

Contents

Preface **vii**

Acknowledgements **x**

- 1 · The Perennial Question **1**
 - 2 · The Nature of Biological Information: Information,
Complexity and Entropy **20**
 - 3 · DNA: The Molecule **53**
 - 4 · The Evolution of Biological Complexity **93**
 - 5 · Cooperating Genomes **128**
 - 6 · DNA, Information and Complexity **143**
 - 7 · Origins of Complexity **154**
 - 8 · The Complexity of Societies **171**
 - 9 · Why DNA: and Not RNA? **182**
 - General Reading and Bibliography* **192**
 - Index* **209**
- Colour plates can be found between pages 52 and 53*
