The Impact of Idealism

Volume II. Historical, Social and Political Thought

The first study of its kind, *The Impact of Idealism* assesses the impact of classical German philosophy on science, religion and culture. This volume explores German Idealism's impact on the historical, social and political thought of the nineteenth, twentieth and twenty-first centuries. Each essay focuses on an idea or concept from the high point of German philosophy around 1800, tracing out its influence on the intervening period and its importance for contemporary discussions. New light is shed on key developments of Idealist thought, such as Marxism, critical theory and feminism, and previously unexamined areas of Idealism's influence are discussed for the first time. This unique, interdisciplinary collection traces the impact of Kant, Hegel, Schelling, Fichte and others in Britain, Europe, North America and beyond. Its insights represent vital contributions to their respective fields, as well as to our understanding of German Idealism itself.

NICHOLAS BOYLE is the Schröder Professor of German Emeritus in the University of Cambridge, and a Fellow and former President of Magdalene College.

LIZ DISLEY is a Research Associate in the Department of German and Dutch at the University of Cambridge.

JOHN WALKER is Senior Lecturer in German in the Department of European Cultures and Languages at Birkbeck College, University of London.

Volume IV. Religion

Edited by NICHOLAS ADAMS

German Idealism is arguably the most influential force in philosophy over the past two hundred years. This major four-volume work is the first comprehensive survey of its impact on science, religion, sociology and the humanities, and brings together fifty-two leading scholars from across Europe and North America. Each essay discusses an idea or theme from Kant, Hegel, Schelling, Fichte or another key figure, shows how this influenced a thinker or field of study in the subsequent two centuries, and how that influence is felt in contemporary thought. Crossing established scholarly divides, the volumes deal with fields as varied as feminism, architectural history, psychoanalysis, Christology and museum curation, and subjects as diverse as love, evolution, the public sphere, the art of Andy Warhol, the music-dramas of Wagner, the philosophy of Husserl, the novels of Jane Austen, the political thought of fascism and the foundations of international law.

This series of studies of the influence on the humanities of German Idealist philosophy results from the work of an International Research Network sponsored by the Leverhulme Trust, with additional support from the Newton Trust and the Schröder fund of the University of Cambridge. The editors would like to thank the Trusts and the Schroder family for their financial assistance.

Planning for the Network began in 2006, with Ian Cooper as the first Project Manager. Liz Disley took over as Project Manager in May 2010. For invaluable help and support in the early stages of the project, the General Editors are grateful to the Steering Committee of the Network, whose members include: Ian Cooper, Nicholas Adams, Karl Ameriks, Frederick Beiser, Vittorio Hösle, Stephen Houlgate, Christoph Jamme, Martin Rühl, John Walker, and our patron, Onora O'Neill. A grant from Cambridge University's Department of German and Dutch enabled the Committee to meet in Cambridge in 2008. Throughout the project the staff of the Department and of the Faculty of Modern and Medieval Languages have been generous with their time and prompt with their help. Thanks are due in particular to Sharon Nevill and Louise Balshaw, and to successive Heads of the Department of German and Dutch, Christopher Young and Andrew Webber. We are also most grateful to Regina Sachers for some crucial and timely advice, and to Rosemary Boyle who has acted throughout as management consultant, and has more than once intervened decisively to keep the show on the road.

The General Editors owe special thanks to the leaders of the four groups into which it was decided to divide the Network, who are also the editors of the individual volumes in this series. They agreed themes with the General Editors, assembled teams to study them, and led the workshops in which

they were discussed. The work of the Philosophy and Natural Science group in the University of Notre Dame was supported by the Nanovic Institute for European Studies, and that of the Aesthetics and Literature group in Leuphana University, Lüneburg, by the Thyssen-Krupp-Stiftung. For this support, and for the hospitality of both universities, the General Editors would also like to express their gratitude.

Workshops met in Notre Dame, Lüneburg and Cambridge in 2010, and again in Lüneburg and Cambridge in 2011. A concluding plenary conference, open to the public, was held at Magdalene College, Cambridge, in September 2012. On all these occasions staff and students at the host institutions provided help and advice, generously and often anonymously, and to them too we express our thanks.

While we hope that our contributors feel that participation in the Network has been rewarding in itself, we thank them for giving us the benefit of their thinking, for attending the workshops and the conference, and particularly for presenting their work within the constraints of a very tight timetable. For invaluable editorial support in preparing all four volumes for the press we are especially indebted to Jennifer Jahn. Only her intensive and always cheerful commitment to the project allowed us to meet the deadlines we had set ourselves.

The General Editors and the Volume Editor of this volume would like to thank Magdalene College, Cambridge for hosting two workshops which formed part of the International Network, in December 2010 and 2011.
