

Index

- accuracy of expectations
 - costs versus benefits, 180
 - demographic differences, 179, 224
 - level versus change over time, 179
 - representative agent fallacy, 177
- affect, defined, 23, 126
- affective info processing
 - independent from cognition, 125
 - automatic evaluations of information, 132
- affective states
 - emotions, 129
 - evaluations, 127
 - moods, 128
- allocation of mental resources
 - cognitive, emotional, social, 183
 - conscious and nonconscious, 105
 - opportunity costs favor nonconscious, 162
- associative learning
 - nonconscious model building, 115
 - similar to econometric procedures, 182

- Bernanke, Ben, 135
- Betsch, Tilmann, 103
- big data
 - impact on scientific methodology, 189, 278

- Carlson, J. A., 251
- cognitive ability, overall
 - conscious more limited than nonconscious, 104
 - experience favors nonconscious cognition, 163
 - optimal mix of conscious and nonconscious, 25
- cognitive limitation
 - evidence weak, 54, 64
 - international replications, 55
- conscious deliberation, decision to sue
 - high opportunity costs, 162
- conscious deliberation, decision to use
 - avored for new and unique events, 169
 - high opportunity costs, 158
- construction of economic expectations
 - conscious and nonconscious sources, 164
 - consistency with economic theory, 151
 - equilibrium as context, 313
 - formed to meet decision needs, 165, 169
 - representative agent fallacy, 177
- consumer sentiment
 - impact of question wording, 238
 - index construction, 248
 - leading economic indicator, 223
 - worldwide measurement, 244
- consumer theory
 - constant monitoring of events, 129, 135
 - creature of subsistence era, 197, 208, 229
 - independent macro force, 207
 - passive to active actor, 14, 197, 211
 - synchronized change in expectations, 216, 231
- context dependent expectations
 - accuracy reflects context, 178
 - context shapes formation, 175
- Curtin, Richard T., 89

- Darwin, Charles, 126, 160, 186
- De Grauwe, Paul, 224
- Descartes, René, 101, 125
- Destrebecqz, Arnaud, 97

- differences in expectations
 - by age, 297
 - by education, 291
 - different levels, similar changes, 179, 285
 - by gender and marital status, 301
 - by geographic region, 304
 - implications, 307
 - by income, 294
 - influence of bias, 285, 291
 - reflect economic circumstances, 225
 - reflects economic situation, 71, 176, 178, 224
- Dominitz, J., 262–263
- dopamine, role in expectations, 109
- emotions
 - impact on formation process, 130, 158, 232
 - as motivation to form expectations, 144, 163
- evaluations, automatic
 - information tagged with affect, 131, 175
 - occurs before conscious awareness, 130
- expectations, conventional theories
 - adaptive expectations, 35, 45
 - bounded rationality, 30, 158
 - dual process model, 157
 - evolutionary rationale, 107
 - extrapolation, 34, 45
 - heuristics and biases, 30, 67, 95, 106, 158
 - learning, 34, 45
 - prospect theory, 105, 136
- expectations, formation
 - automatic associative learning, 116
 - innate process, 107
 - learning without conscious knowledge, 114, 116
 - numeracy, small and large numbers, 111
 - preference for frequencies, 113
- expectations, tailored
 - costs versus accuracy benefits, 169, 172
 - formed for specific use, 172
 - social information critical, 183, 231
- Freud, Sigmund, 102, 157
- Friedman, Milton, 36, 116, 181, 210, 282
- Galilei, Galileo, 186
- Granger, Clive, 54
- Guiso, L., 262
- Hogarth, Robin, 107
- Japelli, T., 262
- Jevons, William Stanley, 217
- justification of expectations, 104
- Kahneman, Daniel, 29–30, 43, 67, 97, 105, 118, 131, 136, 138, 157, 164, 174, 187, 260, 268
- Katona, George, 16, 27, 32, 128, 146, 198, 234, 238, 241, 241n2, 242–243, 324
- Keynes, John Maynard, 32, 197, 206, 207n1, 209, 212, 237, 261
 - animal spirits, 17, 32, 125, 196
 - beauty contests, 143, 159, 218
- Klein, Lawrence, 33, 241
- Kuhn, Thomas, 309, 315
- Kuznets, Simon, 68, 212
- Kydland, Finn, 211
- Lucas, Robert, 29, 203
- Malthus, Thomas, 12, 14, 208
- Manski, C. F., 260–263
- Mill, J. S., 215
- mirror neurons, 143, 146, 160
- Modigliani, Franco, 210
- mood
 - create change in momentum, 140
 - crucial role in turning points, 141
 - impact on conscious and nonconscious processing, 135
 - impact on expectations, 129, 134
- Muller, Eva, 243
- Muth, John, 29, 36, 315
- national economic statistics
 - adequacy of media reports, 85
 - knowledge, 69, 77, 80
 - reification of economic statistics, 70
 - trust in data, 82
- Newton, Isaac, 186, 309
- nonconscious decision making
 - independent of potential risk and reward, 120
- nonconscious learning
 - covariance detection, 98, 117, 119
 - defined, 115
 - similarity to econometric models, 121
- opportunity cost of conscious processing, 158, 162

- paradigm shift
 - resistance, 186
- paradigm shift, endogenous process, 325
- paradigm shift, need for
 - equilibrium as context, 313, 317
 - includes theories and methods, 309
 - rationality still dominates, 315
- Parkin, M., 251
- Petty, William, 68
- Pew Research Center, 69, 84
- Pigou, Arthur Cecil, 215, 261
- Prescott, Edward, 211

- quantitative ability
 - probabilities and percentages, 113
 - small and large numbers, 112

- recessions
 - ambiguity versus risk, 220
 - consumers dominate business investment, 206, 229
 - consumers dominate business investment, 213
 - endogenous causes, 12, 211
 - exogenous causes, 211
- Ricardo, David, 12, 14, 197, 206, 208, 229

- Sargent, Thomas, 29
- Say, Jean-Baptiste, 209
- self-fulfilling expectations, 216, 218
- Sen, Amartya, 132
- Shiller, Robert, 29
- Simon, Herbert, 29, 67, 158
- Sims, Christopher, 121
- Smith, Adam, 12, 14, 29, 197, 206, 208, 229
- social contagion, 145

- sources of economic information
 - formal, 70, 84, 173
 - informal, 93, 159, 173
 - specific to individual, 70, 231
- Stiglitz, Joseph, 132
- Stock, James, 121
- survey methodology
 - alternative methods, 249
 - future changes, 281
 - index formulation, 248
 - questions, 246
 - response scales, 257
 - sample design, 244

- Tarde, Gabriel, 30
- Theil, H., 251
- Thomas, Lloyd B., Jr., 50
- Thorndike, Edward, 109
- Tobin, James, 198
- Tolstoy, Leo, 195
- Tsuchiya, Naotsugu, 166
- Turk-Browne, Nicholas, 118
- Turner, Jonathon, 156, 160, 175
- Tversky, Amos, 30, 67, 136, 138, 174, 260

- unexpected events, 108
- unfavorable economic news
 - bad news principle, 135
 - in survey results, 138
- updating expectations, 42, 149, 170
- updating information, 91

- Watson, Mark, 121

- Zajonc, Robert, 130
- Zeldes, Stephen, 210n4
