antee that any content on such websites is, or will remain, accurate  
or appropriate.

.....  
Every effort has been made in preparing this book to provide  
accurate and up-to-date information that is in accord with accepted  
standards and practice at the time of publication. Although case  
histories are drawn from actual cases, every effort has been made to  
disguise the identities of the individuals involved. Nevertheless, the  
authors, editors, and publishers can make no warranties that the  
information contained herein is totally free from error, not least  
because clinical standards are constantly changing through research  
and regulation. The authors, editors, and publishers therefore dis-  
claim all liability for direct or consequential damages resulting from  
the use of material contained in this book. Readers are strongly  
advised to pay careful attention to information provided by the  
manufacturer of any drugs or equipment that they plan to use.
