

Index

- acoustic adaptation hypothesis, 116–17
 - ranging, how it affects AAH, 136–37
- African elephant, 150–52
- African lion
 - roaring and infanticide, 86
- alarm calls, 11, 23, 37, 42, 72, 172–73, 177
- Alatalo, R. V., 173
- alligator snapping turtle, 35
- A/M. *See* assessment/management
- A/M and informationized approaches contrasted
 - Carolina wren sex identification communication, 199–201
- A/M and sexual selection and sexual conflict, 207–9
- assessment, 8–9, 24, 42–47, 58, 109, 165, 204–5
 - and Batesian mimicry, 43–45, 78, 173
 - and cognition, 51–53
 - components of, 50, 54
 - cues used for, 25, 81, 94, 206
 - as an evolutionary strategy, 45
 - and motivation, emotion, 51–53
 - and M-S rules, 99
 - and Pavlovian conditioning, 78–79, 150
 - and perception, 58–59, 138–45
 - and resource holding potential, 116
 - and signal form, 88
 - and social consequences, 88
- assessment/management, 77, 138, 162, 190, 192–93, 199, 201, 206
 - concept, 61, 193–96
 - and development, 177
 - and functionally referential calls, 171
 - and motivation, intentions, 155
 - roles of perception, cognition, emotion, and motivation, 53, 58
 - and social consequences, 88
- assessment/management roles, 24–27
 - as an arms race, 27, 134
- audio technology, 29–30, 127
- aversive sounds, 114–15, 162
 - infant crying, 53, 115, 162
- baboon, 160
- Baptista, Luis, 37
- barn swallow, 172
- Beehler, Bruce, 84
- Beer, C. G., 30
- Bengalese finch, 133, 182–85
- bioacoustics
 - acoustic space, 121–25
 - communication distance, determinants of, 116–18
 - critical band for masking, 118
 - decibel, defined, 120
 - Lombard Effect, 125
 - noise effects, 125
 - reverberation, effects on signals, 127
 - shadow zones, 124f
 - signal masking, 118
 - sound propagation and excess attenuation, 118–21
- birdsong
 - and dear enemy hypothesis, 136
 - development, 186–88
 - and HVCx cells, 132
 - large repertoires, function of, 134
 - learning, 36–37, 133
 - overproduction and attrition, 133
 - ranging, 26, 51, 116–17, 128–31
- biting midge, 116
- black-capped chickadee, 42, 99–100
 - hissing, 92
- black-tailed prairie dog, 64–66
- blue gourami, 153
- blue-headed vireo, 131
 - and sexual conflict over brood desertion, 209
- Bond, A. B., 153, 194
- Bradbury, J., 10, 41, 86
- brown-headed cowbird, 118, 177
- Burghardt, Gordon, 21, 47
- burrowing owl, 43

- canyon wren, 106
 Carolina wren, 3, 28, 69, 76, 100, 129–30, 134, 135, 198–99
 chirt system and M-S rules, 101, 198–99
 signaling sex identification, 198
