Every effort has been made in preparing this book to provide accurate and up-to-date information  
which is in accord with accepted standards and practice at the time of publication. Although case  
histories are drawn from actual cases, every effort has been made to disguise the identities of the  
individuals involved. Nevertheless, the authors, editors and publishers can make no warranties that  
the information contained herein is totally free from error, not least because clinical standards are  
constantly changing through research and regulation. The authors, editors and publishers therefore
