

Index

- absolutely continuous random variable, 74, 78, 79
- aeronautical industry, 101
- aerospace engineering systems, 10
- autocorrelation coefficient*, 92
- autocorrelation function of a stochastic process, 99, 100, 101
- Bernoulli distribution, 52
- biased estimate*, 93
- bivariate distribution*, 73
- building materials, 27
- Central Limit Theorem, 28, 74
- Chapman–Kolmogorov equation, 108
- characteristic function*, 74, 75, 76, 128, 129
- chi-squared distribution, 71, 72
- complete probability formula, 42
- complete sample space*, 35, 43, 56, 57
- conditional probability, 2, 35, 43, 44, 102, 169, 190, 208
- confidence level, 57, 82, 83, 84, 86
- continuous random variable, 51, 74, 77, 80, 102
- correlation*, 7, 20, 22, 63, 64, 91, 92, 93, 95, 96, 165, 179, 182, 183, 184, 185, 186, 188, 194, 204, 216, 245, 278, 281, 295, 296
- correlation coefficients*, 20, 22, 63
- cumulative distribution function, 51, 69, 71, 72, 73, 74, 75, 84, 85, 153, 158, 166
- damping coefficient, 101, 302
- differential equations, 6, 7, 8, 79, 108, 109, 131, 139, 198, 252, 256, 279
- discrete process of length n , 93
- discrete random variable, 51, 73, 74, 77, 139
- discrete-state Markov process, 108
- dynamics of structures, 26, 27
- ergodic random processes, 28, 96
- Erlang C formula, 109, 111, 112, 117, 120
- Erlang distribution, 105, 109
- Erlang- k distributions, 105
- Event, 32, 33, 38, 39, 45, 48, 129, 190, 206
- Expected (Mean) Values, 51
- exponential distribution, 69, 78, 102, 103, 105, 112, 135
- failure domain, 20, 22, 157
- failure mode, 8, 11, 20, 159
- failure probabilities, 8, 20, 38, 39, 163
- Fire Load, 3, 5, 29, 33, 138, 162, 177, 191, 192, 193, 194, 202, 213, 227, 269, 298, 307
- Fire severity, 5, 24, 116, 168, 172, 179, 202, 204
- First Order Reliability Methods, 20
- Fourier transform, 74, 75, 97, 275
- fully developed fire, 7, 61, 139, 175
- Functions of random variables, 76
- Gamma function, 71, 72
- Hypothesis, 48, 49
- independent events, 35, 40, 41, 73
- inverse, 85
- joint probability, 8, 9, 73, 74, 153, 155
- joint probability function, 73
- k -combination, 52, 53
- k -permutations, 52
- limit state, 13, 14, 15, 16, 20, 21, 22, 24, 25, 107, 109, 113, 137, 153, 154, 155, 156, 157, 159, 161, 162, 204, 223, 226, 249, 270
- Limit state design, 13, 29
- limit state function, 20, 21, 22, 24, 25, 154, 156, 161, 162, 158, 204, 223
- linear approximation, 19, 24, 79, 81, 250
- load variation parameter, 22, 162, 202
- Markov chain, 29, 59, 89, 103, 107, 134
- Markov theory, 107
- Mean and Variance of Poisson distribution*, 60
- Mean square value, 91
- Modal Analysis, 101
- multivariate distribution*, 73
- Mutually exclusive events, 33

- Normal Probability Distribution, 64, 151
- normal random variable*, 64, 65, 71, 85, 151
- nuclear power plants, 10
- Parallel-serial connections, 50
- partial safety factor*, 2, 20, 21, 22, 25, 161, 162, 163, 270
- Pearson correlation coefficient, 63
- performance function*, 13, 14, 15, 16, 18, 19, 154, 250, 266
- Poisson distribution*, 59, 60, 102, 103, 104, 115, 116, 163, 203
- power spectral density, 97, 178, 281
- probabilistic analysis, 2, 3, 8, 11, 12, 27, 154
- probabilistic structural analysis, 11, 12, 154
- probability density functions, 12, 13, 74, 77, 154
- probability mass function, 51, 52, 73, 77, 104
- Probability of Complement, 34
- probability of success, 53, 57, 86, 113, 114
- Probability of Union, 34
- Probability space*, 32
- probability theory, 27, 31, 32, 52, 59, 70, 74, 80, 87, 89, 90, 104, 138, 161
- Quantile Function, 85
- random loads, 27
- random process*, 27, 89, 91, 93, 95, 96, 97, 106, 107, 116, 163, 175, 178, 179, 281, 291, 298
- random variables, 12, 15, 16, 20, 21, 22, 23, 25, 33, 35, 51, 62, 63, 64, 71, 72, 73, 74, 75, 76, 79, 80, 81, 82, 84, 87, 89, 94, 97, 104, 105, 125, 128, 138, 151, 156, 157, 166, 171, 178, 179, 206, 224, 229, 231
- random vibration theory, 27
- Rayleigh distribution, 69, 70
- reliability, 2, 3, 8, 9, 12, 13, 20, 21, 22, 24, 25, 26, 39, 41, 48, 49, 50, 53, 82, 109, 116, 122, 130, 137, 153, 154, 155, 156, 159, 161, 162, 163, 164, 169, 170, 171, 177, 178, 179, 190, 198, 202, 203, 204, 205, 206, 207, 218, 220, 226, 230, 235, 248, 250, 266, 288, 297, 298
- reliability index, 2, 12, 20, 21, 22, 24, 156, 159, 161, 162, 163, 164, 169, 178, 179, 202, 203, 204, 205, 226, 235, 250, 266, 288, 298
- Reliability-based structural design, 29
- Second Order Reliability Methods, 25
- single-degree-of-freedom system, 27
- spectral analysis, 27, 178, 179, 264, 291
- standard deviation, 21, 22, 24, 28, 63, 65, 66, 67, 68, 71, 83, 91, 152, 156, 157, 162, 166, 167, 168, 170, 171, 172, 176, 177, 182, 189, 202, 204, 207, 209, 212, 217, 224, 225, 229, 236, 238, 243, 245, 246, 273, 275, 279, 290, 295, 298, 299, 301, 302, 305
- Standard Normal Distribution, 65
- stationary random process, 95, 178
- Stationary vibration, 28
- statistical data, 7, 8, 10, 24, 28, 32, 34, 40, 47, 60, 106, 139, 140, 154, 161, 162, 163, 164, 166, 174, 178, 179, 203, 204, 213, 221, 222, 224, 226, 231, 238, 250, 251, 271, 290, 291
- statistical dependence, 63, 92
- statistical estimates, 94
- statistical linearization procedure, 79
- statistics and time series analysis, 92
- steel frame, 16, 18, 24
- stochastic analysis, 27, 230, 231
- stochastic temperature load, 16, 29, 178
- structural fire load, 5, 8, 10, 15, 24, 26, 27, 36, 60, 102, 162, 163, 178, 179, 187, 195, 197, 198, 202, 206, 228, 271, 275, 279
- target probability, 11, 113, 249
- temperature-time function, 7, 139, 164, 176, 203, 214, 235, 240, 241, 251, 272, 279, 287, 292, 293
- The Bayes' theorem, 35
- thermal diffusivity, 1, 7, 16, 176, 251, 252, 254, 269
- thermodynamic loads, 27
- Time average*, 94, 96
- Time average variance*, 94
- transfer function, 101
- uncertainty, 8, 9, 10, 26, 31, 70, 107, 138, 178, 179, 193, 307
- variance, 11, 20, 23, 52, 53, 54, 57, 60, 63, 65, 66, 70, 71, 72, 79, 81, 82, 85, 86, 91, 92, 93, 94, 96, 104, 106, 128, 129, 151, 165, 168, 173, 174, 204, 208, 238, 264, 275, 279, 290, 305
- waiting time in queue, 109, 119, 120, 121, 122, 123
- Weibull distribution, 69, 194
- Weibull Probability Density Function, 69
- White light, 28
- yield stress, 24
