

Index

Mynott's edition of Thucydides has full indexes of the text. This one includes the names, places and issues that signify in this book. All are arranged alphabetically except the activities of individuals and some events, alliances, arbitration, assemblies and battles, in which entities were involved; these are ordered chronologically under the relevant heads. I do not include my references to Mynott or to the commentaries by Gomme *et al.* and Hornblower.

- Acanthos, 126
 Acarnanians
 and Athens, 54, 57, 82–3, 107
 see also alliances/allies/agreements on
 peace, battles on
 land, Cnemos, Demosthenes
 Achaëa, 47, 48
