Archimedes, 146, 147, 149, 156, 157, 162, 163, 170, 190–192, 328, 329
  Cosmology, 147
  Floating bodies, 146, 169
  Hellenistic school, 157, 158
  Hypotetico-deductive method, 157
  Lever, 211
  Mathematical-physics, 157
Aristotle, 3, 5, 165, 344, 390
Asymptotic identification, 108
Auxetic, 178
  Behaviour, 56, 74
  Dilational material, 55
  Honeycomb, 56
  Material, 55, 56
  Metamaterial, 55–57, 178
  Microstructure, 58
  Miura-ori tessellation, 69
  Poisson's ratio, 55, 178

Biomechanics, 199, 299
Boltzmann, 18, 175
Bone mechanics, 300, 303

Cauchy, 11, 13, 18, 55, 128, 143, 145, 178, 179, 184, 207, 338
  Approach, 144
  Continuum, 8, 11, 17, 58, 62, 109, 117, 125, 146, 175, 359
  Discrete model, 126
  First gradient, 332
  Linear elasticity, 54, 58, 278
  Problem, 214
  Theorem, 206
  Theory, 127
Continuum thermodynamics, 181
Cosserat
  Brothers, 108, 332
  Continuum, 302, 303, 379
  Model, 305
  Theory, 303
Culomb friction, 306

D'Alembert, 155, 200, 203, 212, 342, 355
  Dynamics, 155
  Principle, 202
  Wave equation, 18
Damping, 18, 21, 60, 299, 302, 306, 314, 319
Darcy, 302
  Dissipation, 15
  Permeability tensor, 302
Democritus, 5, 6, 172, 175, 206, 329
Dissipation, 12, 15, 180, 181, 184, 186, 269, 283, 299, 301–303, 306, 307, 343, 357, 362
Doppler effect, 80

Elastica, 108, 151, 198, 220, 249, 254
Euler–Lagrange
  Equations, 186, 204–207, 212, 214, 220
  Theorem, 205, 209

Finite element, 10, 62, 189, 298
  Analysis, 10
  Discretization, 312
  Generalized continuum, 35
  Hermite polynomials, 231, 235
  Mesh, 286
  Method, 16, 27, 65, 186, 220, 291, 298, 353
  Non-linear structures, 35
  Shape function, 285
Floppy-modes, 111, 112, 133
  Eigenvalue, 72
  Energy, 109
  Pantographic beam, 110–112
  Pantographic metamaterial, 110, 249
  Strain energy, 27
Friction, 150, 207, 265, 283, 299, 302, 306, 307

Galileo, 3, 29, 30, 143, 156, 159, 176, 336, 337
Generalized continua, 7, 10, 18, 104, 105, 175, 198, 309
Green, 178, 179, 181, 336
  Cauchy, 128
  Right tensor, 128
  Strain, 128
Gustavo Colonnetti, 144

Hamilton, 163, 198, 356
  Dissipation potential, 12, 302
