Cambridge University Press has no responsibility for the persistence or
 accuracy of URLs for external or third-party internet websites referred to
 in this publication, and does not guarantee that any content on such
 websites is, or will remain, accurate or appropriate.

Every effort has been made in preparing this book to provide accurate
 and up-to-date information which is in accord with accepted standards
 and practice at the time of publication. Although case histories are
 drawn from actual cases, every effort has been made to disguise the
 identities of the individuals involved. Nevertheless, the authors, editors,
 and publishers can make no warranties that the information contained
 herein is totally free from error, not least because clinical standards are
 constantly changing through research and regulation. The authors,
 editors, and publishers therefore disclaim all liability for direct or
 consequential damages resulting from the use of material contained in
 this book. Readers are strongly advised to pay careful attention to
 information provided by the manufacturer of any drugs or equipment
 that they plan to use.
