

Index

- Abelson, Robert Paul, 150, 153, 162
 Allais, Maurice, 121, 136, 143, 146
 The Allais-Savage debate, 43–60
 Arrow, Kenneth Joseph, 42, 79, 81, 141, 147, 158
 Baumol, William, 143, 146, 153, 162
 The Baumol/Samuelson-Friedman/Savage debate, 35–47
 Behavioral finance, 148, 155, 157, 171
 behavioral psychology, 5, 62, 85, 97
 behavioral science, 3
 Behaviorism, 3, 4, 73, 97
 Bentham, Jeremy, 2, 22
 Bernoulli, Daniel, 38, 50, 52
 moral value, Bernoulli on, 38, 51
 Boring, Edwin Garrigues, 72, 74
 bounded rationality, 96, 167, 172, 184
 behavioral economists on, 182–187
 Bruner, Jerome, 149
 Camerer, Colin, 162, 180, 182, 185, 188
 Carnap, Rudolf, 10, 48, 49
 Center for Cognitive Studies, Harvard University, 149, 150
 Chicago, University of, 13, 17, 30, 78, 143, 152
 Chomsky, Avram Noam, 80, 98, 150
 cognitive science, 97
 Cognitive Science Series, Harvard University Press, 150, 151, 152, 169
 Colloque International sur le Risque, Paris, 1952, 44
 Committee on the Behavioral Sciences, 4
 Coombs, Clyde, 60, 75, 78, 82, 98
 correlational psychology, 105
 Cowles Commission, 34, 60
 Davidson, Donald Herbert, 150
 Dawes, Robyn Mason, 76, 77
 de Finetti, Bruno, 48, 49
 Debreu, Gérard, 50, 61, 83
 decision theory, history of, 48–49
 descriptive economics, 144, 145
 doctrines, epistemology of, 2
 Edgeworth, Francis Ysidro, 2, 32, 37, 51, 61, 85
 Edwards, Ward, 62, 76, 78, 81, 85, 98
 Kahneman and Tversky, Edwards on, 124–128
 utility and valence, Edwards on, 87–91
 Ellsberg, Daniel, 96, 136, 146
 Elster, Jon, 161, 172
 empirical claims, epistemology of directly refutable, 6, 7, 146
 engineering psychology, 73, 89
 Engineering Psychology Laboratory, 76, 89
 Estes, William Kaye, 61, 79, 80
 expected utility theory, 32, 50, 84, 98, 121, 127, 140, 145, 174
 experimental economics, 135, 137, 171, 187, 189
 distinguishing behavioral economics from, 164–167
 Sloan/RSF program's working group on, 162
 experimental psychology, 14, 51, 53, 62, 73, 74, 78, 84, 126, 128
 exponential discounting, 173, 175, 177
 Fechner, Gustav, 2, 6, 50, 52, 109
 Festinger, Leon, 61, 153, 162
 financial economics, 142, 143, 171
 incorporating anomalies in, 146–148

- Fodor, Jerry Alan, 98, 150
 Ford Foundation, 4, 60
 Behavioral Science Program at Ford Foundation, 4
Foundations of Statistics (1954), 45, 47, 59, 81
 Fréchet, Maurice René, 54
 Friedman, Milton, 13, 20, 91, 143, 144, 184
 Friedman and Savage (1948), 29–35
 positive economics, Friedman on, 64–66
 Thurstone (1931), Friedman on, 16–20
 Frisch, Ragnar Anton Kittel, 54

 game theory, 11, 20, 60, 61, 90, 99, 145, 166
 Gigerenzer, Gerd, 125, 167
 Grether, David M., 146, 159, 164
 Grether and Plott (1979), 138–141

 heuristics, 96, 114, 117
 Hogarth, Robin, 125, 158, 188
 Hotelling, Harold, 17
 human engineering, 72, 73, 74, 96
 hyperbolic discounting, 173, 174, 175, 176

 independence axiom, 136
 indifference curve, 2, 13, 15, 19, 32, 37
 Thurstone's (1931) experiment on, 16–20
 Institute for Social Research, 4, 75, 153

 Jaffé, William, 54
 Jevons, William Stanley, 2, 51

 Kahneman and Tversky, 142, 147, 148, 149, 171, 182, 184
 Heuristics and biases, Kahneman and Tversky on, 111–118
 Prospect theory, Kahneman and Tversky on, 119–124
 Kahneman, Daniel, 146, 148, 164, 171, 178
 research 1960s, 105–111
