Cambridge University Press & Assessment has no responsibility for the persistence  
or accuracy of URLs for external or third-party internet websites referred to in this  
publication and does not guarantee that any content on such websites is, or will  
remain, accurate or appropriate.

Every effort has been made in preparing this Element to provide accurate and  
up-to-date information which is in accord with accepted standards and practice at the  
time of publication. Although case histories are drawn from actual cases, every  
effort has been made to disguise the identities of the individuals involved.  
Nevertheless, the authors, editors, and publishers can make no warranties that the  
information contained herein is totally free from error, not least because clinical  
standards are constantly changing through research and regulation. The authors,  
editors, and publishers therefore disclaim all liability for direct or consequential  
damages resulting from the use of material contained in this Element. Readers are  
strongly advised to pay careful attention to information provided by the manufacturer  
of any drugs or equipment that they plan to use.
