

Index

- ab initio* learners, 2, 7, 15, 18–20, 29, 44, 108, 144, 171–172, 183, 186–187, 188, 193
- affect (n.), 11, 12
- apperceived input, 10–12
- apperception, 10
- artificial languages, 4, 65, 108, 109, 110, 114, 116, 132, 139, 142, 184, 186
- auditory analyzer, 13
- auditory signal, 13
- autonomous induction theory, 2, 3
- blocking, 141
- bottom-up strategies, 11, 12
- built-in syllabus, 9, 41
- Chinese, 15, 50, 91, 113, 114, 117, 142, 144, 163
- cognate(s), 2, 3, 4, 18, 33, 66, 73, 113–114, 119, 122, 123, 124, 125, 127, 129, 131, 132, 134, 149, 174, 178, 179, 185, 186, 198, 203
- cognitive representations, 14, 68
- cognitive styles, 3, 57, 73, 80, 87
- communicative function(s), 8
- comprehended input, 10–12
- comprehensible input, 9, 17
- comprehension, 3, 12, 18, 56, 75, 148, 149, 152, 154, 157, 159, 172–176, 177, 178–181, 183, 185, 186, 187, 190, 193, 194, 199–200, 204
- congruency effects, 145, 154, 156, 157
- connectionists, 198
- Contrastive Analysis, 141
- cross-linguistic difference, 3, 91
- default noticing, 40–43
- early stages, 65–66, 69, 90, 91, 93, 107, 113, 131, 140, 143, 145, 148, 152, 156, 157, 158, 162, 201, 204
- emergentists, 131, 195, 198
- event-related potentials (ERPs), 148, 156
- exemplar(s), 107, 108
- eye tracking, 3, 33, 139, 140, 143–151, 152–160, 161–163, 199, 201, 202, 204
- first exposure, 1–5, 7, 11, 14, 17, 20, 25–26, 32, 33, 40, 43, 44, 49, 65, 68, 69, 71, 72–75, 89–92, 107, 108–117, 120–126, 128–133, 139
- First-Noun Principle, 42, 201–202
- first-pass duration, 3, 152
- form–meaning mapping, 5, 15–17, 24
- free recall(s), 17–18, 19–33, 35, 43, 173, 180, 183, 199–200, 203
- French, 15, 29, 45, 64–101, 113, 120, 144, 146, 176, 178, 190, 197
- frequency, 2–3, 4, 5, 8, 9, 11, 12, 13–14, 32, 47, 53, 65, 66, 67–68, 69, 73, 74–76, 77, 78, 79, 80–84, 89–94, 96–101, 108, 112–114, 117, 119, 132–133, 150, 153, 178, 184, 187, 188, 197–198
- gap filling, 17–18, 19–31, 33, 36
- generativists, 195
- German, 3, 15, 29, 45, 50, 65, 73, 91, 113–135
- grammaticality judgment(s), 2, 46, 71, 73, 74, 80–89, 93, 96–99, 147, 152, 197
- individual differences, 3, 65–66, 72, 73, 76, 79–80, 84–89, 92–94, 197
- inflectional morphology, 2, 3, 64–65, 67–72, 74, 75, 89–94, 108–109, 110, 139, 163
- initial input processing, 3, 15–16, 23, 29, 32, 199
- Input Hypothesis, 9
- input–intake asymmetry, 1, 9
- input marking, 40, 44–45, 46, 47–55, 57
- intake, 1, 8–15, 16–17, 18, 32, 40, 41, 73, 89, 183, 197
- intensity, 13–14, 17
- introspection, 196, 201
- Japanese, 43–59, 69, 142

- Korean, 2, 15, 19, 43–59, 69
- laboratory studies, 4, 65, 108
- language-learning experience, 50, 53, 58
- language universals, 10
- latency, 56, 121, 122, 124, 130, 186, 201
- learned attention, 14, 141–144
- learner-generated noticing, 40, 41–43, 44
- learning mechanism(s), 12, 14, 109
- learning styles, 57, 76, 80, 85–87, 92
- levels of processing, 2, 23, 181
- lexeme, 67, 94, 108–110, 174, 197, 201
- lexical cues, 140, 143, 144, 146, 158, 162, 163, 202
- Lexical Preference Principle, 199, 202
- lexical processing, 107, 145, 198
- lexical representation(s), 12, 113
- L1 transfer, 3, 4, 11, 44, 139, 141–147, 157–160, 161–163
- meaning-oriented approach, 2, 44
- measures of noticing, 44, 46–47, 58
- monolingual speakers, 3, 162
- morphological cues, 140, 142, 143, 145–146, 158, 162, 163, 202
- morphological features, 29, 197
- morphological inflection(s), 15, 194, 197
- morphological processing, 93, 139, 141–144, 148, 152, 161, 198
- morphosyntactic analysis, 14, 121
- morphosyntactic knowledge, 3
- nominal morphology, 64–72, 76–78, 89, 197
- Norwegian, 2, 15–36, 43, 183
- noticing, 5, 11, 14, 40, 41–47, 50, 53, 55–58, 73, 195–197, 200–203
- novice learners, 41, 43–44, 139, 193, 202
- offline tasks, 33
- outcome of acquisition, 8
- parametric variation, 193
- parsing, 7, 11, 12–14, 117, 132, 143, 194, 202, 203
- pedagogical intervention, 1, 4
- Polish, 2, 15, 64–101, 113, 144, 197
- Primacy of Meaning Principle, 2, 18, 42, 43, 171, 172, 178, 201
- prior knowledge, 10–12, 17, 32, 44, 64, 110, 122, 132, 187
- processing strategies, 19, 20, 23–24, 26, 43, 188, 204
- productive rules, 197–198
- raw data, 8, 182
- reactivity, 56, 186
- reading/listening times, 204
- reference, 2, 3, 15, 30, 49, 51, 54, 55, 110–115, 121, 125, 131, 140, 141, 161, 196, 201
- repeated exposure, 3, 83, 113, 125, 131
- repetition, 48, 51, 53–55, 73–74, 75, 80, 84, 86–88, 107, 115, 117–118
- replication, 4, 7, 15, 19, 28, 30–32, 171, 174, 177–178, 182, 187, 199
- Romanian, 3, 140–163
- saliency (saliency), 8–9, 14, 40, 41, 53–54, 75–76, 90, 92, 93, 116, 118, 121, 140, 158, 161, 163, 174, 176, 178, 179, 186
- segmentation, 3, 5, 11, 32, 66, 74, 75–76, 107–110, 112, 113, 114, 116–119, 121, 122, 124, 125, 126, 129, 131–132, 133
- selective attention, 8, 11
- self-generated noticing, 43, 46, 47
- self-paced reading/listening, 201, 204
- self-paced reading, 33, 142, 148, 199, 201
- self-reports, 196, 201–202, 203
- semantic integration, 14
- sentence-level processing, 7, 198
- Sentence Location Principle, 198
- sound form(s), 71, 90–91, 107–108, 110, 117–119, 121, 131–133
- Spanish, 3, 45, 50, 140–166, 172, 175, 176, 178–179, 182, 190, 199, 202
- speech processing, 13–14, 109, 110, 116
- speech processors, 12–13
- stages of acquisition/learning, 68, 76, 143, 156, 157, 193, 200, 204
- storage, 25, 194
- Stroop Task, 80, 84
- subject-verb (SV) agreement, 3, 139–145, 149–150, 154–161
- surface grammatical features, 198
- think-aloud protocol(s), 40, 44, 46, 185–186, 199
- top-down strategies, 11–12
- transitional probability/transitional probabilities, 109, 118–119, 120
- transparency, 2, 66, 72, 73–74, 76–84, 87–89, 91, 93, 96–101, 111, 114, 121, 123, 126, 129–130, 132, 197–198
- Universal Grammar, 193, 194
- usage-based framework, 2, 8, 11, 68
- variability, 69, 84, 118, 132
- verbalization, 51–52, 56–57
- working memory, 66, 69, 80, 84, 87, 93, 139, 142, 144–147, 151, 156, 158, 159, 162, 163
