INDEX OF PLACES

Places are followed by the modern country the town is in (as of 1 June, 2017). Provinces and regions in CAPITALS are listed with the approximate equivalent in terms of modern countries and are indexed to mention of the province in the texts, not to every town mentioned within the province. Information on the ancient sites relies enormously on R.J.A. Talbert (ed.) *The Barrington Atlas of the Greek and Roman World* (Princeton, 2000)
