## FIGURES

3.1 State borders and metropolitan areas: Northeast region of Brazil	<i>page</i> 56
3.2 Standardized values for the Economic-Demographic Index, for each state in the Brazilian Northeast and for climate scenario A2 (2005–2030)	66
3.3 Standardized values for the Economic-Demographic Index, for each state in the Brazilian Northeast and for climate scenario B2 (2005–2030)	67
3.4 Standardized values for the General Vulnerability Index for each state in the Brazilian Northeast and for climate scenario A2 (2005–2030)	68
3.5 Standardized values for the General Vulnerability Index for each state in the Brazilian Northeast and for climate scenario B2 (2005–2030)	69
6.1 Number of academic journal papers citing the term ‘environmental refugee(s)’	141
8.1 EACH-FOR case study locations	197
10.1 Number of families moved under Indonesia’s Transmigration Program (1969–2007)	269
12.1 Sustainable livelihoods framework	308

## TABLES

3.1 Net migration, migration rate and total population by scenario (Baseline, A2 and B2) – Brazilian Northeast region (2025–2030, 2035–2040, 2045–2050)	<i>page</i> 62
3.2 Net migration (NM) and migration rate (MR) for metropolitan areas (MAs) and municipalities according to size in the Brazilian Northeast region – scenarios A2 and B2 (2025–2030, 2035–2040, 2045–2050)	64
4.1 Definition of variables	79
4.2 Index weights for the composite index of physical capital and neighbourhood characteristic variables	84
4.3 Descriptive statistics for the measures used to create a composite index of physical capital and neighbourhood characteristics	87
4.4 Descriptive statistics for the dependent and independent variables	88
4.5 Multinomial logistic regression output for predicting the competing risks of taking a trip to three competing locations in month $t + 1$	91
4.6 Multinomial logistic regression output for predicting the competing risks of taking a trip to two competing locations for males and females in month $t + 1$	95
8.1 EACH-FOR project research steps and design issues	193
8.2 EACH-FOR case studies overview	199
14.1 Summary of the main protection options for ‘environmental refugees’	361
