ESTHER IN ANCIENT JEWISH THOUGHT

The book of Esther was a conscious reaction to much of the conventional wisdom of its day, challenging beliefs regarding the Jerusalem Temple, the land of Israel, Jewish law, and even God. Aaron Koller identifies Esther as primarily a political work, and shows that early reactions ranged from ignoring the book to "rewriting" Esther in order to correct its perceived flaws. But few biblical books have been read in such different ways, and the vast quantity of Esther-interpretation in rabbinic literature indicates a conscious effort by the Rabbis to present Esther as a story of faith and traditionalism, and bring it into the fold of the grand biblical narrative. Koller situates Esther, and its many interpretations, within the intellectual and political contexts of Ancient Judaism, and discusses its controversial themes. His innovative line of inquiry will be of great interest to students and scholars of Bible and Jewish studies.

AARON KOLLER is Associate Professor of Near Eastern and Jewish Studies at Yeshiva University. He is the author of *The Semantic Field of Cutting Tools in Biblical Hebrew* (2012). Acknowledgments

It gives me much pride to be able to say that this book emerged directly from teaching an undergraduate class on the book of Esther. In the context of preparing that class, certain patterns in the early reception history of Esther began to seem clear to me. After the semester, I wrote what I thought would be a short paper showing that the reactions to Esther in Hellenistic and Roman times were overwhelmingly negative.

Moshe Bernstein, my first teacher in the intellectual history of that era, was kind enough to read that paper. Besides his usual detailed critical comments, he made the suggestion to unpack some of the inordinately dense footnotes I had included, include all the rabbinic material I repeatedly had written that space precluded treatment of, and see if there wasn't a book here. It took a few more years of research and thinking, but I hope the present work justifies his intuition. At a much later stage, Moshe read a complete draft of the book, saving me from numerous errors, adding some of his own insights, and generally improving the book.

Three talented undergraduate students later contributed their time and energies to improving the book: Mark Glass, Jina Davidovich, and Emmanuel Sanders all reviewed parts of the manuscript, checked the original texts, and made numerous suggestions, large and small, which improved the finished product. Two other students, Tuvia Tendler and Yosef Kornbluth, caught typographical and other errors, and contributed to a better final product.

I am fortunate to work in an institution that has, perhaps, the best Jewish Studies faculty in North America, and a stellar faculty in other departments, as well. My colleagues, especially in fields close to my own, have always been founts of information, inspiration, and suggestions, and their own fascinating work ensures that our intellectual lives are rich and always exciting. I do not consider myself to be an expert on the Second Temple period in Jewish history, and I would have been even more reluctant than I am to write about that field were it not for the support and criticisms of colleagues.Three x

Acknowledgments

colleagues – who happen also to be good friends – provided feedback and encouragement: Ari Mermelstein and Joseph Angel, from within Yeshiva University, and Michael Tzvi Novick, whom we'd like to claim (we did, after all, study ancient Hebrew phonetics together in a seminar at Yeshiva University many years ago), but who more properly belongs to Notre Dame. Without these readers, the book would be a far inferior work to what it is now.

Among my senior colleagues, Larry Schiffman was very helpful in navigating the pragmatics of publishing this book. Barry Eichler, my mentor in two different schools and dean of Yeshiva College for the past four years, has been a source of guidance and support in countless ways. Richie Steiner tolerated my excursion into this field, and has patiently encouraged me to now get back to "real" work.

I was fortunate that Eric Schmidt of the University of California Press read a draft of this book with interest and appreciation. A long preliminary conversation with Eric led me to restructure the book in ways which – once he pointed them out – seemed intuitive and which have greatly improved the presentation, and also gave me an appreciation for what a good editor can do for a book. At Cambridge University Press, Laura Morris was just such an editor, and was kind and encouraging in addition. Anna Lowe shepherded the book through its final stages with skill.

In a more personal vein, my parents have helped and supported me in the obvious ways in which parents do such things, even from a distance, even when their children are to some extent grown up – with love, links, and cookies. Beyond such treasured tokens, though, they have served for me as models as Jews who have lived in multiple worlds, grappling with the advantages of diaspora and the pull of the homeland. As much as this book is meaningful, I hope it is meaningful to them. My in-laws, from much closer proximity, have helped out in all sorts of ways, emotional and practical. We are very lucky that our lives and interests are so intertwined and overlapping, and this makes everything more enjoyable and more rewarding.

Dalya and Shachar have always been willing interlocutors in my thinking about Esther, and it is through them that the relevance and potential power of ancient texts becomes clear to me. The story of Esther is one of many stories that we have shared, and I hope we have many more to share in the coming years. Finally, my wife Shira, my one true queen, has lived through the process of reading and writing about Esther for years. Perhaps she is just relieved that this book is about something other than tools, but her genuine passion for the subject matter, her clear thinking, and her

Acknowledgments

guidance have refined the analyses offered here. More significantly, a story about a woman who knows how to deploy her sparkling personality, dazzling interpersonal skills, penetrating intellect, and profound beauty in the service of the greater good can only be about Shira. It is to her, with love, that this is dedicated.
