Cambridge University Press & Assessment has no responsibility for the persistence  
or accuracy of URLs for external or third-party internet websites referred to in this  
publication and does not guarantee that any content on such websites is, or will  
remain, accurate or appropriate.

Every effort has been made in preparing this Element to provide accurate and up-to-date  
information which is in accord with accepted standards and practice at the time of  
publication. Although case histories are drawn from actual cases, every effort has been  
made to disguise the identities of the individuals involved. Nevertheless, the authors,  
editors and publishers can make no warranties that the information contained herein  
is totally free from error, not least because clinical standards are constantly changing  
through research and regulation. The authors, editors and publishers therefore  
disclaim all liability for direct or consequential damages resulting from the use of  
material contained in this Element. Readers are strongly advised to pay careful attention  
to information provided by the manufacturer of any drugs or equipment that they  
plan to use.
