Every effort has been made in preparing this book to provide  
accurate and up-to-date information which is in accord with  
accepted standards and practice at the time of publication.  
Although case histories are drawn from actual cases, every effort  
has been made to disguise the identities of the individuals involved.  
Nevertheless, the authors, editors, and publishers can make no  
warranties that the information contained herein is totally free from  
error, not least because clinical standards are constantly changing  
through research and regulation. The authors, editors, and  
publishers therefore disclaim all liability for direct or consequential  
damages resulting from the use of material contained in this book.  
Readers are strongly advised to pay careful attention to information  
provided by the manufacturer of any drugs or equipment that  
they plan to use.
