Cambridge University Press & Assessment has no responsibility for the
persistence or accuracy of URLs for external or third-party internet websites
referred to in this publication and does not guarantee that any content on such
websites is, or will remain, accurate or appropriate.

Every effort has been made in preparing this book to provide accurate and
up-to-date information that is in accord with accepted standards and practice
at the time of publication. Although case histories are drawn from actual cases,
every effort has been made to disguise the identities of the individuals involved.
Nevertheless, the authors, editors, and publishers can make no warranties that
the information contained herein is totally free from error, not least because
clinical standards are constantly changing through research and regulation.

The authors, editors, and publishers therefore disclaim all liability for direct or
consequential damages resulting from the use of material contained in this book.
Readers are strongly advised to pay careful attention to information provided by
the manufacturer of any drugs or equipment that they plan to use.

Acknowledgements

I would like to thank the following people for their support and advice in developing this book: Jess and the team at Cambridge University Press, you have all been wonderful. Also, Etta, Angelica and Francesca for their understanding. Most of all, I am indebted to my patients and their families for sharing their journeys.
