Every effort has been made in preparing this Element to provide accurate and up-to-date
information which is in accord with accepted standards and practice at the time of publication.
Although case histories are drawn from actual cases, every effort has been made to disguise the
identities of the individuals involved. Nevertheless, the authors, editors and publishers can make
no warranties that the information contained herein is totally free from error, not least because
clinical standards are constantly changing through research and regulation. The authors, editors
and publishers therefore disclaim all liability for direct or consequential damages resulting from
the use of material contained in this Element. Readers are strongly advised to pay careful attention
to information provided by the manufacturer of any drugs or equipment that they plan to use.
