
Index

- adapted, 5, 55
- atoms, 5

- binomial tree, 3
- Black–Scholes
 - equation, 153
- Brownian bridge, 46
- Brownian motion, 41

- Central Limit Theorem, 41
- Chapman–Kolmogorov equation, 34
- characteristics, 92
- compensator, 12

- distributions
 - finite-dimensional, 49
- Doob’s
 - L^2 -inequality, 24
 - decomposition theorem, 11
 - inequality, 59
 - maximal inequality, 23
 - optional sampling theorem, 21
- drift, 92

- equation
 - Black–Scholes, 153
 - Langevin, 159
 - stochastic differential, 153
 - Vasicek, 160

- Fatou lemma
 - conditional, 142
- Feynman–Kac formula, 145
- filtration, 5, 55
 - generated, 4, 55
 - natural, 4, 55
- flow, 171
- formula
 - Feynman–Kac, 145
 - Itô, 110, 113, 118, 126, 136
- Gaussian
 - process, 47
 - vector, 47
- Gronwall lemma, 157

- Haar functions, 43
- homogeneous, 67
 - Markov chain, 33
 - Markov process, 31

- indistinguishable, 51
- inequality
 - Doob’s, 59
 - Doob’s L^2 , 24
 - Doob’s maximal, 23
 - Jensen, 10
- integral
 - Itô, 83, 87
 - stochastic, 83, 87, 133
- isometry
 - conditional Itô, 93
- Itô
 - conditional isometry, 93
 - correction, 111
 - discrete isometry, 13
 - formula, 110, 113, 118, 126, 136
 - integral, 83, 87, 133
 - isometry, 85, 88
 - process, 92, 135
- Jensen inequality, 10

- Langevin equation, 159
- lemma
 - Gronwall, 157
- local martingale, 140
- localising
 - sequence, 131

- Markov
 - chain, 32
 - process, 30, 66
 - property, 30
- martingale, 6, 56
 - local, 140
- modification, 50

- natural filtration, 55
- Ornstein–Uhlenbeck process, 159
- path, 49
- predictable, 8
- probability space
 - filtered, 5
- process
 - adapted, 5, 55
 - Gaussian, 47
 - homogeneous, 67
 - Itô, 92
 - Markov, 66
 - Ornstein–Uhlenbeck, 159
 - predictable, 8
 - progressive, 55
 - progressively measurable, 55
 - simple, 81
 - stochastic, 49
 - stopped, 18
 - Wiener, 41
- progressively measurable, 55
- quadratic variation, 39, 53
- random walk, 3
 - scaled, 38
- representation theorem, 10
- reverse martingale, 76
- sample path, 49
- SDE, 153
- simple process, 81
- space \mathcal{M}^2 , 81
- states, 32
- stochastic
 - differential, 92
 - differential equation, 153
 - integral, 83, 87, 133
- stochastic process, 49
 - discrete-time, 2
- stopped process, 18
- stopping time, 14, 62
 - bounded, 62
- submartingale, 10, 56
- supermartingale, 10, 56
- theorem
 - Doob’s decomposition, 11
 - Doob’s optional sampling, 21
 - martingale convergence, 25
 - optional sampling, 27
- tower property, 6
- transition matrix, 33
- uniformly integrable, 76
- usual conditions, 56
- variation, 39, 54
 - quadratic, 39, 53
- Vasicek equation, 160
- version, 50
- Wiener process, 41
