### Destinations and provenance of sacred delegates

These lists represent a selection of the sacred delegations mentioned in the book, and are not complete. For reasons of space, I have not mentioned chronology or the number of delegations attested. Not have I stated whether the attested delegates are designated as *theōroi*.

The following symbols are used:

- (?) hypothetical
- ¶ non-Greek
- @ festival announcer
- \* source is a text (literary or non-literary) of questionable reliability
- ∞ inferred from acceptance of invitation or possession of *theōrodokos*
- § inferred from offering list, inventory or dedication

- ‡ inferred from awards of *proxeniā*, *promanteiā*
- \$ inferred from basis of numismatic evidence
- # inferred indirectly from other evidence
