International Human Rights Law

CASES, MATERIALS, COMMENTARY

The leading textbook on International Human Rights Law is better than ever. The content has been fully updated and now provides more detailed coverage of substantive human rights, along with new sections on the war on terror and on the progressive realization of economic and social rights, making this the most comprehensive book in the field. It has a new, more student-friendly text design and has retained the features which made the first edition so engaging and accessible, including the concise and critical style, and questions and case studies within each chapter, as well as suggestions for further reading.

Written by De Schutter, whose extensive experience working in the field and teaching the subject in both the USA and EU gives him a unique perspective and valuable insight into the requirements of lecturers and students. This is an essential tool for all students of international human rights law.

OLIVIER DE SCHUTTER is the former UN Special Rapporteur on the right to food (2008–2014) and a member of the UN Committee on Economic, Social and Cultural Rights. A professor at the University of Louvain (UCL) and at the College of Europe and a Member of the Global Law School Faculty at New York University, he has been Visiting Professor at a number of institutions, including Columbia University (2008–2013). From 2002 to 2006, he chaired the EU Network of Independent Experts on Fundamental Rights, a high-level group of experts which advised the European Union institutions on fundamental rights issues. He has acted on a number of occasions as expert for the Council of Europe and for the European Union. Between 2004 and 2008, he was the General Secretary of the International Federation of Human Rights (FIDH) on the issue of globalization and human rights.
