Cambridge University Press & Assessment has no responsibility for the persistence
or accuracy of URLs for external or third-party internet websites referred to in this
publication and does not guarantee that any content on such websites is, or will
remain, accurate or appropriate.

Every effort has been made in preparing this Element to provide accurate and up-to-date information
that is in accord with accepted standards and practice at the time of publication. Although case
histories are drawn from actual cases, every effort has been made to disguise the identities of the
individuals involved. Nevertheless, the authors, editors, and publishers can make no warranties that
the information contained herein is totally free from error, not least because clinical standards are
constantly changing through research and regulation. The authors, editors, and publishers therefore
disclaim all liability for direct or consequential damages resulting from the use of material contained in
this Element. Readers are strongly advised to pay careful attention to information provided by the
manufacturer of any drugs or equipment that they plan to use.
