acidification, 332, 481
activities causal loop diagram (CLD). *See* system dynamics
adaptation. *See* climate change
Africa, 40, 55, 72, 317, 386
agent-based model (ABM). *See* modelling; models
agrarianization, 39, 41, 45, 64
agriculture. *See* agro-food systems
agro-food systems
  and energy, 387
  and energy use, 435
  and erosion, 314
  and forests, 354
  and trade, 373, 387
  intensification, 42, 57, 373, 386
  irrigation, 42, 376, 387, 401
  limits and externalities, 385
  production, 42, 85, 257, 375, 425
algorithms, 220, 237, 270, 502, 518
anthrome, 260
Anthropocene, 25, 69–70, 336, 540
archetype, 215, 450
  arms race, 216
Aristotle, 100, 111, 124, 132, 148
asabiya, 63, 130
attitudes, 307

basic income, 519
belief, 98, 126, 175, 268
beliefs, 143–145
Bhagavad Gita, 148, 529, 584
Bible, 50, 144, 370
bifurcation. *See* complexity
biodiversity, 22, 321–327, 355, 402, 451
bounded rationality, 127, 175, 504
Buddhism, 59, 110, 121, 153

capability approach, 14
carbon dioxide, 99, 331, 429
carrying capacity, 30, 210, 274, 327, 343
Catholic Church, 69, 93
causal loop diagram (CLD), 212, 265, 327
cellular automata (CA). *See* modelling; models
China, 59–61, 66, 294, 317, 356, 379, 398, 464, 479, 487
climate change
  and energy, 437, 445
  and food, 386
  and water, 413, 419
collapse
  of civilization, 43, 49, 63, 544
  of ecosystem, 170, 222, 318
  of population, 30, 264, 327
  of resource system, 344, 349, 351
common pool resource (CPR), 185, 483
competition, 40, 144, 150, 216, 270, 302, 330, 343, 393, 445, 498, 539
complexity
  aggregate, 165–170
  managing of, 165–170
  social, 45, 62, 94
cooperation, 45, 63, 93, 127, 130, 144, 185, 269, 270
cost–benefit analysis (CBA), 164, 239
Crete, 53, 54
(crude) birth rates (CBR). *See* fertility
(crude) death rates (CDR). *See* mortality
Cultural Theory, 110, 132, 133, 135, 136, 137, 169, 177, 307, 416, 519, 545, 606, *see also* modelling

Darwin. *See* evolution
Deep Ecology, 24, 111, 153
delays. *See* system dynamics
Denmark, 75, 95, 357, 383
desalinization, 387
desertification. *See* agro-food systems
dissipation. *See* dissipative losses
dissipative losses, 473

Easter Island, 43
economy
  biomass, 273, 379, 430
  equilibrium, 77, 173, 504
  growth of, 18, 34, 76, 179, 246, 503, 506, 515
