THE METAPHYSICS OF LOGIC

Featuring fourteen new essays from an international team of renowned contributors, this volume explores the key issues, debates, and questions in the metaphysics of logic. The book is structured in three parts, looking first at the main positions in the nature of logic, such as realism, pluralism, relativism, objectivity, nihilism, conceptualism, and conventionalism, then focusing on historical topics such as the medieval Aristotelian view of logic, the problem of universals, and Bolzano's logical realism. The final section tackles specific issues such as glutty theories, contradiction, the metaphysical conception of logical truth, and the possible revision of logic. The volume will provide readers with a rich and wide-ranging survey, a valuable digest of the many views in this area, and a long overdue investigation of logic's relationship to us and the world. It will be of interest to a wide range of scholars and students of philosophy, logic, and mathematics.

PENELOPE RUSH is Honorary Associate with the School of Philosophy and Online Lecturer for Student Learning at the University of Tasmania. She has published articles in journals including *Logic and Logical Philosophy*, *Review of Symbolic Logic*, *South African Journal of Philosophy*, *Studia Philosophica Estonica*, and *Logique et Analyse*. She is also the author of *The Paradoxes of Mathematical, Logical, and Scientific Realism* (forthcoming).

Contents

List of contributors *page* ix

Introduction 1
Penelope Rush

PART I THE MAIN POSITIONS 11

1 Logical realism 13
Penelope Rush

2 A defense of logical conventionalism 32
Jody Azzouni

3 Pluralism, relativism, and objectivity 49
Stewart Shapiro

4 Logic, mathematics, and conceptual structuralism 72
Solomon Feferman

5 A Second Philosophy of logic 93
Penelope Maddy

6 Logical nihilism 109
Curtis Franks

7 Wittgenstein and the covert Platonism of mathematical logic 128
Mark Steiner

PART II HISTORY AND AUTHORS 145

8 Logic and its objects: a medieval Aristotelian view 147
Paul Thom
