

The Political Writings of George Washington

The Political Writings of George Washington, in two volumes, includes Washington's enduring writings on politics, prudence, and statesmanship. It is the only complete collection, for his political thought has received less attention than the writings of other leading founders such as Thomas Jefferson, James Madison, John Adams, and Alexander Hamilton. Covering his life of public service – from his young manhood, when he fought in the French and Indian Wars, through his time as commander-in-chief of the revolutionary army; his two terms as America's first president, and his brief periods of retirement, during which he followed and commented on American politics astutely – the volumes also include firsthand accounts of Washington's death and reflections on his legacy by those who knew him or reflected deeply on his significance. The result is a more thorough understanding of Washington's political thought and America's Founding.

CARSON HOLLOWAY is Professor of Political Science at the University of Nebraska at Omaha. He is co-editor, with Bradford P. Wilson, of *The Political Writings of Alexander Hamilton* and the author of *Hamilton versus Jefferson in the Washington Administration: Completing the Founding or Betraying the Founding?*

BRADFORD P. WILSON is Executive Director of the James Madison Program in American Ideals and Institutions at Princeton University. He is co-editor, with Carson Holloway, of *The Political Writings of Alexander Hamilton*, published by Cambridge University Press.

The Political Writings of American Statesmen

Co-edited by Bradford P. Wilson (Princeton University) and Carson Holloway (University of Nebraska at Omaha), the Political Writings of American Statesmen publishes volumes collecting key documents by leading American political figures throughout the nation's history. The volumes aim to offer – through the documents – an understanding of the vital issues of the time and of the enduring questions of justice, prudence, law, and constitutional government that characterize the development of American republicanism. Wilson and Holloway are the co-editors of the first two works in the series: *The Political Writings of Alexander Hamilton* (2017) and *The Political Writings of George Washington*. Works on John Jay and James Madison are in progress.

Acknowledgments

We wish to express our gratitude to Cambridge University Press for publishing this work. We must particularly thank our Cambridge editor, Robert Dreesen, for encouraging us to pursue this project and for guiding us through the process of preparing these volumes for publication. Our thanks are also due to those scholars who acted as reviewers for the project and who offered their support and helpful suggestions for improvement. In addition, we wish to thank Washington scholars William Allen, William Hay, and Kevin Weddle for their advice at critical junctures in our research. Finally, we gratefully acknowledge the efforts of earlier editors and compilers of Washington's writings, whose work has inspired and helped to guide our own.

Carson Holloway would like to thank the Claremont Institute's Center for the American Way of Life for its support for his work. He also thanks the Center's director, Arthur Milikh, for his friendship. In addition, he wishes to express his gratitude to his colleagues at the University of Nebraska at Omaha for their friendship and encouragement, and to the College of Arts and Sciences for a faculty development fellowship that materially assisted the completion of this project. Finally, he is grateful to his wife, Shari, and his daughters – Maria, Anna, Elizabeth, Catherine, Jane, and Emily – for their love and support, and for listening patiently to his frequent dinner table observations on the greatness of George Washington.

Bradford Wilson wishes to thank the James Madison Program in American Ideals and Institutions at Princeton University and its director, Robert P. George, for providing a uniquely hospitable home for scholarly work on the political thought of American statesmen. He thanks Antonin Scalia and Princeton University librarian Jeremy Darrington for their research assistance, and Grace Snell for her assistance with the preparation of the manuscript. To classicist Solveig Gold we owe the translations in the text of Latin passages well known to the Founders' generation. Finally, he wishes to express his gratitude to his wife Elle, his children, and his grandchildren for the love, support, and pleasant distractions they have offered during his work on the great George Washington.
