INDEX

- 101 Kokusentai 412
- A-20 bomber, deployment of 226
- ABC-1 175–6
 Germany-First policy 175
 Gibraltar 175
 structural elements of 176
 and war in Pacific 176
- ABCD agreement 232
- Admiralty, workers for industrial construction 37
- Afghanistan, lessons from 487
- AFV, *see* armored fighting vehicles
- Aiken, F. 172
- air power
 and ABC-1 174–6
 Allied control of air above Wehrmacht 92–3
 change in understanding of (1941) 170–1
 early theory on strategic use 99–102
 effectiveness of tactical and strategic usage 88
 role in shaping land battles 94
 shift of German air power from land battlefield 92–4
- air and sea power
 and Anglo-American grand strategy 485–7
 ethical dilemma of 477–8
 totality of pressure on Axis mobility 480–2
 deployment losses 482–3
 equipment losses for land war 483
 on Germany 480–1
 impact on armaments construction 482
 on Japan 481
 see also air and sea weaponry; air power; air–sea super-battlefield; air war; American force; strategic bombing
- air and sea weaponry
 destruction of 14
 domination of production 3, 14
 non-combat losses 3–4
- air war
 over France, Belgium and Holland
 German advantage in aircraft numbers 119
 German air strength before Battle of Britain 120–2
 Luftwaffe's close air support system 119
 historical views of 8–13
 Japanese protection of Guadalcanal 89
 Luftwaffe protection over space of combat 91
 scale of (1944) 326–7
 loss rates compared 82, 84–5, 337–8
 non-operational rates 338
 see also strategic bombing
- Air War Plans Division 103
- aircraft carrier battle groups, costs of 71
- aircraft carrier construction in interwar period
 in Britain 110
 superiority of Japanese 112
 and US naval air power 111–12
 weakness of British and American naval aircraft 110

602 / Index

- aircraft development and construction
 in Germany 3
 in Japan and UK 3
 prioritization by Roosevelt 136
- aircraft production
 in Britain, damage to during Battle of Britain 95–6
 in Germany
 dispersal of after attacks on German plants 78–9, 297–8, 328–9
 equipment loss in transit 69–70
 maintenance facilities 71
 percent of spending on 19–21, 27–32
 in Japan
 attacks on production centers 442–3
 attacks on shipping of raw materials 441–2
 decline in 443
 maintenance facilities 69
 percent of spending on 17–18
 in Soviet Union 64
 in USA to supply RAF 129
see also pre-production destruction; strategic bombing
- air-dropped mines, and air attacks on British shipping 117
- air–sea super-battlefield 14
 Anglo-American air and sea power 432
 effect on German and Japanese air power 4–5, 14, 446
 efficiency of destruction 5
 relationship with land battlefield 5–6
 focus on Eastern Front 6–8
see also American force
- Akashi, declining casualty rates in raids on 473
- Alanbrooke, Lord (also known as Sir Alan Brooke) 157–61, 393
 and British strategic planning 132–3
 and Casablanca Conference 207–8
 concept of grand strategy 158
 criticism of Portal 161
 description of strategists at Trident Conference 160–1
 diary of 145, 157
 and Eisenhower 159
 focus on battlefield 485
 on Harris 222
 and invasion of Italy 159–60
 and King 159–61
 limited understanding of modern warfare 160
 on Marshall 149, 159, 161
 and Mediterranean campaign 216
 and Montgomery 159
 and Quadrant 216, 221–2
 relationship with Churchill 139, 159, 161
 and Sumatra 159
 service biography 157–8
 strategic bombing effectiveness in Mediterranean 222
 and US pressure for Burma involvement 212
- Alexander, A. V., on US Atlantic zone 182
- aluminum
 and aircraft production 18
 and Allied bombing of German supply 79–80, 298
 attacks on Japanese transport system 439–42
 German stocks of (1944) 318–19
 Japanese production of 62
 Soviet need for 170
 usage comparisons 64, 337
see also bauxite
- American force, relative application of 199–200, 215
- Air War Plan 203
 Germany-First 204–5
 plans for 1944 205
 and use of B-29s 205–6
 division between services 201–2
 and US Navy 206–8, 212
 war equipment deployment 202
see also Casablanca Conference
- Anakim, *see* Burma
- Anderson, Major General Orville 12
- Andrews, Admiral Adolphus 236
- Anglo-American air and sea equipment and invasion of France 224
- Anglo-American force, percentage against Germany and Japan 1942/3 197
- Anglo-German Naval Agreement (1935) 108
- anti-air construction, in Germany 302–4, 363
 deployment distribution 24
 Organization Todt 302–4
 production priority 23–4
see also flak; V-weapons
- anti-submarine warfare
 availability of US vessels in Atlantic 1941/2 236
 bombing of German bases 238
 British capability 108–9
 increased production of vessels (1940) 127
 and escort vessels 109–10

603 / Index

- use of decoys 238
