Subject Index

- actual prediction error, 431
- actual probability of misclassification, 434
- AdaBoost, 460
 - discrete, 460
 - real, 461
- AIC, 113, 284, 356, 501
- analysis of deviance, 69, 354
- Anscombe residuals, 94
- apparent error rate, 432
- association measures, 118
- association models, 331
- AUC, 450

- backfitting algorithm, 294
- bagging, 458
- base procedure, 462
- basis expansions, 270
- basis pursuit, 149
- Bayes classifier, 434
- Bayes risk, 444
- Bayes rule, 439, 440
 - for general loss functions, 444
- Bayes theorem, 440
- Bayesian approach
 - selection, 178
- Bernoulli distribution, 56
- best linear unbiased prediction, 400
- Beta distribution, 134, 489
- beta function, 134
- beta-binomial distribution, 486
- beta-binomial model, 134
- BIC, 113, 356
- binary response, 29
 - as dichotomized latent variables, 34
- binomial distribution, 31, 57, 485
- BLUP, 400
- boosting, 163, 292, 460
 - functional gradient descent, 461
 - likelihood-based, 466
 - logitBoost, 166, 467
 - blockwise, 166
 - componentwise, 164
 - for generalized linear models, 165
- bootstrap, 447
- Bradley-Terry-Luce model, 229
- Brier score, 435, 438

- canonical discriminant variables, 453
- canonical link, 54, 61
- case deletion, 97
- categorical effect modifier, 302
- categorical predictor
 - selection, 173
 - selection within, 173
- categorized predictor
 - selection, 176
- category-specific effect, 250
- category-specific variables, 215
- Cauchy model, 126
- chain between vertices, 346
- choice models, 226
- choice-based sampling, 86
- chordal model, 352
- classification, 429, 434
 - linear, 451
 - non-parametric, 457
 - normally distributed predictors, 442
 - parametric, 451
 - quadratic, 453
- classification and regression trees, 317
- classification trees, 317
- clique, 347
- clustering of categories, 174, 175
- coding, 108
 - split, 110
- coefficient of determination, 24, 114
 - empirical, 114
 - population, 114
- collapsibility, 255, 348
- complementary log-log model, 124
- completely separated, 85
- concordance measures, 118
- concordant pair, 118
- conditional independence, 331
- conditional maximum likelihood estimates, 391, 420
- constrained regression, 147
- contingency tables, 332
