgins's son to be tenant 300–1 & 301 nn 1–2; Emma Darwin gives opinion of M.L. Pennington 391 n1; G.H. Darwin's paper, read at the Royal Society of London 372 & n4; glad his *Pulmonaria* notes have been useful 372 & n2; Lincolnshire, plans to visit estates 227 & n3, 228 & n3; Lincolnshire, possible purchase of land 369 & nn 1–2, 372 & n7; Lincolnshire, returns signed agreement about property to J. Higgins 359 & nn 1–3; partner in Southampton and Hampshire Bank 230 n1; takes CD's photograph 251 & n2

Darwinism xviii, 39 & 40 n1, 262 & n2, 334–5 & 336 n1; opposition to in France 33 & 33–4 nn 5–6, 305; opposition to in Italy 265, 414 *see also* evolution; natural selection

Dassen, Michael 338 & 338–9 nn 1–2

Daubrée, Auguste: CD apologises for delay in sending specimens and thanks for paper 186–7 & 187 nn 1–3

Dawson, John William 64 & 65 n4, 257 n4

De la Beche, Henry Thomas 17 & n3

deafness: in cats 354 & nn 1–3

Decaisne, Joseph 208 & 209 n7; death of 112 & n4, 147 & n3, 407 & n4, 410 & n3

dedications to CD: C.F. Claus 367 & n3; J.E. Taylor 387 & n1

deep seas 324–31 & 331 nn 1–17

deer, canine teeth 264 & n2

deerhounds xxviii–xxix, 266 n2, 289 & nn 2–3

Delpino, Federico 125 & nn 1–2

deltas 17 & n3

Democritus 32 & n2

Dendrobium 234 n6

Denny, Henry: CD on lice on different races 178 & nn 1–4; lice on wild and domestic guinea pigs 267 & 270 n3

denudation 17 & nn 4–5, 222 & 223 n19

Derbyshire, Breadsall Priory 398 & n7

Descent (CD) 259 n2, 279 & 280 n6, 280 & n4, 295 & n1; CD correcting proofs 289 & n4; cites

G. Cupples 266 n2; comparative mental and moral powers of women and men xx, 21–2 & 22 nn 2–3; courtship behaviour in birds 301–2 & 302 nn 1–2; domestic cats 234 n2; fertile hybrids 391 n4; German translation 281 & nn 1–2; humans only species that show sympathy for the weak xxix–xxx; insect luminosity 270 n12; mental powers of animals 295 & nn 1–2; presentation list 289 & n4; reviews 299 & n5; rudimentary organs 36–7 & 37 n1; sexual selection in wild animals 266 & n4; size differences in deerhounds 266 n2

Descent 2d ed. (CD) 350 n1; colour in primates 357 & n2; hermaphroditism in fish 337 & 338 n4, 417 & n4; nests of flycatchers 346 & n1; origins of music 30 & n3

Descent US 2d ed. (CD) 345 & 346 n1

descent theory xxvii, 223 n23 *see also* evolution

development, children xix, 27 & nn 3–6, 60–1 & 61 nn 1–3, 306 & 307 n2

Dewalque, Gustave: CD thanks the Geological Society of Belgium for making him an honorary member 383 & n1

Dewar, James 118 & 119 n4; CD thanks for paper 321 & 322 n1

Dew-Smith, Albert George: reports on F.M. Balfour's health 90 & n1, 101 & n1

Dibley, Mary 43 & n8

Dicey, Albert Venn: CD asks various members to vote for Dicey for membership of the Athenaeum Club 79–80 & 80 nn 1–2, 83 & nn 1–2, 85 & n1; thanks CD for his help with his election at the Athenaeum Club 101 & nn 1–3; visits Down 419 & nn 6–7

Dicey, Elinor Mary 83 & n1, 419 & n7

Dicey, Thomas Edward 101 & n2

Dickens, Charles 61 & 62 n2

Dicrostonyx torquatus see Myodes torquatus

'Dimorphic condition in *Primula*' (CD) 286 & 288 n27

dimorphism 128 & 129 nn 2–3, 361 & 361–2 nn 1–9, 371 & n3

Dipsacus sylvestris (teasel) 378 & 379 nn 3–4

Diptera 283 & 284 n5, 355–6 & 356 nn 3–4, 416 & n5

diseases: cholera 160 & n13; measles 224 & n2; rinderpest 254 & n2; typhoid 43 & n5, 81 & n4, 90 & n4, 101 & n1

distilled water 174 & n2, 203, 395 & nn 1–2

'Distribution of the erratic boulders' (CD) 172 & n3, 190 & n4, 286 & 287 n13

diving beetles 88 & n1, 89–90 & 90 n1, 100–1 & 101 nn 1–4

honey-bees 260 & 260–1 n6, 412 & 413 n6

Hooker, Frances Harriet: CD thanks for *A general system of botany* 320 & n1; gives birth 256 & n3

Hooker, Hyacinth: CD sends contribution to fund for H. Fitch 10 & nn 1–2; CD thanks for bananas from Kew 386 & 387 nn 1–2, 399 & n1; Emma Darwin sends her love after CD's death 149 & n2; thanks CD for his contribution for H. Fitch 12 & n1

Hooker, Joseph Dalton 10 n2, 118, 421; CD on *Index Kewensis* and Hooker's dealings with the officials at Kew 36 & nn 1–2; death of CD, Emma Darwin writes to xxiii, 148–9 & 149 nn 1–2; death of CD, feelings about burial in Westminster Abbey 422 & 424 n9; death of CD, pall bearer 423, 427; W.T. and H.A. Thiselton-Dyer enjoyed their visit to Down 26 & n3; *Genera plantarum* 8 & 9 n9, 134 & 135 n9, 408 & 409 n9; *Index Kewensis* 26 & nn 1–2, 31 & 32 n1, 34 & nn 1–3

Hooker, Joseph Dalton (supplement 1831–80) 193 & 194 n2, 222 n4, 319, 374 & 375 n1; approaches to taxonomy 207–8 & 208–9 nn 6–8; CD discusses books and invites to Down 178 & nn 1–2; CD invites to Down 179 & nn 1–3; CD on charlock on J. Lubbock's land 288 & 288–9 nn 1–3; CD on earth from St Helena 256 & n4; CD on financial support for J. Torbitt's potato experiments 384 & 385 nn 1–5; CD thanks for letter and is glad F.H. Hooker is well 256 & nn 2–3; CD tries to arrange visit to Kew 308 & nn 1–2; CD would like F.A.W. Miquel's photograph 256 & n1; CD's first comments on *Nature* 279 n4; dispute with A.S. Ayrton over running of Royal Botanic Gardens 310 & nn 1–2; edited *A general system of botany* 320 & n1; *Flora Antarctica* 181 & 182 n1; *Flora Indica* 208 & 209 n7; *On the flora of Australia* 239–40 & 240 nn 5–7; hopes CD will visit 208 & 209 nn 9–11;

legumes 207 & 208 nn 1–5; *Pinguicula grandiflora* 333 & 334 n4; recommends W. Pamplin for paper for drying plants 238 & n2; Royal Botanic Gardens, director 310 n1; Royal Society of London, president 347 & 348 n7, 386 & 387 n1; sends information and specimens of Ascension Island plants 181–2 & 182 nn 1–3; support for bill to regulate vivisection 347 & 348 n7

Hooker, William Jackson 181 & 184 n1

hooks, on climbing plants 269 & 271 n17

Hopkins, Alfred Nind: found many dead earthworms on a path that had recently been asphalted 144 & n1

horned pondweed (*Zannichellia*) 135 & 136 n4

Horner, Anne Susanna: CD thanks for her condolences after A. Darwin's death 188 & 189 nn 1–4

Horner, Leonard 189 n4

hornless cattle 41 & nn 1–3

horse-chestnut (*Aesculus hippocastanum*) 74 & n1

horses 295 & n2, 381 & 382 n2

Horsfall, William: asks about trilobites and whether minute organisms can change from animal to plant 68–9 & 69 nn 1–2; CD on locomotive spores of algae that could be regarded as animals 70 & 71 n3; CD rejects the idea that trilobite fossils are evidence against evolution 70 & 71 nn 1–2

hoverflies (Syrphidae) 284 n3, 416 n3

Hubbard, John Gellibrand 38 & 39 n2

Huber, Jean Pierre 212 & n3, n5

Hughes, Charles Lawrence: advice for journey from Colonia to Mercedes, Uruguay xxiv, 151–2 & 153 nn 1–4

Hughes, Frances Jane: Emma Darwin thanks for her letter of condolence on the death of E.A. Darwin and says that CD has no objection to her referring to him in her book 80 & nn 1–4

Hughes, John 80 n3

Hughes, Thomas McKenny 318–19 & 319 n1

Huish, Frances Sarah 213 n2

Huish, Marcus 212–13 & 213 n2, 213 & 214 n2, 214 & n3

Hull, Edward 17 & n5

humans *see* man

humble bees 207, 365 n3

Humboldt, Alexander von: CD's admiration of xxviii, 273 & n2, 415 & n2

Humphry, George Murray 319; invites CD to a meeting to discuss a memorial to A. Sedgwick 318 & nn 1–2; memorial to A. Sedgwick, CD regrets health too poor to attend meeting 318–19 & 319 n1

theory on the formation of the 'parallel roads'
of Glen Roy 239 & 240 n1, 241 n2
- Janira* 8 & 9 n6
- Jeffreys, John Gwyn 110 & nn 2–4, 113 n3, 122 &
122–3 n1, n4, 124 & 125 n1
- Jellett, John Hewitt 335 & 336 3
- Jelski, Aleksander: asks CD for his signature and a
photograph xxvi, 217 & nn 1–3, 411 & nn 1–3
- Jenner, William 79 n2; CD thanks for invitation to
attend the meeting of the Science Advancement
Association but declines due to poor health xxi,
119 & 120 nn 1–3
- Jenyns, Leonard *see* Blomefield, Leonard
- Jerusalem artichoke (*Helianthus tuberosus*) 304 &
305 n4
- Jessel, George 118 & 119 n3
- Jews, persecution of 38–9 & 39 n1
- Jex-Blake, Sophia xxix, 296 n1
- Johnson, Arthur Peters 307 & 308 n3
- Johnson, Henry (1802/3–81): lifelong friend of CD
xxx, 387–8 & 388 nn 1–3
- Johnson, Henry (1823–85): asks CD if he knows of
any geologist who could give a talk to the
Dudley Institute of Mining Engineers 67 &
n3; CD glad he enjoyed *Earthworms* and accepts
offer of large slab of sandstone covered in
fossils 69 & n1; CD suggests he ask J.W. Judd
for advice about speaker 69 & n2; CD thanks
for slab of sandstone with fossil impressions 94,
96 & nn 1–2; gives information on depth of
mould 307–8 & 308 nn 1–3; read and enjoyed
Earthworms and offers to send CD a large slab
of sandstone covered in fossil worm tracks
and casts in return 66–7 & nn 1–2; tells CD
he has sent the slab of sandstone and encloses
details 75–6 & 76 n1; will consult J.W. Judd for
advice about speaker for the Dudley Institute of
Mining Engineers 75 & 76 n2
- Johnson, Lieutenant 327 & 331 n8
- Johnson, Lucy 161 & 162 n9
- Johnson, Mary Elisabeth: tells CD how much
H. Johnson enjoyed his letter, and about their
visit to cave excavation at Penally, near Tenby
xxx, 387–8 & 388 nn 1–3
- Johnson, William Augustus 161 & 162 n9
- Joule, James Prescott 384 & n2
- Journal and remarks* (CD) 167 n7; CD working on
proof-sheets 167–8 & 168 nn 1–3; delay in
publication of 169–70 n2; fields of clover in
New Zealand 207 & 208 n3; Rio Tindericca,
Chile 156 n12
- Journal of researches* (CD) 285 & 287 n5; Chile 139

Quatrefages 195 & n6; insect luminosity 270
n12; slavery 140 & 140–1 n2; thorn bushes 271
n17
- Jowett, Benjamin 38 & 39 n2, 210 & n2
- Judd, John Wesley: CD met in London 17 &
n6; CD proposes for fellowship of the Royal
Society of London 359 & n1; CD recommends
as someone who could speak to the Dudley
Institute of Mining Engineers 66 nn 3–4, 69
& n2, 75 & 76 n2; comments on G.H. Darwin's
article in *Nature* responding to R.S. Ball's lecture
on tidal forces 16–17 & 17 nn 1–5; C. Lyell met
335 & 336 nn 7–8
- Julian: CD sends autograph 246 & nn 1–2
- Julius Caesar, Gaius 249 & n2
- Jupiter 372 & n4
- katydid 91 & n7, 405 & 406 n7
- Kaufman, Konstantin Petrovich von: CD thanks
for specimens of wheat 396 & nn 1–2
- Keeling Islands 176 n2
- Keir, James 398 & 399 n10
- Kellogg, Fanny: CD thanks for letter about an
inherited gesture 394 & nn 1–2
- kelp 121–2 & 122 nn 1–3
- Kemble, Fanny 166 & 167 n8
- Kemp, Walter Gustav: CD on sterility in wild and
domestic species 339 & nn 1–3
- Kempson, Louisa Frances 160 & n16, 161 & 162 n4
- Kendall, John Dixon: movement of arms
when humans are walking may be due to a
rudimentary structure 36–7 & 37 n1
- Kennard, Caroline Augusta xx; CD gives his
opinion on the comparative mental and moral
powers of women and men 21–2 & 22 nn 1–3;
thanks CD for his letter and argues that women
should be given the same opportunities as men
before their intellectual powers can be judged
49–50 & 50 nn 1–3
- Kepley, Ada Harriet: does not believe that
earthworms are harmful to potted plants 89 &
nn 1–2
- Kerner von Marilaun, Anton: CD thanks for his
paper 320 & nn 1–3; CD thanks for his paper,
which is prefaced by a quotation from *Variation*
277 & nn 1–4; CD thanks for his paper on
protective measures in flowers and will send a
copy of *Cross and self fertilisation* 369 & nn 1–4,
370 & nn 1–3

- Litchfield, Richard Buckley 16 n3; CD thanks for his help 353 & nn 1–2; support for bill to regulate vivisection 347 & 348 n6, 348 & n3, 349 & 350 n2, 349 & n2
- Liveing, George Downing 42 & 43 n2
- Living Cirripedia* (CD) 180 n1, n4, 187 & 188 n2, 189 & n2, 247 & 248 n4, 287 & 288 n33, 314 & 315 n2, 367 n2, 368 & n2
- Livingstone, David 269 & 271 n16
- Llandudno, Wales 381 & 382 n3
- Lockyer, Alfred 67 & 68 n4
- Lockyer, Joseph Norman 66 n3, 97 & n1; CD asks if he will sign certificate for R. Meldola's application for fellowship of the Royal Society of London 70 & n1, 73 & 74 n2, 75 n1
- locomotion, human 36–7 & 37 n1
- Loct, Mr.: CD thinks he should have sent an addressed envelope 131 & n1
- locusts 91 & nn 7–8, 405 & 406 nn 7–8
- logwood (*Haematoxylon campechianum*; *Haematoxylum campechianum*) 381 & nn 1–2
- London and North Western Railway Company 281 & nn 1–2
- London and South Western Railway 7 & 8 n1, 53 & 54 n5
- London Institution 40 & n4
- London Library 194 n2, 210 n2; CD asks to borrow book by J. Pye Smith 180–1 & 181 nn 1–2
- long-toed pigeon (*Columba trocaz*) 198 & n6
- Lonsdale, William: CD with minor amendment to W. Whewell's address to the Geological Society of London 169 & 169–70 nn 1–2
- Lononnis parviflora see Ononis parviflora*
- Louth, Lincolnshire 237 & n4
- Lovegrove, Charles: CD thanks for his subscription to the Down Coal and Clothing Club 215 & 217 n1
- Lovén, Sven 287 n3
- Lowe, Robert 118 & 119 n3
- Lowell, James Russell: pall bearer for CD 423, 427
- Lubbock, John xxvii, 38 & 39 n2, 118 & 119 n5, 354 & 355 n2; CD writes to introduce J.R. Allen 109 & n1; certificate for R. Meldola's application for fellowship of the Royal Society of London 65 & 66 n3, 74 n1, 87 & n2, 97 & n1; certificate for R. Meldola's application for fellowship of the Royal Society of London, tells FD he has signed 96 & nn 1–2; charlock on his land 288 & n1; death of CD, pall bearer 423, 427; death of CD, presents memorial to House of Commons supporting burial in Westminster Abbey 422 & 424 n7; death of CD, writes to FD xxiv; support for bill to regulate vivisection 347 & 348 n4, 349 & n3; visits Down 349 n3, 419 & 420 n9
- Ludlow, John Malcolm Forbes: CD on audited balance sheet for the Down Friendly Society 350 & 350–1 nn 1–3

- Ludwig, Camilla: CD asks her to translate part of a letter 242 & nn 1–2
- Luehea altheiflora* (*Lueheopsis althaeiflora*) 361 & 362 n5
- Luehea paniculata* 361 & 362 n6
- Lumbricidae 138 & n3
- luminescence 268–9 & 270 nn 10–12
- lunacy xxix–xxx, 346 & n4
- lungwort (*Pulmonaria officinalis*) 371 & n3, 372 & n2
- Lydekker, Richard: inherited case of drooping eyelids 316 & nn 1–2
- Lyell, Charles 15 & n8, 122 & n3, 231–2 nn 1–2, 235 & 236 n2, 263 & 264 n6, 265, 319, 331 & n17, 414; *Antiquity of man* xxvii, 244 & n1; asks CD for information about crop rotation 308–9 & 309 nn 1–2; buried in Westminster Abbey 422, 423; CD has read his works many times 356 & n3; CD would like to visit 255 & n1, 278 & n1; CD's opinion of xxv–xxvi, 203 & nn 4–5; on T.F. Jamieson's visit to the 'parallel roads' of Glen Roy 239 & 240 n1; lecture on coral reefs 175–6 & 176 n3; on the longevity of species 239–40 & 240 nn 5–7; K.M. Lyell's selection of his letters 39 & 40 n2, 86–7 & 87 n1; man should be included in the theories of variation and natural selection xxvii, 258 & 259 nn 1–3; met J.W. Judd 335 & 336 nn 7–9; met H. Mitchell and saw his fossils of crustacean footprints 335 & 336 nn 4–6; A.G. More considers CD a profound reasoner 239 & 240 n2; *Principles of geology* 203 n5, 239 & 240 n7, 258 & 259 n1; Queen Victoria has read sections of his book concerning CD's theory of natural selection 244 & n1; science and religion and J. Tyndall's presidential address to the British Association for the Advancement of Science xxvii–xxviii, 334–6 & 336 nn 1–3, nn 10–11; supporter and close friend of CD 96 & n2, 203; volcanoes 258–9 & 259 nn 4–6
- Lyell, Henry 188 & 189 n4
- Lyell, James Carmichael: CD cannot find the translation of a work on pigeons that he asked for 102 & nn 1–2
- Lyell, Katharine Murray 188 & 189 n4, 336 n1, n12; CD tells her of a review of her collection of C. Lyell's letters in *Kosmos* and gives his opinion of the book 86–7 & 87 nn 1–2; publishes collection of C. Lyell's letters 39 & 40 n2
- Lyell, Leonard 239 & 240 n4
- Lyell, Mary Elizabeth: death of 335 & 336 n10
- Lynch, Richard Irwin: sleep in cotyledons of *Haematoxylon* 381 & nn 1–2
- Macaire, Isaac-François 308 & 309 n1
- MacAlister, Donald 50 & n1
- McArthur, Alexander 39 & n2
- Macdonald, James 41 & n2
- Mackarness, John Fielder 38 & 39 n2
- M'Kendrick, John Gray: CD thanks for paper 321 & 322 n1
- Mackintosh, Daniel: asks CD's views on spontaneous generation 102–3 & 103 n4; CD on J. Geikie's article on erratic boulders 107 & 108 nn 1–2; CD recommends W. Graham's *The creed of science* 107 & 108 n6; CD's views on origin of life and spontaneous generation 107 & 108 nn 3–5, 131 n3; on J. Geikie's reply to his paper on erratic boulders 102 & 103 nn 1–3
- McLaren, Charles Benjamin Bright 39 & n2
- Macrocystis pyrifera* (giant kelp) 122 n2
- Madagascar 284 n7, 416 n7
- Madeira, birds of 196–7 & 197 nn 1–4, 196 & nn 1–2, 197–8 & 198 nn 1–6, 198 & 199 n1, 222 & 223 n22
- Madeira laurel pigeon (*Columba trocaz*) 198 & n6
- madrepores 172 & 173 n3
- Maer Hall, Staffordshire 282 & 283 n2
- magnesium hydroxide 323 & 324 n2
- Magniac, Charles 38 & 39 n2
- Mainwaring, Edward Pellew 161 & 162 n9, 165 & 166 n3
- Mainwaring, Rowland 162 n9
- Mainwaring, Sarah 162 n9, 165 & 166 n3
- Mainwaring, Sophia Henrietta 161 & 162 n9
- Major, Charles Immanuel Forsyth: CD on Italian translation of *Expression* 315 & n2; CD thanks for his papers 315 & nn 3–4
- Maldanidae *see* Clymenidae
- Malherbe, Alfred 234–5 & 235 n1
- Malm, August Wilhelm: CD on his paper on the reproductive organs of fish 337–8 & 338 nn 1–5, 417 & nn 1–5
- Malpighiaceae 200–1 & 201 n6
- Malvaceae 361 & n2
- Malven, Ferdinand Maria: CD on his admiration for A. von Humboldt xxviii, 273 & nn 1–2, 415 & nn 1–2
- man: locomotion 36–7 & 37 n1; and natural selection xxvii, 258 & 259 nn 1–3
- Manning, Henry Edward 38 & 39 n2
- mantids 90–1 & 91 n2, n4, 405 & 405–6 n2, n4
- Manx cats 47 & n2
- Maranta* 125 & nn 1–2
- Maranta zebra* (zebra-plant; *Calathea zebra*) 125 & n1

- Maria: asks CD many questions about religion 290–2 & 292 nn 1–2, 292–4 & 294–5 nn 1–10; CD regrets he has not the time to discuss her questions 292 & nn 1–2
- Marine Insurance Company 53–4 & 54 n7
- Mariscus appendiculatus* (*Cyperus appendiculatus*) 181 & 182 n3
- Mariscus umbellatus* (Pacific island flatsedge; *Cyperus cyperoides*) 181 & 182 n3
- marsh violet (*Viola palustris*) 200 & 201 n4
- Marshall, William Cecil: CD asks him to observe the depth of earthworm burrows 351 & nn 1–3; CD thanks for his observations on *Pinguicula* 336–7 & 337 nn 1–3; designed the extension to Down House 351 n2; visits Down 419 & n1
- Martillepas hausmanni* see *Pollicipes hausmanni*
- Martin, John 158 & 159 n4
- Martineau, Harriet 162 & 163 n13, 166 & 167 n8
- Martineau, James 38 & 39 n2
- Martins, Charles Frédéric: supporter of evolution, persecuted by ultramontanists 147 & nn 4–5, 410 & nn 4–5
- Martius, Karl Friedrich Philipp von 341 & n2
- Mason, Nathaniel Haslope 197–8 & 198 n5
- Masters, Maxwell Tylden: CD sends article for *Gardeners' Chronicle* 298 & nn 1–2
- Matteucci, Carlo 269 & 270 n13
- Max Müller, Friedrich 28 & n5; visits Down 419 & 420 n9
- Max Müller, Georgina Adelaide 419 & 420 n9
- Meade, Richard Henry: CD asks about maxillae in Phalangiidae 223 & 224 nn 1–3
- Meadows, Alfred 389 & n3
- measles 224 & n2
- Medical Times and Gazette*: testimonial for J. Murie 319 & 320 nn 1–3
- medicine 119 & 120 n2
- Megascolecidae 109 n3
- Meldola, Raphael: asks for a copy of *Earthworms* for the library of the Epping Forest and County of Essex Naturalists Field Club 57 & n2; asks if he may borrow A. Weismann's paper on daphnids 24 & nn 1–3, 51 & n2; CD asks J. Murray to send copy of *Earthworms* for the Epping Forest and County of Essex Naturalists Field Club 65 & 66 n1; on the death of A. Brady 24 & n5; enjoyed reading *Earthworms* 24 & n4; FD replies that CD would be pleased to lend A. Weismann's paper on daphnids 25 & n1; fellowship of the Royal Society of London, asks CD to propose him 57 & n4; fellowship of the Royal Society of London, CD has sent certificate proposing him 97 & nn 1–3, 98 & n1; fellowship of the Royal Society of London, CD proposes him and circulates a certificate to collect signatures 65 & 66 nn 2–4, 70 & n1, 73 & 74 nn 1–2, 75 & nn 1–2, 87 & nn 1–2, 96 & n2; fellowship of the Royal Society of London, returns application form 67 & 67–8 nn 1–2; president of the Epping Forest and County of Essex Naturalists Field Club 57 & n2; thanks CD for copy of *Earthworms* for the Epping Forest and County of Essex Naturalists Field Club 67 & 68 nn 2–3; A. Weismann's *Studies in the theory of descent*, asks if CD could expand his preface 51 & n1; A. Weismann's *Studies in the theory of descent*, CD offers to pay a subscription for 56–7 & 57 n1, 56 & n4; A. Weismann's *Studies in the theory of descent*, CD regrets that he is unable to expand his preface 56 & nn 1–2; A. Weismann's *Studies in the theory of descent*, CD writes a preface to Meldola's translation of 24 & 25 n7, 51 & n1, 56 & n1; A. Weismann's *Studies in the theory of descent*, thanks CD for his offer to pay a subscription for his translation of 56–7 & 57 n1; A. Weismann's *Studies in the theory of descent*, CD thinks Meldola's preface is excellent 56 & n3; working on the alternation of generations 51 & n2
- Meldola, Raphael (supplement 1831–80): CD sends insects to identify 385 & n1
- Menispermum canadense* (Canadian moonseed) 217 & 218 nn 1–2
- mental illness xxix–xxx, 346 & n4
- Mer, Émile 381 n1
- Mercedes, Uruguay 152 & 153 n1
- Meredith, Louisa Anne 194 & n6
- Merighi, Giuseppe: CD on his observations on the geology of South Africa 87 & n1
- metamorphic rocks 64 & 65 n5
- Metaphire* 109 n3
- meteoric dust 13 & 15 n5
- meteorites 54–5 & n2, 55 & n2, 65 n2
- Meteyard, Eliza: writing biography of J. Wedgwood I 253 & n4
- Miall, Louis Compton 224 n1
- Michie, John Grant 35 & 36 n3
- microscopes 10 & 11 n3, 37 & n2, 40 & n3, 45 & n2, 47 n3, 124 & n1
- Midland Union of Scientific and Literary Societies: Darwin Prize and medal 132 & n2
- Miller, Hugh 210 & 211 nn 3–4
- Miller, William Allen 262 n3
- Mimosa pudica* (shame plant) 1 & 2 n1
- minerals 64 & 65 n5
- Miquel, Friedrich Anton Wilhelm 256 & n1

- Quatrefages, Armand de: CD asks about silkworms 238–9 & 239 nn 1–4; CD introduces G.H. Darwin 274 & n1; CD on French translation of *Origin* 220 & 220–1 nn 1–4; CD on his article on the origins of plant and animal species 274 & n2; CD sends a complete list of his publications 285–7 & 287–8 n2, nn 4–35; CD thanks for his book and asks about P. Flourens's work on hybrids 194–5 & 195 nn 1–6; CD thanks for his support for his candidacy for election to the French Académie des sciences 285 & 287 n3
- Queensland, Australia xxi, 62 & 63 n11
- quinine 61 & 62 n3, 245 n1
- rabbits 47 & n2, 48 & n1, 380 n5; F. Galton's experiments on 313 & n2, 314 & n1; skeletons 199 & n5
- Ralfs, John: CD requests plants of *Utricularia* and *Pinguicula* 333 & 334 nn 1–5
- Ramsay, Andrew Crombie 17 & n5; CD thanks for his book 315 & 315–16 nn 1–2; gives details of action of earthworms at his previous address 401 & nn 1–3; travelled through France 401 & 402 nn 4–6
- Ramsay, Dorothea Georgina Charlotte 401 & 402 n4
- Ramsay, Elizabeth Eleanor 401 & 402 n4
- Ramsay, Frances Louisa Margaret 401 & 402 n4
- Ramsay, Louisa 401 & 402 n4
- Ramsay, Violet Grace Mary 401 & 402 n4
- Rands, William Brightly: review of *Expression* 318 n2
- Rawlinson, James: made two portraits of ED 398 & 399 n9
- Rawson, Arthur: CD asks for details of his experiments on fertilising flowers 243 & nn 1–4; CD would like to loan plant of *Cypripedium pubescens* 243 & n5
- Reade, Alfred Arthur: CD gives details of his use of alcohol and tobacco xxi–xxii, 81–2 & 82 nn 1–2
- Reade, William Winwood 299 n3
- READING (CD): G. Allen, 'The daisy's pedigree' 4 & n1; F.M. Balfour, *A treatise on comparative embryology* 8 & 9 n2; CD on reading German 23; J. Collier, *A primer of art* 85–6 & 86 nn 1–2; J. Geikie, 'Intercrossing of erratics in glacial deposits' 107 & 108 n1; J.H. Gilbert and J.B. Lawes, paper in *Philosophical Transactions of the Royal Society of London* 25 & 26 n3; W. Graham, *The creed of science* 107 & 108 n6; E. Gurney, articles on the ethics of animal experiments 84 & n3; E. Holub, *Seven years in South Africa* 45 & nn 1–2; T.H. Huxley, *Science and culture and other essays* 86 & nn 3–4; *International scientists' directory* 74 & n2; K.M. Lyell, *Life, letters and journals of Sir Charles Lyell* 39 & 40 n2, 86–7; H. Müller, *Fertilisation of flowers* 52; N.A.E. Nordenskiöld, *The voyage of the Vega* 4 & 5 n8; W. Ogle, *Aristotle on the parts of animals* 96–7 & 97 nn 1–3; *Quarterly Review* 39 & 40 nn 1–2; J.E. Todd, 'On the flowers of *Solanum rostratum* and *Cassia chamaecrista*' 145 & nn 1–2
- READING (CD; supplement 1831–80): E.C. and A. Agassiz, *Seaside studies in natural history* 298 & n4; G. Allen, *Physiological aesthetics* 378 & 379 n8, 380 n8; anon, *Explanations: a sequel to 'Vestiges of the natural history of creation'* 181 & n2; L. Bertillon, *Valeur philosophique de l'hypothèse du transformisme* 305 & n1; J.F. Bullar, 'The generative organs of the parasitic isopoda' 375 & n3; CD on reading German 187, 277, 299, 339, 366; M. Dassen, 'Onderzoek aangaande de bladbewegingen, die niet door aanzwellingen ontstann' 338 & 339 n2; J. Downing, 'Shorthorn breeding and type maintenance' 322 & n2; P. Flourens, *De la longévité humaine et de la quantité de vie sur le globe* 194 & 195 n3; A.B. Frank, *Die natürliche wagerechte Richtung von Pflanzentheilen* 382 & n2; I. Geoffroy Saint-Hilaire, various works 219 & 220 nn 4–5; E.W.V. Harcourt, paper on ornithology of Madeira 196 & 197 n2, 196 & n2, 197 & 198 n3; E.W.V. Harcourt, *Sketch of Madeira* 196 & 197 n2, 197 & 198 n3; H. Holland, 'Life and organisation' 235 & nn 2–3; J. Hunter, *Memoranda on vegetation* 230 & n1; A. Kerner von Marilaun, 'Die Schutzmittel der Blüthen gegen unberufene Gäste' 369 & nn 2–3, 370 & n1; G.H. Lewes, articles in *Fortnightly Review* 267–70 & 270–1 nn 1–17; librarians, lists of books for 180–1 & 181 nn 1–2, 191 & 1–6, 210 & 210–11 nn 1–6; C. Lyell, has read his works many times 356 & n3; A.W. Malm, 'Bidrag till kannedom af Pleuronektiernas utveckling och byggnad' 338 & n5, 417 & n5; H. Miller, *My schools & schoolmasters; or, the story of my education* 210 & 211 n3; H.N. Moseley, papers on *Peripatus* and coloration of deep-sea animals 375 & n2; H. Müller, *Die Befruchtung der Blumen durch Insekten* 321 & nn 2–3; J.C. Nott and G.R. Gliddon, *Types of mankind* 198 & 199 n2; S. Pepys, first three volumes of diary 191 & n1, n3; J. Pye Smith, *On the relation between the Holy Scriptures and some parts of geological science* 181 & n2; A. de Quatrefages, 'Origines des espèces
