

INDEX

The dates of letters to and from Darwin's correspondents are listed in the biographical register and index to correspondents and are not repeated here. Darwin's works are indexed under the short titles used throughout this volume and listed in the bibliography.

- Abbot, Francis Ellingwood: CD discusses morality 174; CD thanks for sending 'Darwin's theory of conscience' 174 & 175 nn 1–4; 'Darwin's theory of conscience' 122–3 & n1, n3, n4, 172 & n6
- Aberdeen University: T.H. Huxley, lord rector 133 n1, n5
- Abinger Hall 503 n14, 629 n17, *see also* T.H. Farrer
- Abney, William de Wiveleslie: L. Darwin writes to 330 & n2; writes to L. Darwin answering queries 331 & n2
- aboriginal peoples *see* native peoples
- Abutilon* (Indian mallow) 4 n1, n2
- Acacia farnesiana* (synonym of *Vachellia farnesiana*): CD received from Kew 187 & n8; J.D. Hooker sent specimen to CD 335 & n8; specimen growing well 447 & 448 n5
- acacias: bull-horn 367 & 368 n2, 368 & 369 n1
- Académie royal des sciences, des lettres et des beaux-arts de Belgique: T.H. Huxley 584 & 585 n4
- Academy of Sciences, Paris: C.E. Blanchard opposes election of CD as correspondent 289 n5, 614 n5
- Acanthocephala femorata* *see* *Metapodius nasulus*
- Acari: on *Pinguicula grandiflora* 351 & 352 n4
- Acer plantanoides* 477 & 478 n5
- Adams, Charles Francis: American Academy of Arts and Sciences 46
- Adlumia*: bees visiting 192 & n3
- Aeby, Christoph Theodor: critical of T.H. Huxley's work 207 & n2, 210 & 211 n3
- Agassiz, Alexander: wife's death 12 & n6
- Agassiz, Anna Russell 12 & n6
- Agassiz, Louis 12 n6
- Airy, George Biddell: abstracted J.C. Maxwell 45 & n4; astronomer royal 493 n1, 497 & n2; British expeditions for transit of Venus 370 & 371 n9, 493 n1
- Airy, Hubert: CD lent *American Naturalist* 11 & n1; comments on W.J. Beal's paper 11; helps L. Darwin with transit of Venus expedition commission xxiii; phyllotaxis (leaf arrangement) theory published 12 n3; revised paper for Royal Society 152–3 & 153 n1, n2
- Aitken, Thomas: *Pinguicula* 311–12 & nn 2–5
- Albani, Emma 372 & n3
- Albany pitcher-plant *see* *Cephalotus*
- Aldabra atoll, Seychelles: giant tortoises 180 & 182 n2, n3
- Aldrovanda* *see* *Aldrovanda vesiculosa*
- Aldrovanda vesiculosa* (waterwheel plant; synonym *A. verticillata*): Bengal 491 & 492 n4, 541 & n1; CD asks D. Oliver for 506; CD trying to grow 484 & n3, 489 & 490 n6; CD works on 482 & n3, 493–4 & 494 n2; F.J. Cohn 484–6 & 486 nn 1–4, 485, 487 n7, n10, 617, 617–18 & 618 nn 1–3, 619 n4, n7, n10; family Droseraceae 456 n3, 486 n3, 618 n3; J.D. Hooker supplies 454 & 456 n3, 481 & n3, 490 n6, 493 & 494 n2; monospecific genus in family Droseraceae 486 n3, 618 n3; range of 506; var. *australis* 492 n5, 506 & 507 n3; var. *verticillata* 492 n5, 506 n6, 574 & n2
- Alglave, Emile: *Revue politique et littéraire* 171 n5, 612 n5; suspension as editor of *Revue scientifique* 171 & nn 1–5, 611 & nn 1–4, 612 n4
- Allen, Frances: G.H. Darwin meets 514 & 516 n15
- Allman, George James: Linnean Society, president 167 & 168 n7, 580 n12, 595 & 596 n4, 644; at R. Strachey's 60 & 61 n8
- Allman, Hannah Louisa: at R. Strachey's 60 & 61 n8
- alpine butterwort *see* *Pinguicula alpina*

- Amberley, Lady (Katharine Louisa Russell) xxiv, 377 & n2
- Amberley, Lord (John Russell) 377 & n2
- American Academy of Arts and Sciences: CD elected foreign honorary member xxix, 46, 96, 124 n1, 129 & n6, 291 & n7
- American Association for the Advancement of Science: T. Meehan's address 471 & 472 n2, n3
- American expedition to observe the transit of Venus 327 & 330 n18
- American Journal of Science and Arts* ('Silliman's Journal') 301 & 302 n4
- American Naturalist*: W.J. Beal, 'Phyllotaxis of cones' 11 & n1; CD subscribes to 531 & 532 n2; 'Spawning of the capelin' 110 & 111 n2
- American Public Health Association 548 n4
- Amphioxus*: F.M. Balfour 563 n5; E. Haeckel 562 & 563 n6; T.H. Huxley 562 & n1, 563 n4, 579 & 580 n9, 587 & n6
- Amphioxus lanceolatus* (now *Branchiostoma lanceolatum*; lancelet) 562 & n1
- Ampullaria* 30 & 31 n3
- Anasa tristis* (was *Coreus tristis*: squash bug) 280 & 281 n3
- Anderson, G.S.: sends photograph of representation of bear-like animal 265 & nn 1–3
- Anderson, Rufus: *The Hawaiian Islands* 75 & 78 n9; *History of the Sandwich Islands Mission* 75 & 78 n8
- Andrews, James Bruyn: assists J.T. Moggridge 135 & 136 n7
- Anelasma*: and Rhizocephala 190 & 191 n8, n9
- Anelasma squalicola* (parasitic goose barnacle) 209 n5
- Anergates atratulus* 498 & 499 n6
- annual marsh herbs (*herbae annuae paludosae*) 576 & n7
- Anoplotermes* 1 & 3 n3
- Anthophora fulvifrons* 218 & 220 n11
- Antilocapra americana* 516 n22
- ants: T. Belt 4 & 5 n6, 217, 480 & n3, 480 n4, 535 & n4, 622 & 623 n4; and *Cecropia* 217 & 220 n6, 368 & 369 n1; A. Forel 473–4 & 475 nn 1–6, 522–3 & 523 nn 4–9, 615–16 & 616 nn 1–6, 621 & 622 nn 4–9; and germination of seeds 135 & 136 n3; J.P. Huber 474 & 475 n5, 480 & n3, 616 & n5; J. Lubbock 571 & 572 n3; F.V.A. Meinert 522 & 523 n4, 620 & 622 n4; J.T. Moggridge 136 n6, 286 & 287 n11
- Apelles 524 & 526 n3
- Apis* 218
- D. Appleton & Co.: CD hopes will publish *Descent* 2d ed. in US 529 & nn 1–3, 530 & 531 n3; *Descent* 2d ed. published US 1875: 529 n2, 540 n3; publisher of 3d US ed. *Origin of species* 51 & n1; will publish *Descent* 2d ed. 539 & 540 nn 2–4, 552 & n1; will publish *Insectivorous plants* 539 & 540 n5
- Appleton, Thomas Gold: admires CD's work and seeks his views on spiritualism xviii, 182–3 & 183 nn 1–7, 184 n8, n9; visits Down 628
- Apus* 511 & n2
- Aquilegia vulgaris* 495 n6
- Arctiidae 220 n9
- Argus* 292 & n4, n5
- argus pheasant: illustrations of feathers 185 & n2; W.B. Tegetmeier's article 188 & 189 n2
- Argyll, duke of (George Douglas Campbell): fossil plants 477 & 478 n5
- Aristophanes, *Acharnians* 440 & 443 n17
- armadillos 88 & n4
- Arms, William 305 n4
- Asclepiadaceae 274 & n5
- Asclepias physocarpus* see *Gomphocarpus physocarpus*
- Asian bladderwort (*Utricularia griffithii*; synonym of *U. uliginosa*) 498 n2
- Asteraceae (was Compositae) 494 & n5
- Athenaeum Club: elections 137 n2, n3, 159–60; members 29 n5; H. Parker's candidacy xxviii, 26, 29 n5, 137 & n1, 138 & n1, n2, 139–40 & 140 n1, 139 & n1, 141 & 142 n2, 156 & 157 n1, 160 n3, 313 n2; H. Parker's election 159–60 & 160 n1, n2, 195 & 196 n3
- Atkin, Mary Elizabeth 212 n6
- Australia: aboriginal peoples 75, 78 n2
- Australian Museum, Sydney 510 n1
- Autographa gamma* (silver Y moth caterpillar): on *Pinguicula grandiflora* 351 & 352 n6
- Ayrton, Acton Smee: Office of Works 124 & 125 n7; Royal Botanical Gardens, Kew 125 n7, 292 n7
- azaleas 370 & 371 n5
- BAAS see British Association for the Advancement of Science
- backgammon tournament: CD and E. Darwin 275 & 276 n12
- Backhouse, Edward: Zoological Station appeal 248 n2
- Baedeker: guidebooks 191 n15
- Baer, Karl Ernst von 132 & 133 n9, 606 & 607 n9
- Bagehot, W.: *Physics and politics* 247 & 248 n2
- Balfour, Alice Blanche 297 & 298 n12
- Balfour, Francis Maitland: *Amphioxus* 563 n5; away from Cambridge 393 & 394 n6; CD thanks G.H. Darwin for news of 505 & n9; departs for South America 502 & 503 n17; elasmobranch fishes 191 n6, 562 & n2; embryology of sharks 190 & 191 n6, 295 & 298 n4, 562 & n2; T.H. Huxley speaks highly of 502 & 503 n17; *Monograph on the*

- development of the elasmobranch fishes* 191 n6; sends CD photograph of Zoological Station xxvii, 190 & 191 n17, 209 & n4; visits CD 73 & n3, 628; visits J.D. Hooker 368 & n6; Zoological Station 129 & 133 n4, 131, 178 & 179 n2, 190 & 191 n3, 193 & 194 n2, 215 & n2, 295 & 297 n3, 298 n7, 605
- Ball, John: observations on beavers and anecdotes of dogs 312–13 & nn 2–5
- balloonplant *see Gomphocarpus physocarpus*
- Bancroft, Hubert Howe: presents CD with his book 398–9 & 399 n1
- Baranowska, Maria von 133 n8, 607 n2
- Barber, Mary Elizabeth: *Papilio nireus* xxviii, 424 & n8, 426 & 427 n8, 482 & 484 n2
- Barbier, Edmond: *Descent*, works on translation defects in xxix, 24 n4, 599 n4; *Descent* 2d rev ed. translation xxix, 24 & n4, 58 & n2, 599 & n4; *Journal of researches* translation xxix, 563 & n1, 568 & n1, n2
- Bardi de Fourtou, Oscar 171 n4, 611 n4
- Barnard, Anne 590 n4
- Barnard, Henslow 590 & n4
- Barnard, Robert Cary 590 & n4
- Barnes, Thomas: cattle breeding 48–9 & 49 n6
- Bary, Anton Heinrich: Royal Agricultural Society 124 & 125 n9
- Bates, George Washington, *Sandwich Island notes* 76 & 78 n11, n16
- Bates, Henry Walter: M.E. Barber's work on *Papilio nireus* accepted for publication xxviii, 482 & n1; CD requests books from Royal Geographical Society 59 & n1, n4; sends CD requested books 62–3 & 63 n1; termites 1 & 3 n4
- Baxter, Evan Buchanan: J.P. Müller's ability to control his muscles 347 & n1, 348 n2
- Baxter, William Walmisley: CD orders chlorodyne and bottles 518 & n1
- Baxter & Payne: CD purchases land from J. Lubbock 184 & n2
- Beagle* voyage: CD participated in equator ceremonies 546 n1; CD visited Patagonia region 305 n4; CD's spider specimens 95 & 96 n7; A. von Humboldt's *Personal narrative*, CD inspired by 422 & 423 n3; *Ribes magellanicum* 292 n1, n2; B.J. Sullivan 10 & n7; J.C. Symmes refers to 62 & n5, *see also* Darwin, C.R. (PUBLICATIONS, *Journal of researches*)
- Beal, William James: CD thanks for notice of Beal's paper 531–2 & 532 nn 1–3; 'The honey-bee gleaming after the oriole' 507 & n2, n3, 531 & 532 n1; *Phyllotaxis of cones* 11 & n1; spiral patterns in cones 12 n2
- beavers: L.H. Morgan 313 n3
- beer: hops 405 n4, 409 n2
- bees: *Adlumia*, visiting 192 & n3; W.J. Beale 507 & n2; T. Belt 390–91 & 391 nn 1–4, 395–6 & 396 nn 1–3; biting flowers for nectar 230 n3; *Corydalis*, visiting 192 & n3; H. Crüger 383 n4; *Dasygaster hirtipes* 80 & 82 n4; *Dielytra*, visiting 192 & n3; hive bees 2–3, 391, 507, 532 & n3; J. Lubbock 571 & 572 n3; H. Müller 80 & 82 n3, 538 & n2, n3, 540 & 451 n2; solitary bees 218; stingless honey-bees, F. Müller 2–3 & 3 n8, 70, 218–19 & 220 n10, n12, n20, *see also* humble-bees
- beetroots: grafting 573 & 574 n9
- Belemnia inaurata* 218 & 220 n9
- Bell, Charles: determination expression 430 & 431 n4
- Belmore, Lord (Somerset Richard Lowry-Corry) 20 & 23 n9, n14
- Belt, Thomas: ants 4 & 5 n6, 217, 480 & n3, 480 n4, 535 & n4, 622 & 623 n4; CD appreciates his observations on bees and beans 395–6 & 396 nn 1–3; CD in London and hopes they can meet 554 & nn 1–3; CD probably meets in 1875: 554 n1; observations on humble-bees visiting pole beans 390–91 & 391 nn 1–4
- Belt, Thomas *The naturalist in Nicaragua* 4 & 5 n5, n6, 29 & n6, 74 & n4; ants 535 & n4, 622 & 623 n4; bull-horn acacias and Beltian bodies 367 & 368 n2, 368 & 369 n1; CD admires 169 & 170 n7, n8, 396 & n3; CD recommends to A. Forel 480 & n4, 500 n9, 522 & 523 n3, 620 & 622 n3; CD sent copy to A. Forel 535 & n2, 622 & n2; CD sent copy to F. Müller 4, 169 & 170 n8, 396 n3, 500 n9; A. Forel uses to learn English 535 & n3, 622 & n3; J.D. Hooker mentions to CD 167 & 168 n11
- Beltian bodies 368 n2; bull-horn acacias 368 n2
- Beneden, Eduard van 584 & 585 n4
- Bennett, Alfred William: asks H.C. Corby to examine *Drosera* 454 & 456 n6; CD thanks for Hoffmann's papers 470–71 & 471 n2; *Drosera* observations 254 & 256 n3, 468, 468–9 & 469 n4, 469, 471; sends CD *Botanische Zeitung*, H. Hoffmann's articles 468 & 469 n1
- Benoît, René: assists S.J. Pozzi xxix, 24 n3, 58 n4, 599 n3
- Benson, Berry: comments on *Expression* and *Journal of researches* 199–200 & nn 2–4
- Bentham, George: CD seeks support for H. Parker 137; *Handbook of the British flora* 412 n10; and J.D. Hooker, *Genera plantarum* 576 & n4; J.D. Hooker will consult about Mivart affair 579 & 580 n4; Linnean Society changes 124 & 125 n2, n4, 128 & 129 n1, 167 & 168 n7; *Pinguicula vulgaris* 412 n10; works with J.D. Hooker and D. Oliver 481 & n7

- Bentley, Thomas: partner in Wedgwood business 332 & 333 n6
- Berkeley, Miles Joseph: potato disease 124 & 125 n9
- Bignoniaceae 274 & n10
- Bikkers, Alexander V.W.: reports duck and fowl crossbreed 422; translated A. Schleicher's 'The Darwinian theory and science of language' 421 & 422 n1
- birds: American 261 & 262 n5; Banffshire, list of birds 151 n4, n8; CD discusses with A. Newton 150 & n3, 151 n5, n6, 155–6 & 156 nn 1–6; colour of parts of animal and bird bodies 302 & n1, n2; extinction 182 n6; C.J. Monro 229 & n1, n2, 241 & 243 n4; A. Newton 142 & n4, n5, 143 n6, 153–4 & 155 n3, n5, n8, 159 & nn 2–4; numbers of 155–6, 159; primroses and birds, CD on xxiv, 213–14 & 214 nn 1–3, 228 & 229 n2, 230 n4, 231, 239 n2, 240–43 & 243 nn 1–9, 240–43 & 243 nn 2–9, 256 & n3, 259 & n4; primroses and birds, E. Frankland xxiv, 228 & 229 nn 2–4, 235–6 & 236 n2, n3, 243 n3; primroses and birds, T.M. Story-Maskelyne xxiv, 238–9 & 239 n2, 243 n6; Sea Birds Preservation Act (1869) 155 n8; W. Yarrell's *History of British birds*, revision by A. Newton 142 & n5, 153 & 155 n3, *see also specific species*
- Birkbeck, Mary Harriet 593 n1
- Birkbeck, Robert 593 & n1
- Bischoff, Theodore Ludwig Wilhelm: critical of T.H. Huxley's work 207 & n2
- Bishop, Artemas: on Sandwich Island population 17 n4
- Bismarck, Otto von 577 & 578 n8, 626 & n8
- bladder senna (*Colutea arborescens*) 187 n3
- bladderwort *see Utricularia*
- Blair, Robert Hugh: CD intends to write to 8 & 9 n4
- Blanchard, Charles Emile 289 & n4, n5, 613 & 614 n4, n5
- Bliss, William R.: *Paradise in the Pacific* 76 & 78 n12
- blue bladderwort (*Utricularia caerulea*) 498 n2
- blue jay (*Cyanura cristata*) 261
- blue lizard of Capri *see Lacerta muralis coerulea*
- bluegum eucalyptus (*Eucalyptus globulus*) 390 & n7
- Blyth, Edward: *Phelsuma andamanense* 264 & n4
- Bobretsky, Nikolai Vasilyevich: crustaceans 190 & 191 n11
- Boddaert, Pieter: *Table des planches enluminées* 187 & 188 n3
- bog heather *see Erica tetralix*
- Bombinator igneus* (synonym of *Bombina bombina*; European fire-bellied toad) 190 & 191 n13
- Bombus* 218
- Booth, Thomas: cattle breeding 49 n5
- Bosanquet, Samuel Courthope 514 & 516 n12
- Boteler, Thomas: *Narrative of the voyage of discovery to Africa and Arabia* 459 n5
- HMS *Bounty* 18 n2, 20, 21, 22 n2
- Bowman, William: CD seeks support for H. Parker 138
- Brachemis crepitans* 246 & n9, 252 & 253 n4
- Bran (CD's dog) 53 & 54 n2
- Branchiostoma lanceolatum* *see Amphioxus lanceolatus*
- Brandt, Alexander von: hairy men case 88 & n3, 94 & n3
- Brassica campestris* (synonym of *Brassica rapa*; rape) 279 & n2
- Brazilian love birds 590 & 591 n5
- Bridges, Thomas 109 n4, n5
- Brisbane, Matthew: shipwrecked 65 & 66 n5
- British Association for the Advancement of Science (BAAS): annual meeting, Belfast 19–26 Aug 414 n3, 424 n1; F.M. Balfour's paper on embryogenesis of elasmobranch fishes 562 n2; A.W. Bennett's *Drosera* observations 256 n3; A.C. Brown & T.R. Fraser's report 287 & 288 n5; J.S. Burdon Sanderson's lecture 487 n5, 619 n5; G.H. Darwin presents paper 61 n9; J.D. Hooker's address (Belfast) xxv, 372 & n2, 375 n2, 379 & 380 n2, n3, 416 & 417 n1, 417 & 418 nn 7–9, 420 & n5, 424 n7, 426 & 427 n2, 427 n9, 486 & 487 n12, 510 n2, 618 & 619 n12; T.H. Huxley's lecture (Belfast) xxx, 424 & n6; J. Lubbock's lecture (Belfast) xxx, 419 n5, 424 & n6; Oxford meeting 1847: 372 n3; *Report of the British Association for the Advancement of Science* 402 & 403 n2; J. Tyndall's presidential address (Belfast) xxx, 402 & n1, 414 n2, 414 & 415 n2, 419 n5, 431 & 432 n1, n3
- British face, transformation: H.H. Howorth 40 & 41 n11
- British museum, natural history department: R. Owen, superintendent 182 n9
- Brogie, Albert de 171 & n3, 611 & n3
- Bromfield, William Arnold: *Utricularia* 298 & 299 n3, 305 & 306 n3
- Bronn, Heinrich Georg: translator of some CD books into German 158 n6
- Broome, Christopher Edmund: fungi 124 & 125 n9
- Brown, Alexander Crum and T.R. Fraser: 'Report of the committee on the connexion between chemical constitution and physiological action' 287 & 288 n5
- Brown, Robert: CD pleased A. Gray couples CD's name with Brown's 275 & 276 n3; A. Gray's *Nature* profile of CD mentions 301 & 302 n2
- Brown Animal Sanatory Institution xxv, 560 & n2
- brown-headed nuthatch (*Litta pusilla*) 261

Browne, Charles Melville (Robin Hood) 91 & n2
 Browne, James Crichton: bristling of hair in the insane 163 n8, 611 n8
 Brownlow, Charles *see* Lurgan, Lord
 Brunton, Thomas Lauder: assists CD with experiments for *Insectivorous plants* (digestibility of various substances using digestive fluids) 294 n1; assists CD with milk experiment 251 & nn 1–4, 266 & n2; CD asked others about facial expression in photograph 526 n2; CD did not receive photograph of J. de Ribera's picture 477 & n3; CD thanks for his chlorophyll work 126; CD thanks for his response to questions about *Drosera* and milk 266 & nn 1–5; CD thanks for photograph 520–21 & 521 n1, n2; CD thanks for urea observations 476 & 477 n1, n2; digestion of chondrin 116, 138; digestion of pepsin 344 & n6; digestion of urea 444 & nn 1–3; digestive properties of papaw fruit juice 266 n5, 344 & n5, 444 & n4, 520 & n6; experiments on digestion of chlorophyll xxv, 116 & 118 n1, 119 n2, n3, 126; experiments with globulin for CD 126 & 127 n4; facial expressions 117, 126 & 127 n5, 138, 382 & n2, 524, 526 & nn 2–9; and J. Fayrer, article on *Crotalus*-poison 336 nn 1–4, 378 n2; and J. Fayrer, article on venomous snakes 127 n8, 295 n2, 311 n5, 313 & 314 n4; and J. Fayrer, cobra poison 294 & n1, 295 n2, 336 & nn 1–4; 'Inhibition, peripheral and central' 521 & n3; E.E. Klein *et al.*, *Handbook for the physiological laboratory* 497 n4; photograph of J. de Ribera's picture, sends xxvii, 519–20 & nn 2–6, 524 & 526 n2, 525; 'Voit on the nutritive value of gelatin' 119 n7, 126 & 127 n4; worship 117–18, 138
 Bryant, Thomas 204 & n2
 Buckley, Arabella Burton: revision of M. Somerville's *On the connexion of the physical sciences* 395 n5
 bull-horn acacias 367 & 368 n2, 368 & 369 n1
 bulldogs 105, 143 & n2, 603
 bullfinches: and flowers 228, 235–6, 241–2, 259 n4
 Bunbury, Charles James Fox: on fossil plants 477 & 478 n3
 Bunyan, John: portrait of 382, 382
 Burdon Sanderson, Ghetal 164 & n4, 166 & n4
 Burdon Sanderson, John Scott: acids and fibrin, asks if CD received 300 & 301 n4; acids from E. Frankland 202 & 203 n4; aggregation 318 & n6; assistant 300 & 301 n2, 318 & n4; Brown Animal Sanatory Institution, director 434 n3; cat's ear cartilage, sends CD 300 & 301 n1; CD received acids and fibrin and cartilage 303 & n2; CD thanks for Burdon Sanderson's notice of

his work 303 & n8; CD thanks for experimental work 177–8 & 178 nn 2–4, 239 & n2, 240 nn 3–5, 269 & n2; CD thanks for fibrin and gluten experiments and makes further requests 257–8 & 258 nn 1–4; CD on whether fibrin, areolar tissue, fibrous basis of bone, gelatin and fibrocartilage are allied 487–8 & 488 n1, n2, 496–7 & 497 nn 1–5, 500 & n2; F. Darwin assisted 164 n5; *Dionaea*, CD advised on experiments 380 n2; *Dionaea*, CD sends MS on xxv, 164 & nn 1–5, 169, 373 & 375 n3; *Dionaea*, thanks CD for MS on 166 & n2, n4; *Dionaea*, experiments 380 n2, 426 & 427 n5; *Dionaea*, lecture on 164 n2, 169, 288 n1, 375 n3, 487 n5, 619 n5; *Dionaea*, *Nature* article xxv, 287 & 288 n1, 303 & n5; *Drosera*, CD asks about experiments 419 & 420 nn 1–5; *Drosera*, helps CD with experiments 203 n4, 226 n1, 487–8 & 488 n2; *Drosera* and *Pinguicula*, CD reports experiments with fibrin 303 & n2; experiments on digestibility of bone 303 & n3; experiments on digestibility of fibrin and gluten 253–4 & 254 nn 2–4, 258 n1, 268, 303 n4, 433–4 & 434 n2, n3; experiments on digestion of insectivorous plants 166 & 167 n6, 175–7 & 177 nn 2–6, 178 n5, 375 & n6, 420 n3; experiments on digestive properties of various acids xxv, 223–5 & 226 n1, n2, 258, 268, 301 n4, 433; experiments with enamel xxv, 301 & n5, 318 & n5; fibrin, areolar tissue, fibrous basis of bone, gelatin and fibrocartilage discussed 492–3 & 493 nn 1–4; German trip 317; gluten, sends and makes suggestions for experiments 318 & n3; J.D. Hooker's address to BAAS 417 & 418 n7; *Pinguicula*, CD reports work 287 & 288 n4, 303 & n2; G.J. Romanes studied under xxviii, 560 n2; *Utricularia*, CD believes absorbs putrefaction products 420 & n6
 Busk, George: Linnean Society changes 124 & 125 n5, 167 & 168 n7; Zoological Station 227 & n5
 Butler, Samuel 323 & 329 n15
 butterfly-lily *see* *Hedychium coronarium*
 butterwort *see* *Pinguicula*
 Butterworth and Heath 195 & 196 n4
Byblis (rainbow plants): CD comments on range 506; CD returns plant 506 & n2, 507 n1; CD seeks 489 & n1, 491; classification changes 576 n3; D. Oliver on species 575–6 & 576 n3
Byblis gigantea (rainbow plant) 496 n2, 506 n2, 576 & n3
Byblis liniflora (synonym *B. filifolia*) 575 & 576 n3
 Byron, George Gordon Noel 117 & 119 n13
 Caffre (Kafir) people 574–5 & 575 n3
Calamites 477 & 478 n3

- California: aboriginal population 40 & 41 n7
 California pitcher-plants (*Darlingtonia*) 468 & 469 n4
 call-ducks: flying ability 360 & 363 n17
 Callander, Robert John: Office of Works 125 n7
Callitriche (water starworts) 468 & 469 n4
Calotermes 1 & 3 n3
Calotermes canellae (now *Glyptotermes canellae*) 4 n3, 499 n5
 Campbell, George Douglas (duke of Argyll): fossil plants 477 & 478 n5
 canaries: and flowers 228
 Canby, William Marriott: *Dionaea* 306 & n2
 Candolle, Alphonse de: organic change 272 & n2, *see also* Candolle, Augustin Pyramus de
 Candolle, Augustin Pyramus de and Candolle, Alphonse de, *Prodromus systematis naturalis regni vegetabilis* 316 & 317 n4, 496 n4
 Canestrini, Giovanni: paper on secondary sexual characteristics of spiders 95 & n6
 Canfield, Colbert Austin 515 & 516 n22
 Canning, Albert Stratford George: peafowl 85, 92, 106–7 & 107 n4, 230 & nn 1–4
 Cape sundew *see* *Drosera capensis*
Carduelis chloris (greenfinches) 213–14 & 214 n3
 Cardwell, Edward: Hookers to visit 28 & 29 n3
Carex pulicaris (flea sedge): on *Pinguicula grandiflora* 351 & 352 n7
 carnivorous genera: J.D. Hooker's summary 380 n3, *see also* insectivorous plants
 Carpenter, William Benjamin: CD sends circular re Zoological Station appeal 195 & n5, n6; and J. Croll 167 & 168 n12; *Eozoon canadense* 168 n13
 Carr, William: cattle breeding 48, 49 & n7
 carrot flowers 490 & n4
 Carruthers, William: Linnean Society changes 124 & 125 n2, 128 & 129 n1; Royal Agricultural Society 124 & 125 n9
 Carter, Henry John: *Eozoon canadense* 167 & 168 n13
 Carus, Julius Victor: asks CD for H. Müller's bees paper reference 538 & nn 1–3; CD asks for future errata 540 & 541 n2; CD asks for introductions in Germany for G.H. Darwin 293 & n2; CD discusses collected edition proposal 163; CD invites to visit 137 & n2; *Coral reefs* 2d ed., CD sends copy 293 & n3, 633; *Coral reefs* 2d ed., translated 33 n4; *Descent* 2d ed., CD sends proofs 263 & n2, n3, 521 & nn 1–3, 540 & 541 n4; *Descent* 2d ed., presentation copy 633; *Descent* 2d ed., requests more proof-sheets 518–19 & 519 nn 1–3; *Descent* 2d ed., translating 262 & 263 n1, 263 & n3, 270 n6, 293 & n3, 346 & n2, 518–19 & nn 1–3, 521, 538 & n1, n3, 540 & 541 nn 2–4, 552 n1; *Descent* new edition 26 & 27 n1, 33; *Descent* 2d ed. German ed., CD discusses illustrations for 349 & n2; *Descent* 2d ed. German ed., translating 262 & 263 n1, 263 & n3, 270 n6, 293 & n3, 346 & n2, 518–19 & nn 1–3, 521, 538 & n1, n3, 540 & 541 nn 2–4, 552 n1; *Descent* German eds., translated 26 & 27 n1, 33 & n5, 82 n5, 158 & n6, 164 n3; Edinburgh University lectures 26 & 27 n2, 33 n4, 137 n2, 157 & 158 n1, 164 n8, 188 & n1, 262 & 263 n2, 346 & n4, 546 & 547 n4, 550 n2; Edinburgh University lectures, stops 546 & 547 n4; *Expression* German editions, translated 158 & n6; family 137 & n3, 188 & n2; German collected edition of CD's works xxix, 157–8 & 158 nn 2–6, 165 n7; *Handbuch der Zoologie* 27 & n3; *Journal of researches*, plans to translate next 519 & n5; E. Koch asks about illustrations 346 & n3; *Origin of species* German editions, Bronn and Carus translated 158 & n6; proposed meeting with CD in 1870 not achieved 350 n6; sales figures of CD's books in Germany xxix, 33 & n5, 158 & n6, 165 n7; translator of CD's complete works for German edition 578 n3, 626 n3; *Variation* German eds, translated 158 & n6; visit to CD in August, will try 188, 349
 Carus, Sophie Catherine 137 n3, 188 n2
Cassia: from Kew 187 n3
 Castelo dos Mouros, Sintra, Portugal 197 & 198 n6
 castor-oil plant (*Ricinus communis*) 390 & n7
Catalpa 274 & n10
Catasetum 383 n4
 cattle: breeding 47 & 49 n3, 48–9 & 49 n1, nn4–7; proportion of sexes 47–9 & 49 n1, n2
 Cavendish Laboratory, Cambridge 503 n15
 Cavendish, William *see* Devonshire, duke of
 Cecil, Henry: comments on *Journal of researches* 196–7 & nn 1–7, 221 & n2; thanks CD for his acknowledgment of comments 221 & n1
Cecropia (embauba or trumpet tree): and ants 217 & 220 n6, 368 & 369 n1
Centris 218 & 220 n15
Cephalotus (Albany pitcher-plant): Australian genus with one species 417 n6; CD does not mention in *Insectivorous plants* 418 n9; CD will resume work on 383; CD's response to J.D. Hooker's failure with 418; J.D. Hooker's address to BAAS 417 & 418 n9; J.D. Hooker's experiments 379 & 380 n5, 383 n3, 417 & n6, 427 & n9
Cephalotus follicularis 417 n6
Cervus megaceros (synonym of *Megaloceros giganteus*) 37, 37 & 38 n9
 HMS *Challenger* expedition 27 n1, 263 n2, 547 n4, n6, 550 n2

- Chancery visitor of lunatics 595 n1
- Chapelshade Free Church Literary Society 28 n1
- Cheever, Henry T.: *Life in the Sandwich Islands* 59 & 60 n6
- Chemical Society, Burlington House 114 n1
- Chironomus* 554 n3
- chloral: as sedative 300 n1
- chlorodyne 518 & 518 n1
- Christie, William Henry Mahoney: CD thanks for information 497 & n2; *Merope's* arrival in New Zealand 493 & n1
- Cicada*: on *Pinguicula grandiflora* 351 & 352 n3
- circumcision 300 & n3
- Cirripedes: complementary males 190 & 191 n7
- clammy campion *see* *Lychnis viscosa*
- Clark, Andrew: CD requests visit in London xvii, 15 & n2; CD writes to J. Tyndall recommending Clark for E.F. Lubbock 593; CD's diet 128 & 129 n5; is T.H. Huxley's physician 207 & n5; residence 15 n2; treats CD xvii, 10 & n6, 240 n4, 593 n2; treats G.H. Darwin xxii, 271 & n3, 400 & n7, 405 & n7, 501 & 502 n6; treats H. Darwin 237 & 238 n3; treats J.F. McLennan 240 & n4, 247 & n3; J. Tyndall agrees with CD about recommending for E.F. Lubbock 594
- Clark, William Hardisty: greyhound breeding 145 & 149 n8
- classification of animal kingdom: T.H. Huxley 550 n3, 589 & n8
- Clifford, William Kingdon 505 & n5
- William Clowes & Sons 186 n6; CD asks G.H. Darwin not to send *Descent* 2d ed. MS yet 214 & 215 n6; *Descent* 2d ed. 263 & n2, 270 & n5, 271 n1, 290 n1, 293 n3, 294 & n3, 393, 508 n2; printers to J. Murray 394 n10, 508 n2; printworks 508 n2
- coal titmouse (*Parus ater*; now *Periparus ater*) 143 n6, 150 & 151 n7
- Coan, Titus: career 304 n3, 305 n4; information on Hawaiian infanticide 304
- Coan, Titus Munson: information on Hawaiian population xix, 19 n1, 74–7 & 78 nn 1–17, 80 n2, 304 & nn 1–3, 305 nn 4–6
- cobra poison: T.L. Bruntton and J. Fayrer 294 & n1, 295 n2, 336 & nn 1–4; CD's experiments with 310–311 & 311 nn 2–5, 338 & 339 nn 2–5, 344 n3, 375 & n7; J. Fayrer suggests CD uses stronger cobra poison solution 313–14 & 314 nn 2–6
- cobras 337 n6, *see also* cobra poison
- Coddington, Henry: microscope popularised 412 n5
- Coenonympha pamphilus* (small heath butterfly) 373 n3
- Cohn, Ferdinand Julius: *Aldrovanda* and *Utricularia* 484–6 & 486 nn 1–4, 485, 486, 487 nn 5–13, 494 & n6, 617, 617–18 & 618 nn 1–3, 618, 619 nn 4–13; CD thanks for information on *Aldrovanda* and *Utricularia* xxvi, 493–4 & nn 1–8
- Coleman, William Higgins: *Utricularia* 298 & 299 n3
- Colenso, John William: visiting England 557 & n2, 574–5 & 575 n3
- Collingwood, Cuthbert 88, 89 n3
- Colonsay, Lord (Duncan McNeill) 53 & 54 n3
- colours: perception of 435–6, 441
- Colutea arborescens* (bladder senna) 187 n3
- Colville, Elinor 60 & 61 n8
- Colvin, Sidney 556 & 557 n13
- common bladderwort *see* *Utricularia vulgaris*
- common butterwort *see* *Pinguicula vulgaris*
- common quail (*Ortyx*) 261
- common skullcap (*Scutellaria galericulata*) 390 & n5

Semper 33 & 34 n2, 38 & 39 n6, 600 & 601 n6; J.W.A. Wigand 143–4 & 144 nn 1–4, 160, 569 & n4, 608–9 & 609 nn 1–4, 625 & n4; C. Wilkes 376 & 377 n7; Zürich University students 569 & n3, 624 & 625 n3, *see also* Mivart affair; Mivart, St G.J.
- PUBLICATIONS:
- *Admiralty manual of scientific enquiry*: CD's geology chapter 459 n7, 460 n6
 - *Climbing plants* 2d ed.: H. de Vries cited 94 n1; published 1875: 164 n4, 571 n1
 - *Coral reefs*: CD needs copy for correction 12 & n3, 13; CD suggests new edition 12 & n3; C. Lyell supplies CD with copy of xviii, 25 & 26 n2, 632; new edition planned 13, 14 n2, 14 n2, 165 n4, 632; published 1842: 632
 - *Coral reefs* 2d ed.: J.V. Carus translated 33 n4; CD discusses C.G. Semper's views 39 n6, 601 n6; CD finished work on 252; CD reasserts priority of his work xviii; CD thinks would sell in Germany if translated 33 & n3, 293 n3; CD works on xviii, 16 n4, 33 & n3, 33–4 & 34 nn 2–4, 73 & 74 n5, 74 n6, 86 & n3, 128 & 129 n4, 164 n7, 165 & n2, n4, 170 n13, 172 & n2, 627; J.P. Couthouy cited 376 & n3; E. Darwin assists CD 632; extra costs of corrections 173, 632; *Forms of flowers* 5 n3; fringing reefs 376 n2; fuller account of theory than in *Journal of researches* 198 n4; images 13 n3; H.E. Litchfield assists CD xviii, 165 & n2, 171–2 & 172 n2, 172 & n2, 173 n2, 632; maps 172 n2; presentation copies 271 & n4, 376 n1, 632–3 & 633 nn 1–10, 634 n11, n12; publication 137 n5, 459 n5, 628; C.G. Semper cited 67 n4, 602 n4; C.G. Semper's objections 39 n2, n6; Zanzibar 458 n5
 - *Coral reefs* 3d ed.: W.J.L. Wharton cited 458 n3
 - *Cross and self fertilisation*: W.J. Beal cited 507 n3; T. Belt cited 391 n3, 395 & 396 n2; CD plans to work on after *Insectivorous plants* 519 n4; CD works on 31 n9; draft manuscript 463 n3; *Fumaria capreolata* 192 n4; humble-bees 412 n9; *Ipomoea purpurea* 463 n4; published 1876: 164 n5; *Viola tricolor*, CD's MS 463 n3
 - *Descent*: G. Cupples cited 105 n7; Cyprinidae 111 n3, 121 & 122 n6; dogs, and movement 534 & n1; dogs, reasoning capabilities 313 n5, 533 n4; evolution of morals 123 n2, 248 & n3; extinction among human groups 7 n6; G.H. Ford, illustrations 185 & n2; greyhounds 11 n2, 16 n3; A. Günther cited 110; E. Haeckel cited 563 n6; human teeth 85 n11; J.F. McLennan cited 240 n3, 250 n3; St G.J. Mivart reviewed in *Quarterly Review* 1871: xxi, 402 n9, 407 n9, 413 n5, 504 n2; published in two volumes xix, 137 n4, 186 & n4, 284 n3, 534 n1, 632; W.W. Reade cited 575 n4; sexual selection 186 n4; vaccination 237 n3, 613 n3; vestigial pointed ears 256 n7, 276 n11; T.W. Wood, illustrations 189 n2; W. Yarrell cited 113 n5
 - *Descent* 2d ed.: additions to 186 & n3; CD acknowledges large number of correspondents xviii; CD finishes checking proof-sheets 529 n1; CD finishes work on 169 & 170 n9, 185–6 & 186 nn 1–6, 252, 276 n11, 595 n1, 632; CD

seeks information on population decline 17 n5; CD sends MS to R.F. Cooke 195 & 196 n1, n2; CD thanks H.H. Howorth for information 7 n2; CD thanks H. Hartogh Heijs van Zouteveen for corrections 93 & n3; CD works on xviii, 11 n2, 27 n1, 33 n1, n2, 59 n2, 73 & 74 n5, 74 n6, 86 & n3, 93 & n3, 128 & 129 n4, 163 & 164 n3, 165 & n6, 169 & 170 n4, 170 n13, 173 & n2, 185–6 & 186 n1, n4, n5, 221 & 222 nn 3–5, 467 & n3, 627, 628; H. Cheever cited 60 n6; William Clowes & Sons, printer 263 & n2, 270 & n5, 271 n1, 290 n1, 293 n3, 294 & n3, 393, 508 n2; T.M. Coan cited 78 n17; G.H. Darwin admires *Descent* 2d ed. 215–16; G.H. Darwin assists CD xix, 50 & n2, 204 n4, 211 & 212 n1, 214 & 215 n2, n6, 215 & 216 n1, 221 & 222 n3, 221 & 222 n3, n4, 270 & 270 n2, 270 & 271 n1, n2, 284 n3, 294 & n4, 393 & 394 n10, 412 & n5, 505 & n10, 508 & n2, 511 & n2, n3, 514 & 516 n17, 515 & 516 n23, 549 & n8, 552 & n1, 632, 633; G.E. Dobson cited 267 n1; dogs, greyhounds xix, 15 n2, 16 n3, 91 n3, 206 & n1; dogs, reasoning capabilities 533 n4; W. Ellis cited 59 n3; Fenton cited 7 n2; finances 195, 632; G.H. Ford, illustrations 185 & n2; greyhound breeding 149 n4; H. Hartogh Heijs van Zouteveen cited 120 n3; Hawaiian population 19 n3, 73 n2, n4, 80 n2; T.H. Huxley, note on brains xix, 173 & n3, 178 & 179 n1, 207 & n1, 210 & n1, 211 n2, 315 & nn 1–3; illustrations 185 & n2, 186 n5, 195 & 196 n2, n4, 529 & n2; index 508, 514, 515 & 516 n23; indigenous Australians 429 n3; infanticide in humans 11 n2, 15 n2, 98 n9, 304 n1; intellect of animals 278 n2; J. Jarvis cited 59 n2; language and thought 403 & n2; marriage systems 57 n1; E. Morselli cited 202 n2; H. Müller cited 538 & n2, n3, 540 & 541 n2; no scientific work or reading due to work on 169 & 170 n4; number of copies 289–90; peacocks 230 n4; O. Pickard-Cambridge cited 89 n3; presentation copies 527 & 528 n3, 559 & n1, 578 n2, 626 n2, 633 & 634 nn 14–27; price of xix, 534 n3, 537 & n1; print quality 200–201 & n2, n3, 203 & n1, n2, 204 n5, 290 n3, 294 n2; production of 293–4 & 294 nn 2–6; proportion of sexes in illegitimate and legitimate human births 517 n8; published 1874: xix, 82 n5, 93 n3, 263 n2, 403 n2, 529 n1, 561 & n5, 628, 632; published in one volume xix, 137 n4, 186 & n4, 204 & n5, 284 n3, 529 n1, 534 n1, 632; sales figures 538, 545 & 546 n4; sex ratio, possible influence of selective breeding practices on xix; T.N. Staley cited 73 n2, n5, 98 n5, n9; stereotyping xix, 185 & 186 n2, 534 & n3, 632; supernumerary mammae cases 214 n3; vestigial

pointed ears 256 n7; A. von Brandt cited 94 n3; W.D. Whitney cited 403 n2; T.W. Wood, illustrations 189 n2

- *Descent* Dutch ed.: H. Hartogh Heijs van Zouteveen translated 93 n3, 119–20 & 120 nn1–3
- *Descent* French ed.: Moulinié translated 24 n2, n4, 58 & n1, n2, 599 n2
- *Descent* French 2d ed.: Moulinié translated 58 n1; revision translated by Barbier xxix, 24 & n4, 58 n2, 599 & n4
- *Descent* 2d ed. French ed.: J.J. Moulinié translated, E. Barbier revised xxix, 24 n2, n4, 58 & n1, n2, 599 & n2, n4; presentation copies 24, 599
- *Descent* 2d ed. German ed.: J.V. Carus translating 262 & 263 n1, 263 & n3, 270 n6, 293 & n3, 346 & n2, 518–19 & nn 1–3, 521, 538 & n1, n3, 540 & 541 nn 2–4, 552 n1
- *Descent* German eds.: J.V. Carus translated 26 & 27 n1, 33 & n5, 82 n5, 158 & n6, 164 n3
- *Descent* US ed.: published 1871: 51 n3
- *Descent* 2d ed. US edition 529 n2, 552 & n1
- ‘Distribution of the erratic boulders’ 164 n6
- *Earthworms*: G. King cited 541 n3
- *Expression*: bristling of hair 162 n3, 611 n3; closed mouth of determination 431 n2, n4; epileptic idiot 544 n3; G. Harris on presentation list 69 n5; head, throwing back 443 n11; illustrations for domestic and foreign editions 346 n3, 349 & n2; F. Lieber cited 437 & 443 n8; F. Müller on presentation list 74 & n3; nostrils, movement 453 n1; principle of antithesis 443 n16; print numbers 470 & n5; published Nov 1872: 51 n2; referred to P. Nicol, W.R. Scott and R.H. Blair 9 n4; O.G. Rejlander’s photographs for 65 n1; sales information 456, 528 & n5, 530 & 531 n4; shrugging 234 n10, 510 n5; tears, shedding 234 n3; E.B. Tylor cited 437 & 443 n8
- *Expression* 2d ed.: bristling of hair 163 n6, 611 n6; F. Darwin edited 470 n4; dogs vomiting 559 n2; J.R. Lowell cited 443 n23; shrugging 235 n2; E.A. Sophocles cited 443 n2; C. Wright cited 470 n4
- *Expression* Dutch edition: H. Hartogh Heijs van Zouteveen translated 93 & n1, 350 n3; illustrations 349 & 350 n3
- *Expression* French ed.: Pozzi and Benoît translated xxix, 24 n2, 58 n4, 599 n2
- *Expression* German eds.: J.V. Carus translated 158 & n6; V.O. Kovalevsky translated 30 & 31 n10
- *Expression* US ed.: published Dec 1872: 51 n2
- *Forms of flowers*: *Daucus carota* 473 n3
- *Gardeners’ Chronicle*: letter on humble-bees and beans 391 n2, 395 & 396 n2, 412 n9

- German books sales figures xxix, 33 & n5, 158 & n6, 165 & n7
- German collected edition of CD's works: E. Schweizerbart'sche Verlagsbuchhandlung xxix, 157, 158 n2, n4, 164 n3, 165 n7, 519 n5, 577 & 578 n3, 625 & 626 n3
- *Insectivorous plants*: *Aldrovanda vesiculosa* 482 n3, 492 n5, 506 n6, 507 n3, 541 n1, 574 & n2; D. Appleton & Co. wish to publish US edition 539; T.L. Brunton assisted CD with experiments 294 n1; T.L. Brunton cited 119 n3, 119 n7, 127 n3, 444 n3; J.S. Burdon Sanderson's experiments reported 177 nn 3–6, 226 n1, 254 n4, 260 n3, 268 n3, 301 n4, n5, 420 n3; *Byblis* 489 n1, 576 n3; W.M. Canby cited 306 n2; CD begins writing 136 n2, 627; CD works on xxv, 252 & 253 n7, 275 & 276 n6, 309 & n5, 420 n2, 519 & n4, 521 & 522 n4, 627; CD's observations on plants complete 306; *Cephalotus*, not mentioned 418 n9; chapter 13: 164 & n3; F.J. Cohn cited 486 n4, 487 n9, 619 n4, n9; conclusions re inorganic matter 283 n5; T.C. Copland cited 308 n1; F. Darwin assists CD 308 & 309 n4, 309 & n5, 310 n4, 320 & n7, 341 & 342 n2, 366 n2; F. Darwin's experiments with fibro-cartilage 419 & 420 n4; *Dionaea*, microscopical observations 487 n5, 619 n5; F.C. Donders cited 347 n3, 367 n4; *Drosera*, aggregation in protoplasm of glands 369 & n5; *Drosera*, effect of ammonia phosphate on 275 & 276 n7; *Drosera*, effect of urea on 251 & n3, 477 n2; *Drosera*, experiments with bone 269 n2, 488 n2; *Drosera*, experiments with carbonate of ammonia 303 & n7; *Drosera*, experiments with cartilage 127 n2, 301 n1, n2, n3, 419 n2, 488 n2; *Drosera*, experiments with cobra poison 344 n3; *Drosera*, experiments with enamel and dentine 260 n2; *Drosera*, experiments with gelatine 497 n3; *Drosera*, experiments with milk 251 n1; *Drosera*, experiments with oleic, benzoic and acetic acid 259 & n5; *Drosera*, experiments with phosphate of ammonia and nitrate of ammonia 259 & n3; *Drosera*, experiments with phosphate of lime 208 n2, 211 n2; *Drosera*, reports his work on 203 n2, 222 n1, 240 n4, 488 n2; *Drosera*, results published in 375 n4; *Drosera*, sensitivity of glands 385 n1; *Drosera*, studying for book 469 n3; *Drosera*, used for most of experiments xxv, 252 & 253 n7, 351 n3, 371 n6; *Drosera*, working on chapter 4: 487 & 488 n1; *Drosera*, working on *Drosera* section 31 n9; *Drosera capensis* 462 n5; *Drosera dichotoma*, supplied by D.F. Nevill 435 n2; *Drosera dichotoma*, tentacles 449 n1; *Drosera rotundifolia*, tentacles 471 n4; *Drosera rotundifolia*, transmission of motor impulse 508 n3; *Drosophyllum lusitanicum*, digestion of cartilage 419 n2; *Gentiana* 576 & n5, n7; J. Grönland cited 471 n4; R. Holland cited 451 n4; E.E. Klein cited 353 n2, 385 n1; E.E. Klein's observations 260 n1, n2, n4; J. Knight cited 170 n10; J.T. Moggridge cited 136 n6; D. Moore cited 351 n4; S.W. Moore 258 n3; *Nepenthes*, J.D. Hooker's experiments 366; nitrogen amount in ammonia compounds 331 n2; T. Nitschke cited 375 n8; D. Oliver cited 475 n2, 576 n6, 587 n2; phosphate of ammonia, specific gravity 429 n4, 489 n2; phosphate of ammonia, water of crystallisation 330 n2, 347 n3; *Pinguicula*, compared to *Drosera* 283 n2; *Pinguicula*, cultivation 351 n4; *Pinguicula*, F. Darwin's observations 412 n7; *Pinguicula*, experiments with carbonate of ammonia 341 n2; *Pinguicula*, experiments with flies 310 n2; *Pinguicula*, interest in started 428 n2; *Pinguicula*, movement of leaves 337 n8; *Pinguicula*, observations on digestion of 315 n3; *Pinguicula*, studying for book 469 n3; plants received from Germany 456 n3; *Polypompholyx* 587 n2; presentation copies 348 & 349 n5; published 1875: 164 n4, 222 n1, 276 n6, 306 n2, 349 n5, 351 n3, 467 n2, 529 n3, 541 n2, 542 n2; *Roridula* 489 n1; *Sarracenia*, digestion 342 n6; *Sonchella* 489 n1; title of 571 & n1; M.L.A. Treat cited 280 & 281 n2, 281 & n4, 306 n2, 510 n1, 553 n1; A.A.L. Trécul cited 471 n4; *Utricularia*, epiphytic and marsh species 490 n4; *Utricularia montana* 447 n2, 576 n2; *Utricularia montana*, bladders 576 n2; *Utricularia montana*, illustrations 463 & n3; *Utricularia montana*, structure of 464 n3, n4, 465 n4; *Utricularia vulgaris*, bladders 449 n2; H.M. Wilkinson thanked for plants 404 n3, 461 n1; M. Ziegler's views criticised 136 n2, 543 n3, 624 n3
- *Journal of researches*: Fuegians 221 & n2; tortoises of Galápagos 180 & 182 n5
- *Journal of researches* 1860 ed. (reprint 1870): postscript 231 & 232 n1
- *Journal of researches* 2d ed.: aboriginal peoples of Australia 75, 78 n2; coral formations 198 n4; images 13 n3; marine gastropod molluscs 250 n3; octopuses 113 n7; published from stereotypes 521 & n3; women's appearance compared to men's 197 & n2
- *Journal of researches* French ed.: Barbier translation 58 & n3, 63 n1; C. Reinwald & Co 563 & n1, n2, 568 & n2, n3
- *Journal of researches* German eds.: Friedrich Vieweg und Sohn 158 n4; E. Schweizerbart'sche Verlagsbuchhandlung 158 n4, 519 & n5
- *Living Cirripedia*: complemental male barnacles 190 & 191 n7; response to shadows 534 & n2

- *Movement in plants*: effect of water on various specimens, no conclusions published 335 n7
 - *Narrative*: catalogue of shells 250 & n2; marine gastropod molluscs 250 n3
 - *Nature* (CD's letters): complementary males in Cirripedes 191 n7; fertilisation of Fumariaceae 192 & nn 1–3; primroses and birds xxiv, 213–14 & 214 nn 1–3, 228 & 229 n2, 230 n4, 239 n2, 240–43 & 243 nn 1–9, 256 & n3
 - 'On the tendency of species to form varieties' (CD and A.R. Wallace) 158 n3
 - *Orchids*: R. Brown's regard for C.K. Sprengel's work 302 n2; finance 394 & 395 n2; insects and nectar 479 n3; *Orchis mascula* (early purple orchid) 201 & n2
 - *Orchids* German ed.: Bronn translated 158 & n6
 - *Origin of species*: authority of facts 154 & 155 n6; negative review of 300 n3
 - *Origin of species* 2d ed.: Weald, denudation of 215 & n4
 - *Origin of species* 3d ed.: Weald, denudation of 215 & n4
 - *Origin of species* 3d US ed.: D. Appleton & Co. 51
 - *Origin of species* 4th ed.: authority of facts 141–2 & 142 nn 3–5, 150 & 151 n4, 153 & 154 n2; thrushes, relative numbers 142 n5, 150 & 151 n4
 - *Origin of species* 5th ed.: kidney-beans 37 n2
 - *Origin of species* 6th ed.: CD receives payment for 394 & 395 n3; *Eozoon canadense* 170 n6; natural selection and useless structures 144 n3; price 534; print quality 200 & 201 n2; red grouse 390 n4; G.J. Romanes refers to 353 & 362 n3, 354 & 362 n4, 361 & 363 n19; stereotyped 389 n4; structures of no obvious utility 144 n3, 609 n3
 - *Origin of species* French ed.: Moulinié translated 24 n2, 37 n2, 599 n2
 - *Origin of species* German editions: Bronn and J.V. Carus translated 158 & n6
 - *Origin of species* Serbian edition: M.M. Radovanović translated xxix, 463 & 464 n1
 - plans for publications xxiv–xxv, 163, 252 & 253 n8
 - translations of publications xxix
 - *Variation*: circumcision 300 n3; colour of animal and bird body parts 302 & n1, n2; domestic cats 450 n3; *Formica rufa* 499 n7; K.F. von Gärtner cited 573 & 574 n7; interbreeding 87 n2; pangenesis hypothesis 467 n4; peach and almond, relationship between 286 n1; peafowl 85 & n1; G.J. Romanes refers to 360 & 363 n17; A. de Tschärner cited 574 n7; vines for graft hybrids 573 & 574 n7; W. Waring cited 11 n1
 - *Variation* 2d ed.: A.S.G. Canning cited 93 n2, n3, n5; circumcision 300 n3; colour of animal and bird body parts 302 & n1; H.W. Jackson cited 302 n1; peafowls 93 n2, n3, n5; published 1875: 85 n1, 230 & n2
 - *Variation* French ed.: Moulinié translated 24 n2, 599 n2
 - *Variation* German eds: J.V. Carus translated 158 & n6
 - *Volcanic islands*: J.W. Judd cites 476 & n4, 478 n1
 - 'Volcanic phenomena and the formation of mountain chains' 164 n6

Haeckel for his comments 467 & n4; pangenesis, G.J. Romanes interested in testing 574 n3, n7, 578; pangenesis, *Variation* 467 n4; reduction in size of organs 371; sexual selection 89, 94–5 & 95 n1, n2, 186 n4; species change by slight modifications 202; teleology and morphology 278 & n4, 301 & 302 n3, n4

SCIENTIFIC WORK: *Aldrovanda vesiculosa*, Bengal 491 & 492 n4, 541 & n1; *Aldrovanda vesiculosa*, CD asks D. Oliver for 506; *Aldrovanda vesiculosa*, CD trying to grow 484 & n3, 489 & 490 n6; *Aldrovanda*

vesiculosa, CD works on 482 & n3, 493–4 & 494 n2; *Aldrovanda vesiculosa*, F.J. Cohn 484–6 & 486 nn 1–4, 485, 487 n7, n10, 617, 617–18 & 618 nn 1–3, 619 n4, n7, n10; *Aldrovanda vesiculosa*, family Droseraceae 456 n3, 486 n3, 618 n3; *Aldrovanda vesiculosa*, J.D. Hooker supplies 454 & 456 n3, 481 & n3, 490 n6, 493 & 494 n2; *Aldrovanda vesiculosa*, monospecific genus in family Droseraceae 486 n3, 618 n3; *Aldrovanda vesiculosa*, range of 506; *Aldrovanda vesiculosa*, var. *australis* 492 n5, 506 & 507 n3; *Aldrovanda vesiculosa*, var. *verticillata* 492 n5, 506 n6, 574 & n2; approach to scientific work 560; carrot flowers 490 & n4; *Cephalotus* 383; crossing plants 87 n3; *Dionaea*, advised J.S. Burdon Sanderson on experiments 380 n2; *Dionaea*, finished work on 64 n3; *Dionaea*, A. Gray urges CD to publish work on 564 & n3; *Dionaea*, interested in since 1860: 164 & n1; *Dionaea*, microscopical observations 487 n5, 494 & n4, 619 n5; *Dionaea*, nearly finished work on 435; *Dionaea*, D.F. Nevill possible supplier of 424, 426 & 427 n6, 433 & n3, 447 & 448 n2; *Dionaea*, sends J.S. Burdon Sanderson MS on 164 & n1, 169, 373 & 375 n3; *Dionaea*, specimens from Kew 447 & 448 n2; *Drosera*, aggregation of cells in glands of 303 & n6, n7, 318 & n6, 369 & n5, 374; *Drosera*, asks J. Fayrer about cobra poison's effect on vibratile cilia 310–311 & 311 n3; *Drosera*, begins writing on 136 n2, 546 n3; *Drosera*, A.C. Brown and T.R. Fraser's article, CD wishes to read again 287 & 288 n5; *Drosera*, T.L. Brunton assists with experiments with milk 251 & nn 1–4, 266 & n2; *Drosera*, J.S. Burdon Sanderson assists CD with experiments 203 n4, 226 n1, 487–8 & 488 n2; *Drosera*, digestion 374–5 & 375 n6; *Drosera*, digestion compared to *Pinguicula* 282; *Drosera*, effect of olive oil on 258, 259; *Drosera*, effect of urea on 251 & n3, 444 n2, 477 n2; *Drosera*, effect of water on 276, 374; *Drosera*, experiments with ammonia salts 374; *Drosera*, experiments with bone 202 & 203 n1, 269 n2, 303 & n3, 318, 488 & n2; *Drosera*, experiments with camphor 375; *Drosera*, experiments with carbonate of ammonia 303 & n7; *Drosera*, experiments with cobra poison 310–11 & 311 nn 2–5, 338 & 339 nn 2–5, 344 n3, 375 & n7; *Drosera*, experiments with dentine 239 & 240 n4, 259 & 260 n1, n2, 301 n5; *Drosera*, experiments with enamel, 239 & 240 n4, 259 & 260 n1, n2, 301 n5; *Drosera*, experiments with fibrin 239, 258, 303 & n2, 488 n2; *Drosera*, experiments with gelatine 496–7 & 497 n3; *Drosera*, experiments with hydrochloric acid and albumen 251 & n2, 488 n2; *Drosera*, experiments

with nitrogenous organic fluid 374; *Drosera*, experiments with oleic, benzoic and acetic acid 259 & n5; *Drosera*, experiments with organic and inorganic objects 374; *Drosera*, experiments with pepsin 251 & n4; *Drosera*, experiments with phosphate of ammonia and nitrate of ammonia 259 & n3; *Drosera*, experiments with poison 375; *Drosera*, experiments with raw meat 169 & 170 n9, 488 n2; *Drosera*, experiments with sewage water 202 & 203 n3, 208 & n3, 262 & n1; *Drosera*, exposing seeds to secretions inhibits germination 288 & n3; *Drosera*, A. Gray urges CD to publish work xxvii, 564 & n3; *Drosera*, hairs colouring, H.C. Sorby on 454 & 456 n8; *Drosera*, J.D. Hooker, CD gives summary of experimental results xxv, 373–5 & 375 nn 4–8; *Drosera*, J.D. Hooker, permission to report CD's *Drosera* work to BAAS xxv, 372 & n2, 373 & 375 n2, 380 n2; *Drosera*, J.D. Hooker's address to BAAS, CD comments on 426 & 427 n4; *Drosera*, hopes to visit E. Frankland 222 & n2; *Drosera*, interested in since 1860: 164 & n1; *Drosera*, number of species 576 & n3, n4; *Drosera*, proposed experiments with globuline 178 & n4; *Drosera*, published as *Insectivorous plants* 252 & 253 n7, 546 n3; *Drosera*, resumes experiments 169 & 170 n10; *Drosera*, secretion becomes acid 374 & 375 n5; *Drosera*, series of comparative trials 275; *Drosera*, *Sondera*, synonym of *Drosera* 489 n1; *Drosera*, tells A. Gray of observations 275 & 276 n7; *Drosera*, testing digestive ability of *Drosera* on different substances 301 n1, 500 n2; *Drosera*, transmission of motor influence 375 & n8; *Drosera*, used for most of experiments for *Insectivorous plants* xxv, 252 & 253 n7, 351 n3, 371 n6; *Drosera*, wished to see if digestion analogous to animals 178 n3; *Drosera*, M. Ziegler's experiments, CD tries 141; *Drosera binata*, T.C. Cooke's observations 306–7 & 308 n1, 307; *Drosera binata*, *Drosera dichotoma* used as name for 481 n1; *Drosera binata*, growing conditions 448 & n2; *Drosera binata*, D.F. Nevill supplies 433 & n4, 435 & n2, 446–7 & 447 n1, 447 & 448 n6, 449 & n1, 461 & 462 n4; *Drosera capensis* 462 n5; *Drosera rotundifolia*, digestion of cartilage 418 & 419 n2; *Drosera rotundifolia*, experiments with phosphate of ammonia 385 n1; *Drosera rotundifolia*, experiments on transmission of motor impulse 508 n3; *Drosera rotundifolia*, H.M. Wilkinson's observations 373; *Drosophyllum*, D. Moore sends plant 350 & n2, 365 & n1; *Drosophyllum*, seeks plant from D. Moore 334 & n2; *Drosophyllum lusitanicum*, experiments with cartilage 419 n2; *Drosophyllum lusitanicum*, J.D.

Hooker was to get for CD 187 & n7, 320 & n5, 579 & 580 n7, 582 & n5; forgets himself only when at work 252; *Fumaria capreolata* 192 & n2, n4; glaucous leaved plants, experiments with water on 169 & 170 n9; *Hedychium*, plant structure 170 n3; A. von Humboldt, inspiring influence on CD 422 & n2; insectivorous plants, chemicals from Hopkin & Williams 378 & 379 n2; insectivorous plants, E. Frankland helps CD with work on 429 n1; insectivorous plants, J.D. Hooker assisting CD's work by *Nepenthes* experiments 424 n7; insectivorous plants, observations on plants complete 306; insectivorous plants, observers on CD's behalf 283 n3; insectivorous plants, preparation of gluten 303; insectivorous plants, working method xxv; insectivorous plants, *see also* Burdon Sanderson, J.S.; Darwin, C.R. (PUBLICATIONS, *Insectivorous plants*); Hooker, J.D.; leaves, effect of water on 186 & 187 n2; microscope acquired in 1831: 412 n5; movement in plants 335 n7; none (scientific work) due to 2d eds *Descent* and *Coral reefs* work 73 & 74 n5, 74 n6, 128 & 129 n4, 169 & 170 n4; overworked, defers work on movements of leaves till next summer 335 & n7, 341; *Pinguicula*, asks J. Ralfs for observations of leaves and seeds on 317 & n2; *Pinguicula*, cells 471; *Pinguicula*, F. Darwin and CD have worked well on 341; *Pinguicula*, F. Darwin observes in Switzerland xxiii, 384 n2, 410, 410–411 & 411 n1, n2, 412 nn 3–12; *Pinguicula*, W.E. Darwin sends references 298 & 299 nn 3–5; *Pinguicula*, digestion of animal matter and seeds 384 n5, 446 n5; *Pinguicula*, digestion compared to *Drosera* 282; *Pinguicula*, draft letter, CD requests observations assistance 281–2 & 282 n1; *Pinguicula*, draft letter, possible recipients 282 n1; *Pinguicula*, experiments with cabbage seeds 279 n2; *Pinguicula*, experiments with carbonate of ammonia 340 & 341 n2; *Pinguicula*, experiments on digestion 275 & 276 n8, 277 & n4, n5, 282 & 283 n5; *Pinguicula*, experiments with fibrin 303 & n2; *Pinguicula*, experiments with flies 309–310 & n2; *Pinguicula*, experiments with meat 340–41; *Pinguicula*, experiments with milk 320 & n7; *Pinguicula*, experiments with seeds 282 & 283 n2, 283 n4, 314, 371 & n8; *Pinguicula*, experiments on since 31 May 299 n3, 342 n2; *Pinguicula*, experiments with spinach 308 & n2; *Pinguicula*, J.D. Hooker charmed by CD's notes on 340 & n5; *Pinguicula*, interest in started 428 n2; *Pinguicula*, leaves on specimens 333 & 334 n1, 334, 348; *Pinguicula*, T.L. Marshall's observations 369–70 & 371 nn

1–9; *Pinguicula*, W.C. Marshall letter draft used for letters to several correspondents 280 n2; *Pinguicula*, W.C. Marshall's observations 283 n3, 427–8 & 428 n2, n3, 445–6 & 446 nn 2–5, 446 n2; *Pinguicula*, movement of leaves 337 & n8, 341 n3; *Pinguicula*, omnivorous habits 314 & n1, 315 n2, n3; *Pinguicula*, order Lentibularineae 283 n8; *Pinguicula*, possible observers of 282 & 283 n3, 316 & 317 n5; *Pinguicula*, reports on progress to W.T. Thiselton-Dyer and asks questions 277 & n4, n5, 282–3 & 283 nn 1–8, 308 & n2, 309 n5, 309–10 & 310 nn 2–4, 319–20 & 320 nn 2–7, 333 & 334 n1, 334, 340–41 & 341 nn 1–3; *Pinguicula*, reports on to J. Ralfs 348 & 349 n2, nn 4–6; *Pinguicula*, sends notes to W.T. Thiselton-Dyer 334 & 335 n4, 340 & n1, 340 & n5; *Pinguicula*, tells J.S. Burdon Sanderson of work 287 & 288 n4, 303 & n2; *Pinguicula vulgaris*, experiments with phosphate of ammonia 384 n2; *Pinguicula vulgaris*, working on 348; sandwalk (CD's thinking path) xxiii–xxiv, 108 n1, 120 n1; species of same genus, value of observing many 208; *Stapelia*, asks W.T. Thiselton-Dyer to experiment with water on leaves 186 & 187 n6, 273 & 274 n4; *Utricularia*, D.F. Nevill enquires about CD's work on 590 & 591 n2; *Utricularia*, aquatic species in Ceylon 464 & 465 n5; *Utricularia*, believes absorbs putrefaction products 420 & n6, 428 & 429 n2, 447, 447 n2; *Utricularia*, bladders xxvi, 428, 447 & n2, 447 & 448 n2, 465 & nn 2–4, 467 & n2, 498, 596 & n2; *Utricularia*, calyx lobes 576 & n6; *Utricularia*, F. Darwin assists CD xxvi, 368 & 369 n1, 388 n2, 420 n4, 488 n2, 553 n1; *Utricularia*, W.E. Darwin seeks 348 & 349 n2, 365 n2; *Utricularia*, W.E. Darwin sends references 298 & 299 nn 3–5; *Utricularia*, epiphytic species 335 & n9, 366 & n3, 489 & n4, 490 n4; *Utricularia*, failure with compared to J.D. Hooker's with *Cephalotus* 418 & 419 n3; *Utricularia*, genus of bladderworts 334 n1, 373 n1, 486 n3, 618 n3; *Utricularia*, J.D. Hooker seeks plants for CD 340 & n6, 367 & 368 n1, 368 & 369 n3, 454, 467 & n2, 475 & n1, 481 & n2; *Utricularia*, intensive work started in September 451 n1; *Utricularia*, interest inspired by R. Holland's paper 283 & n7; *Utricularia*, looks forward to discussing with J.D. Hooker 447; *Utricularia*, microscopical observations 463 & n2; *Utricularia*, on right track after fruitless experiments xxvi, 427; *Utricularia*, order Lentibularineae 283 n8, 383 n5; *Utricularia*, J. Ralfs sends specimen morsel xxvi, 351 & 352 n1, 365 & 366 n2; *Utricularia*, requests help from D. Moore 283 n3, 334 & n1, 349 n3; *Utricularia*,

- seeks plants 299 & n1, 305, 334 & n1, 335 & n9, 340 & n6, 341 & 342 n2, 345 n3, 348 & 349 n2, n3, 383, 388 n2; *Utricularia*, supplied with plants xxvi, 351 & 352 n1, 365 & 365 n2, 365 & 366 n2, 404 & n2, 506 & n5; *Utricularia*, H.M. Wilkinson's observations 373, 403–4 n1, n3, 461 & n1; *Utricularia*, works on xxvi, 341 & 342 n2, 388 n2, 445 n5, 447, 553 n1; *Utricularia amethystina* 480 & n1, 481 & n2, 498 n2; *Utricularia minor*, CD studying 388 & n2, 465 n3; *Utricularia minor*, W.E. Darwin sends references 298 & 299 n5; *Utricularia minor*, J. Price supplies 388 n2, 390 & n2, 391–2 & nn 2–4, 449 & n3; *Utricularia montana*, asks J.D. Hooker for bladders of 447 & 448 n4; *Utricularia montana*, asks D.F. Nevill for 447 & n2, 465, 473 & n2; *Utricularia montana*, bladders 447 & 448 n4, 450 & 451 n2, 461 & 463 n2, 464; *Utricularia montana*, epiphytic or terrestrial 490 n5; *Utricularia montana*, first epiphytic bladderwort CD observed 464 n2; *Utricularia montana*, habitats 490 n5; *Utricularia montana*, D.F. Nevill supplies xxvi, 448 & n3, 449 & n2, 449 & 450 n2, 450, 461 & 462 n3, 465 n2, 473 & n2, 490 n5, 576 n2, 590 & 591 n2, 596 n1, n2; *Utricularia montana*, D. Oliver supplies 575 & 576 n2; *Utricularia montana*, Orchidoideae section 496 n4; *Utricularia montana*, tubers 465 n2, 475; *Utricularia neglecta* 465 n3, 481; *Utricularia neglecta*, CD's specimens 484 & n2, 494 & n7; *Utricularia neglecta*, learns from J.D. Hooker his chief *Utricularia* work is on *U. neglecta* 494 & n7; *Utricularia nelumbifolia* 480 & n1; *Utricularia nelumbifolia*, from Organ mountains, Brazil 481 & n2, 498 n2; *Utricularia nelumbifolia*, G. Gardner 481 & n6; *Utricularia vulgaris* 298 & 299 n5; *Utricularia vulgaris*, F. Darwin assists CD 368 & 369 n3, 390 n3, 392 & n4, 465 n3, 494 & n7; *Utricularia vulgaris*, J.D. Hooker supplies plant 368 n1, 475 & n1; *Utricularia vulgaris*, initial observations puzzling 368 & 369 n3, 383 & n3, 392; *Utricularia vulgaris*, D. Moore sends plant 350 & n1; *Utricularia vulgaris*, J. Price's observations 390, 448 & 449 n2; worms 541 & n3
- SUPPORT FOR THEORIES: F.E. Abbot 122–3, 172, 174 & 175 n2; H.H. Bancroft 399; A.V.W. Bickers 421; J.S. Burdon Sanderson 303 & n8; T.M. Coan 75; G. Cupples 145; A. Dodel 569 & n3, 624–5 & 625 n3; J. Newton 154; in Ohio, America 466; I.L. Roberti 35; J. Ross 429 & 431 n1; K.S. Sievert 52, 601; J. Struthers 165–6 & 166 n1; J.C. Symmes 61; J. Tyndall 431 & 432 n1; W. Withers 109–110; Zürich University students 569 & n3, 624 & 625 n3
- TRIPS AND VISITS: E.A. Darwin (London; 10–17 Jan) 9 n3, 12 & n2, 13 & n2, n4, 15 & n1, 16 & n1, 26 n3, 44 n1, 50 n5, 628; W.E. Darwin (Southampton; 30 Jul–24 Aug) 263 n5, 349 & 350 n5, 375 & n9, 383 & 384 n6, 384 & n2, 389 & 390 n5, 392 n3, 394 n9, 395 n1, 401 & n5, 410 & n4, 413 n6, 414 n2, 419 & n4, 420 n1, 421 & n1, 434 & 435 n5, 628; T.H. Farrer (Abinger; 25–30 Jul) 263 n5, 349 & 350 n5, 375 & n9, 383 & 384 n6, 384 & n2, 389 n1, 392 n3, 393 & 394 n3, 419 & n4, 421 & n1, 628; H.E. Litchfield (London; 21–9 Apr) 164 n9, 214 & 215 n4, 216 & n6, 222 n2, 222 n1, 227 n2, 628; H.E. Litchfield (London; 3–12 Dec) 545 & 546 n5, 552 & 553 n2, 554 & n1, 555 n4, 556 & 557 n5, 560 & n1, 574 & 575 n2, 628; London (16 Feb–21 Mar 1872) 87 n1; London (3–12 Dec) 345 n3; London (23 Jul; F. Darwin and Amy Ruck's wedding) 345 n3, 378 n3; J. Wedgwood III (Leith Hill Place) 628 & 629 n18; York (1845) 179 n4
- Darwin, Charles Robert and A.R. Wallace: 'On the tendency of species to form varieties' 158 n3
- Darwin, Elizabeth: *Descent* 2d ed., presentation copy 633; V.O. Kovalevsky presents compliments to 30 & 31 n13
- Darwin, Emma: backgammon tournament 275 & 276 n12; CD falls down stairs 16 n2; *Coral reefs* 2d ed., assists with 632; F. Darwin, wedding 385 n4; G.H. Darwin, health 170 n15, 346 n1; G.H. Darwin, writes to 528 & n3; H. Darwin writes about feed-water heaters 415–16 & 416 nn 1–4; L. Darwin writes about sea voyage xxiii, 320–29 & 329 nn 1–16, 330 nn 17–22, 546 n1, n2; *Descent* 2d ed., print quality 201; F.A. Dohrn sends greetings 191; W.D. Fox, greetings to 252; W.D. Fox sends greetings 245, 305; A. Günther, invites to Down 193; L.C. Harrison writes to 338; headache after F. Darwin's wedding 384, 385 n4; J.D. Hooker's visit 537 n2; J.B. Innes, writes to xxiii, 309 & nn 2–6, 494–5 & 495 nn 1–6, 503 n9; V.O. Kovalevsky presents compliments to 30; London rented house 1872: 87 n1; C. Lyell, greetings to 476 & n6; E. Meteyard sends compliments 332; *Origin of species* 6th ed., print quality 200; *Pinguicula* draft letter 282 n1; signature on letters to children 539 n4; D.A. Spalding sends greetings 377; B.J. Sullivan sends

- greetings 9, 66; unwell with a cold 530 & n4; unwell with headaches 558
- Darwin, Erasmus: *Botanic garden* 62 n1
- Darwin, Erasmus Alvey: CD reports is wonderful 558 & n7; CD visits (London 10–17 Jan) 9 n3, 12 & n2, 13 & n2, n4, 15 & n1, 16 & n1, 26 n3, 44 n1, 50 n5, 628; CD's legal advice idea to G.H. Darwin 388 & 389 n3; G.H. Darwin visits 60 & 61 n11; H. Parker's election to Athenaeum 159–60 & 160 nn 2–6; Royal Institution 193 & n3; séance held at his house xvii, 25 & 26 n3, 29 n4, 183 & n5; tithes payment Castle Morton 64 & n2; Zoological Station 223 & n6
- Darwin, Francis: American trip with G.H. Darwin (1871) 330 n22; J.S. Burdon Sanderson, assisted 164 n5; J.S. Burdon Sanderson sends thanks for assistance offer 166 & n5; J.S. Burdon Sanderson's illustrations 287 & 288 n2; CD asks him to start work early 463 nn 2–3; CD asks for *Pinguicula* specimen if found in Switzerland 384 & n2; CD reports on *Utricularia* work 388 & n2, n3; CD shows photograph from T.L. Brunton 526 n2; CD to show him T.H. Farrer's letter 201 & n3; *Coronilla emerus lutescens* 198 & 199 n6; W.E. Darwin delighted he is all right 298 & 299 n2; Down Lodge xxiii, 309 n5, 329 & 330 n21, 495 & n3; experiments with fibro-cartilage 419 & 420 n4; *Expression* 2d ed., edited 470 n4; M. Foster glad to see looking better 295 & 298 n5; honeymoon in Switzerland 384 n2, 411 & n1, n2; *Insectivorous plants*, assists CD 308 & 309 n4, 309 & n5, 310 n4, 320 & n7, 341 & 342 n2, 366 n2; medicine, studying 50 n3, 288 n2; observations for CD 283 n3, 410–411 & 411 n1, n2, 412 nn 3–12; 'On the primary vascular dilation in acute inflammation' 545 & 546 n6; J. Paget offers post to 411 & 412 n11; *Pinguicula*, assists CD 341; *Pinguicula*, observations from Switzerland xxiii, 384 n2, 410, 410–411 & 411 n1, n2, 412 nn 3–12; primroses and birds 213 & 214 n3; Royal Institution 193 n3; Amy Ruck, engagement to 212 n6, 253 & n10; Amy Ruck, marriage to xxiii, 73 & 74 n4, 309 n5, 329 & 330 n21, 384 n2, 385 n4, 388 n4, 495 & n3, 628 & 629 n26; Amy Ruck, wedding 345 n3; secretary to CD xxiii, 253, 309 & n5, 412 n12, 494 & n3; *Utricularia*, assists CD xxvi, 368 & 369 n1, 388 n2, 420 n4, 488 n2, 553 n1; *Utricularia vulgaris*, assists CD 368 & 369 n3, 390 n3, 392 & n4, 465 n3, 494 & n7; visits G.H. Darwin 211 & 212 n6; Zoological Station donation xxvii, 134, 189 & 191 n2
- Darwin, George Howard: American trip with F. Darwin (1871) 329 & 330 n22; Cambridge, second wrangler at 169 n14; career xxii–xxiii; CD advises on Royal Institution lecture 504–5 & nn 2–10, 516 & n3, 530 n6, 531; CD appreciates GHD's help 566; CD asks about heat 508; CD asks asylum superintendent for help for GH D's work 31–2; CD asks J. Crichton-Brown for help for GHD's work 8 & 9 n1, n2; CD asks G.E. Shuttleworth for help for GHD's work 90 & nn 2–4; CD comments on GHD's subjects 548–9 & 549 nn 3–6, 558 & n6; CD comments on *Quarterly Review* Oct 1874: 505 & n7; CD glad for heat answer 516 & n2; CD informs of book sales figures 538 & 539 nn 1–4; CD informs has told T.H. Huxley of St G.J. Mivart's response to G.H. Darwin's article 558 & n8; CD pleased at GHD's admiration of *Descent* 2d ed. 221; CD recommends A. Clark to 10 n6; CD reports E. Darwin's cold 530 & n4; CD reports on D.A. Spalding's visit xxiv, 269 & nn 2–4; CD's copying work possibly postponed 528 & nn 2–4; A. Clark treats xxii, 271 & n3, 400 & n7, 405 & n7, 501 & 502 n6; *Coral reefs* 2d ed., presentation copy 633; cousin marriages, articles on 9 n2; cousin marriages, CD asks for help for GHD's work 8–9, 90 & 91 n4, 544 n2; cousin marriages, CD concerning GHD's despondency with 214 & 215 n3, 222 & n7; cousin marriages, CD hopes to hear more about 222 & n7; cousin marriages, cites G.E. Shuttleworth 91 n4; cousin marriages, credits helpers 9 n4, 32 n3, n4, 91 n4; cousin marriages, writes to CD 60 & 61 n2, n4, n5, 211–12 & 212 n7, 216 & n2, 555 & 556 n1; cousin marriages, writes to H. Rayner 46 & n1, n2, 47 nn 3–5; cousin marriages paper 46 n2, 61 n2, 544 n2, 549 n2, 555 & 556 n1, 558 n3, n5; cousin marriages paper, CD comments on 283–4 & 284 n1, 516 & 517 n6, 548 & 549 n2, 557–8 & n2, n3; cousin marriages paper, read to Statistical Society 284 n1, 517 n6, 544 n3, 556 n1; E. Darwin, GHD writes to for CD 407; E. Darwin writes to 528 & n3; E.A. Darwin, visits 60 & 61 n11; H. Darwin, thanks for steam engine reference 514 & 515 n7; L. Darwin, sends American material to 502 & 503 n19, 514 & 516 n21; *Descent* 2d ed., admiration of xix, 215–16; *Descent* 2d ed., assists CD with xix, 50 & n2, 204 n4, 211 & 212 n1, 214 & 215 n2, n6, 215 & 216 n1, 221 & 222 n3, 221 & 222 n3, n4, 270 & 270 n2, 270 & 271 n1, n2, 284 n3, 294 & n4, 393 & 394 n10, 412 & n5, 505 & n10, 508 & n2, 511 & n2, n3, 514 & 516 n17, 515 & 516 n23, 549 & n8, 552 & n1, 632, 633; *Descent* 2d ed., CD comments on work 511 & n2, n3; *Descent* 2d ed., CD concerning work on 221 & 222 n3,

n4; *Descent* 2d ed., CD says GHD's work will be in 3 editions 552 & n1; *Descent* 2d ed., CD thanks for work on 214 & 215 n2; *Descent* 2d ed., index 50 & n2, 215, 508 & n2; *Descent* 2d ed., presentation copies 633; *Descent* 2d ed., proposed payment for work on 632; 'Development in dress' 501 & 502 n5; *Dionaea* brought from Cambridge for CD 64 & n3; direction notes sent to D.A. Spalding by CD 284, 377 & n1; directional instinct work 269 & n4; F.C. Donders, meets 346 n1, 346 & 347 n1, 363 & 364 n1, 367 n5; Down, visits 528 & n4, 531 n4; European trip 293 & n2, 294 & n4, 346 & n1, 349 & 350 n4, 367 n5; examiner, Trinity College, Cambridge 270 & n5, 284 n2; Farrers (Abinger), visits 502, 505 & n8, 514 & 515 n8, 516 nn 9–16; Ffinden affair xxii, 501 & 503 n9; M. Foster, meets 393; J.W.L. Glaisher encourages GHD to publish mathematical paper 555–6 & 556 n8; health xxii, 169 & 170 n15, 216, 253 & n10, 270 & 271 n3, 284 & n2, 294, 329 & 330 n22, 346 & n1, 393, 400 & n7, 405, 501, 502, 505 & n6, 528, 530 & n3, 556; heat question, answers CD's 511–13 & 515 n2, 513; W.S. Jevons, meets 556 & 557 n10; W.S. Jevons's *Theory of political economy*, article on 555 & 556 n4, n7; mathematics work 555–6 & 556 n8; H. Maudsley, correspondence with 216 & n5; and J.C. Maxwell 34 & 35 n4, 45 n5, 60 & 61 n13, 502 & 503 n15; medium C.E. Williams, hires xxvii, 26 n3, 29 n4; Mivart affair, CD advises on GHD's response to *Quarterly Review* xx, 395 & n1, n2, 397–8 & nn 2–6, 401 & nn 2–8, 402 n9, 412 & nn 2–4, 637–8; Mivart affair, CD sends draft letter as GHD's response xx, 397–8 & 398 n6, 400 n1, 637; Mivart affair, CD suggests seeks advice from a Counsel xx, 388–9 & nn 2–4, 637; Mivart affair, CD's draft letter to J. Murray xx–xxi, 406 & 407 n5, 412 & n4; Mivart affair, discusses response to *Quarterly Review* article xx, 392–3 & 394 nn 1–4, 398 n6, 400 & nn 1–8, 405–6 & 407 nn 2–10, 407–8 & nn 2–4, 637–8; Mivart affair, letter in *Quarterly Review* xxi, 398 n6, 400 n6, 407 n3, 412 n2, 413 n2, 414 & n1, n2, 504 n1, 558 n9, 571 n2, 638–9; Mivart affair, 'On beneficial restrictions to liberty of marriage' xix, xx, 397, 398 nn 2–4, 400 n2, n3, 401 n5, 635–6; D.F. Nevill interested in his *Contemporary Review* article 596 & 597 n3; D.F. Nevill reads *Contemporary Review* articles 590 & 591 n4; E. Norman's copying work 529 & 530 n2, 531 & n3, 555 & 556 n1, 556 n7; 'On beneficial restrictions to liberty of marriage' xix, 397, 398 nn 2–4, 400 n2, n3, 401 n5, 635–6; 'On a portable globe, and some maps of the world'

(BAAS paper) 61 n9; political economy work 530 & n6, 548 & 549 n3, 555 & 556 n5, n7; *Quarterly Review*, anonymous review critical of GHD 389 & n2, n4, 504 n1; *Quarterly Review*, defends himself against misrepresentations of views 504 n1; Lady Rayleigh invites to visit 556 & 557 n14; Royal Institution, CD advises on lecture 504–5 & nn 2–10, 516 & n3, 530 n6, 531; Royal Institution, member of 193 n3; Royal Institution, proposed lecture at 513–14 & 515 n4, 530 n6, 531 & n2; Royal Institution, W. Spottiswoode's invitation to lecture 500–501 & 502 n1, 505 n3, 531 & n2; Ruck family visits 211 & 212 n6; séance hosted by H. Wedgwood xviii, 41 & 44 n2, 45 n6; séance organised at E.A. Darwin's house xvii, 25 & 26 n3, 29 n4, 183 n5; séances, pleased with T.H. Huxley's report on 50; K.S. Sievert's *Der Communisten-Staat*, review of 51 & 52 n3, 601 & n3; H. Spencer and J.F. Moulton, comments on 169 & 170 n5; W. Spottiswoode, asks GHD to lecture at Royal Institution 500–1 & 502 n1, 505 n3, 531 & n2; W. Spottiswoode, GHD writes to about proposed lecture 513 & 515 n4, 531; R. Strachey, visits 60 & 61 n6; subjects working on 555–6 & 556 nn 1–8; 'The theory of exchange value' 549 n4; theory of exchange value work 500–1 & 502 n2, 548 & 549 n4; trip abroad curtailed due to ill health 329 & 330 n22; and J. Venn 555 & 556 n5, 556; viscous spheroids work 549 & n6, 555 & 556 n3; W.D. Whitney's 'Darwinism and language', review of 418 & n2, 511 & n4; Zoological Station donation xxvii, 134, 189 & 191 n2, *see also* Mivart affair

Darwin, Horace (Jim): British shipping statistics from T.H. Farrer 549 n5; *Coral reefs*, demand for new edition xviii, 14 n2; *Coral reefs* 2d ed., presentation copy 633; E. Darwin, writes to about feed-water heaters for CD 415–16 & 416 nn 1–4; G.H. Darwin thanks (via CD) for steam engine reference 514 & 515 n7; Easton and Anderson xxiii, 237–8 & 238 n2, 253 & n10, 416 n1; health xxiii, 169 & 170 n15, 237–8, 253, 502; W.C. Marshall, friend of 370 & 371 n7, 446 n6; mathematical tripos, Cambridge xxiii, 13 & n1

Darwin, Leonard: W. de W. Abney, ammonia compounds information 330 & n2, 331 & n2; CD informs of book sales figures 545 & 546 n4; CD relished his letter to E. Darwin and is busy with *Insectivorous plants* 545 & 546 nn 1–7; *Coral reefs* 2d ed., presentation copy 633; E. Darwin, writes to about sea voyage xxiii, 320–29 & 329 nn 1–16, 330 nn 17–22, 546 n1, n2; G.H. Darwin sends American material to 502 & 503 n19, 514

- & 516 n21; figures mislaid, asks CD for them 330–31 & 331 nn 2–4; Greenwich Observatory 331 n4; Hawaiian population 79; nickname on ship to New Zealand 324 & 329 n16; scientific expeditions 253 & n10, 309 & n6, 331 n4; transit of Venus expedition to New Zealand xxiii, 493 n1, 497 n2, 503 n19, 516 n21, 546 n1
- Darwin, Reginald 393 & 394 n12
- Darwin, Robert Waring: Castle Morton trust 64 n2; W.D. Fox's memories of 305 & 306 n6; garden at The Mount 150 & 151 n5; H. Johnson's collection of letters and papers 332 & 333 n5
- Darwin, Susan Elizabeth: W.D. Fox's memories of 305 & 306 n6
- Darwin, William Erasmus: Darwins visit 263 n5, 349 & 350 n5, 375 & n9, 383 & 384 n6, 384 & n2, 389 & 390 n5, 392 n3, 394 n9, 395 n1, 401 & n5, 410 & n4, 413 n6, 414 n2, 419 & n4, 420 n1, 421 & n1, 434 & 435 n5, 628; Maddison, Atherley, Hankinson and Darwin bank 246 & n8, 252 & 253 n9; *Pinguicula* and *Utricularia*, sends CD references on 298 & 299 nn 2–5; unwell and not visiting Darwins 463 & n4; *Utricularia*, probably supplied 365 n2; *Utricularia*, seeks 348 & 349 n2, 365 n2; Zoological Station 173, 223 & n5
- Dasydoda hirtipes* (now *D. altercator*) 80 & 82 n4
- Dasyfus novemcinctus* (was *Tatusia peba*) 88 n4
- Daucus carota* (wild carrot) 472 & 473 n6
- Dawkins, William Boyd: candidature for Oxford chair of geology 227 & 228 nn 1–3; *Cave hunting* 503 n2; CD thanks for sending book 503 & n2, n3; 'The northern range of the Basques' 503 & n3
- Dealtry, William: Pitcairn Islanders xix, 20–21, 25 & n2, 27 n3
- Decaisne, Joseph *see* Le Maout, E.
- Delpino, Federico: sent CD copy of study on *Artemisiaceae* 462 & n2
- Denby, Thomas William: land purchase from J. Lubbock 115 & n2, 120 & nn 1–3, 184 & 185 n3
- Denison, Caroline Lucy: CD asks for information on Norfolk Island 17–18; CD thanks for letter 27; lack of further Norfolk Island information 24
- Denison, William Thomas: Norfolk Island visits 23 & n3; posts as governor 20, 23 n8, 24 n4; *Varieties of vice-regal life* 17, 18 n1, 23
- Desmarest, Eugène: CD sends photograph 127; CD thanks to Entomological Society of France for membership xxix, 127 & 128 n4; Entomological Society of France elects CD honorary member xxix, 114–15 & 115 nn 1–4, 603–4 & 604 nn 1–4; requests photograph of CD 115, 604
- desmids 365 & 366 n3
- Despard, George Packenham 109 n5
- Devas, Charles Stanton 548 & 549 n2
- Devonshire, duke of (William Cavendish): CD could not write to regarding Zoological Station 222 & 223 n3; T.H. Huxley will not approach re Zoological Station 248 & n3
- Dew-Smith, Albert George: Zoological Station 129 & 133 n4, 131, 178 & 179 n2, 298 n7
- dewy pine *see* *Drosophyllum lusitanicum*
- Dibble, Sheldon, *History of the Sandwich Islands* 76 & 78 n14
- Dieffenbach: *Journal of researches* German edition 1844, translated 158 n4
- Dielytra*: bees visiting 192 & n3
- Dionaëa* (Venus fly trap): J.S. Burdon Sanderson's lecture 164 n2, 169, 288 n1, 375 n3; J.S. Burdon Sanderson's *Nature* article 287 & 288 n1, 303 & n5, 380 n2; W.M. Canby's observations 306 & n2; F.J. Cohn's work 485 & 487 n5, 617 & 619 n5; effect of water on 276; J.D. Hooker offers to send to CD 424 & n4, 426 & 427 n6, 445 n4; J.D. Hooker's BAAS address 417; insects caught 280 & 281 nn 1–4; monospecific genus (*Dionaëa muscipula*) 424 n4; D.F. Nevill cultivates 168 & 169 n16, 169 & 170 n10, 433 & n3; M.L.A. Treat's observations 280 & 281 nn 1–4, n6, 306 & n2, 510 & n1, n2
- Dionaëa* (Venus fly trap; CD's work): CD advised J.S. Burdon Sanderson on experiments 380 n2; CD finished work on 64 n3; CD interested in since 1860: 164 & n1; CD nearly finished work on 435; CD sends J.S. Burdon Sanderson MS on 164 & n1, 169, 373 & 375 n3; A. Gray urges CD to publish work 564 & n3; microscopical observations 487 n5, 494 & n4, 619 n5; D.F. Nevill possible supplier of 424, 426 & 427 n6, 433 & n3, 447 & 448 n2; specimens from Kew 447 & 448 n2
- Dionaëa muscipula* *see* *Dionaëa*
- Diptera (gnats): on *Pinguicula grandiflora* 351 & 352 n2
- dipterous flies: caught by *Dionaëa* 280
- direct equilibration 355 & 362 n5, 386 & 388 n4, 392 n3
- Disraeli, Benjamin: general election 66 n7
- Dobson, George Edward: geckos 264 & nn 2–4; 'On secondary sexual characteristics in the *Chiroptera*' 263–4 & 264 n1, 266 & 267 n1
- docks (*Rumex*): curdling milk 312 & n5
- Dodel, Arnold: CD has not received book 583 & n1, 584 n2; CD thanks for book received 591 & n1, n2; sends CD *Die neuere Schöpfungsgeschichte* 568–9 & 569 n1, 589 & n6, 624–5 & 625 n1
- dodo (*Raphus cucullatus*) 180 & 182 n6

dogs: anecdotes of dogs 313 & n5; Bran (CD's dog) 53 & 54 n2; breeding deerhounds (greyhounds), G. Cupples xviii–xix, 52–4, 63–4 & 64 n2, 99 & 105 nn 1–9, 144–5 & 149 n1, n6, 150 n15, n16, 206 & n1; breeding deerhounds, A. McNeill 54 & 55 n7, n8; breeding deerhounds, D. McNeill 53 & 54 n3; breeding deerhounds, responses to CD's queries 99–104; breeding sporting dogs 14–15, 91, 205 & 206 nn 1–3, 206 & n1; bulldogs 105, 143 & n2, 603; colouring of parts 302 & n2; greyhound birth statistics 16 & n3, 58–9; Master McGrath (greyhound) 145 & 149 n2; and movement 534 & n1; Peasant Boy (greyhound) 145 & 149 n3; proportion of sexes xix, 11 n2, 16 & n3, 58–9, 206 n3, 206 n1; rearing of greyhound puppies 10–11 & 11 n2, 15–16 & 16 n3; reasoning capabilities 313 n5, 533 & n4; Spey (deerhound) 101, 102; Torrum (deerhound) and descendants 146 & 149 n10, 150 n15; vomiting xxvii, 559 & n2

Dohrn, Carl August: F.A. Dohrn to visit 190 & 191 n4; Zoological Station 134 n2

Dohrn, Felix Anton: birthday greetings to CD 70–71; CD sends Zoological Station donation xxvii, 133–4, 173, 178 & 179 n3, 189 & 191 n1; CD thanks for birthday message 73 & n1; CD thanks for letter and responds to items 208–9 & nn 1–6; embryology work based on Arthropoda 190 & 191 n5; T.H. Huxley forwards F.A. Dohrn's letters to CD xxvii, 129–30 & 133 n3; T.H. Huxley has news of 210; news of from C. Grant 173 & 174 n5; thanks CD for Zoological Station donation xxvii, 189–91 & nn 1–17; writes to T.H. Huxley 129, 130–33 & 133 n3, nn 7–10, 605–7 & 607 nn 1–4; Zoological Station 130–33 & 133 n3, n4, n10, 173 & 174 n4, n6, 179 n2, 189–90 & 191 nn 1–3, 605–7 & 607 nn 2–4; Zoological Station mentioned in Murray's guidebooks 133 n10, 190 & 191 n14, n15, 208, 209 & n2, 607 n4, *see also* Zoological Station, Naples

Dolichoderus (synonym of *Hypoclinea*) 535 & n4, 622 & 623 n4

Dombrian, Henry Honeywood: variation in flowers query 490 n4

Donders, Frans Cornelis: CD enquires about effect of sulphate of atropine on eye muscles 346–7 & 347 nn 1–3; CD thanks for information 367 & nn 1–5; G.H. Darwin meets 346 n1, 346 & 347 n1, 363 & 364 n1, 367 n5; discusses atropine's effect on eye muscles 363–4 & 364 nn 1–6, 365 nn 7–10

Donnelly, Ignatius Loyola: CD thanks for letter 277 & 278 nn 2–4

Douglas, Janet Harriette 321 & 329 n5, 324, 326

Douglas, Thomas 321 & n5, 326, 327

Down Friendly Club 571 & 572 n2

Down House: sandwalk (CD's thinking path) xxiii–xxiv, 108 n1, 120 n1

Down House visitors: T.G. Appleton 628; F.M. Balfour 73 & n3, 628; G.H. Darwin 528 & n4, 531 n4; A. and J. Gray (in 1868) 276 n12; L.C. Harrison 530 & n5; M.J. Harrison 530 & n5; H.A. Hooker 475 & n3, 537 n2, 547 n3; J.D. Hooker xxviii, 339 & 340 n2, 341, 343 & n4, 345 & n4, 348 & n1, 451 n3, 464 & n3, 465 & n5, 467 & n2, 468 & 469 n3, 471 & n3, 475, 493 & 494 n2, 537 & n2, 546 & 547 n3, 550 & 551 n2, 628; A. Hutchinson 312 n6; T.H. Huxley 334 & 335 n6; E.E. Klein 194 n3, 628; H.E. Litchfield 172 & n6, 257 n4; R.B. Litchfield 172 & n6, 257 n4; C. Lyell 272 & n4, 628; D.A. Spalding xxiv, 269 & n2, 270 & n4, 284 n4, 377 & n4, 628; E.H. Toller 172 & n3; J. Wedgwood III's family 530 & n5

Down Lodge: F. Darwin and A. Darwin move to xxiii, 309 n5, 329 & 330 n21, 495 & n3

Down School Board: CD will resign at next election 536 & n1; CD's 1873 correspondence xxiii

Downing, John: cattle, proportion of sexes 47–8 & 49 n1

Drake, T.T. 503 n9

Drosera (sundew): A.W. Bennett's observations 254 & 256 n3, 468, 468–9 & 469 n4, 469, 471; digestive power of 126 & 127 n2, n3; W.D. Fox's children used to keep *Drosera* 305; M.L.A. Treat's observations 281 & n5, 553 n1; M. Ziegler's abstract on 134, 135–6 & 136 n2, 607–8 & n1, n2; M. Ziegler's experiments 141 & n2; M. Ziegler's work 542 & 543 n3, 623–4 & 624 n3

Drosera (sundew; CD's work): aggregation of cells in glands of 303 & n6, n7, 318 & n6, 369 & n5, 374; A.C. Brown and T.R. Fraser's article, CD wishes to read again 287 & 288 n5; T.L. Brunton assists with experiments with milk 251 & nn 1–4, 266 & n2; J.S. Burdon Sanderson assists CD with experiments 203 n4, 226 n1, 487–8 & 488 n2; CD begins writing on 136 n2, 546 n3; CD interested in since 1860: 164 & n1; digestion 374–5 & 375 n6; digestion compared to *Pinguicula* 282; effect of olive oil on 258, 259; effect of urea on 251 & n3, 444 n2, 477 n2; effect of water on 276, 374; experiments with ammonia salts 374; experiments with bone 202 & 203 n1, 269 n2, 303 & n3, 318, 488 & n2; experiments with camphor 375; experiments with carbonate of ammonia 303 & n7; experiments with cobra poison 310–311 & 311 nn 2–5, 338 & 339 nn 2–5, 344 n3, 375 & n7; experiments with dentine 239

- & 240 n4, 259 & 260 n1, n2, 301 n5; experiments with enamel, 239 & 240 n4, 259 & 260 n1, n2, 301 n5; experiments with fibrin 239, 258, 303 & n2, 488 n2; experiments with gelatine 496–7 & 497 n3; experiments with hydrochloric acid and albumen 251 & n2, 488 n2; experiments with nitrogenous organic fluid 374; experiments with oleic, benzoic and acetic acid 259 & n5; experiments with organic and inorganic objects 374; experiments with pepsin 251 & n4; experiments with phosphate of ammonia and nitrate of ammonia 259 & n3; experiments with poison 375; experiments with raw meat 169 & 170 n9, 488 n2; experiments with sewage water 202 & 203 n3, 208 & n3, 262 & n1; exposing seeds to secretions inhibits germination 288 & n3; J. Fayrer, CD asks about cobra poison's effect on vibratile cilia 310–311 & 311 n3; E. Frankland, CD hopes to visit 222 & n2; A. Gray, CD tells of observations 275 & 276 n7; A. Gray urges CD to publish work xxvii, 564 & n3; hairs colouring, H.C. Sorby 454 & 456 n8; J.D. Hooker, CD gives summary of experimental results xxv, 373–5 & 375 nn 4–8; J.D. Hooker, permission to report CD's *Drosera* work to BAAS xxv, 372 & n2, 373 & 375 n2, 380 n2; J.D. Hooker's address to BAAS, CD comments on 426 & 427 n4; number of species 576 & n3, n4; proposed experiments with globuline 178 & n4; published as *Insectivorous plants* 252 & 253 n7, 546 n3; resumes experiments 169 & 170 n10; secretion becomes acid 374 & 375 n5; series of comparative trials 275; *Sondera*, synonym of *Drosera* 489 n1; testing digestive ability of *Drosera* on different substances 301 n1, 500 n2; transmission of motor influence 375 & n8; used for most of experiments for *Insectivorous plants* xxv, 252 & 253 n7, 351 n3, 371 n6; wished to see if digestion analogous to animals 178 n3; M. Ziegler's experiments, CD tries 141
- Drosera binata* (synonym of *Drosera dichotoma*; forked-leaf sundew): CD had been using *D. dichotoma* 481 n1; T.C. Cooke's observations 306–7 & 308 n1, 307; growing conditions 448 & n2; J.D. Hooker says *D. binata* is name to use 481 & n1; D.F. Nevill supplies 433 & n4, 435 & n2, 446–7 & 447 n1, 447 & 448 n6, 449 & n1, 461 & 462 n4
- Drosera brevifolia* 281
- Drosera capensis* (Cape sundew) 462 n5; D.F. Nevill's observations 461, 473
- Drosera dichotoma* see *Drosera binata*
- Drosera filiformis* (thread-leaved sundew): M.L.A. Treat's observations 553 n1
- Drosera heterophylla* (swamp rainbow) 506 & n4
- Drosera rotundifolia* (common or round-leaved sundew): digestion of cartilage 418 & 419 n2; experiments with phosphate of ammonia 385 n1; experiments on transmission of motor impulse 508 n3; H.M. Wilkinson's observations 373, see also *Drosera*
- Drosera whittakeri* (now *D. whittakeri*; scented sundew) 380 & n9, 381, 383 & 384 n6, n7
- Drosophyllum*: CD seeks plant from D. Moore 334 & n2; genus of one species 334 n2; D. Moore sends plant 350 & n2, 365 & n1
- Drosophyllum lusitanicum* (Portuguese sundew or dewy pine): experiments with cartilage 419 n2; J.D. Hooker was to get for CD 187 & n7, 320 & n5, 579 & 580 n7, 582 & n5
- Dumas, Alexandre: facial expressions 117 & 119 n11
- Duns: review of *Origin of species* 300 n3
- Duval-Jouve, Joseph: academy at Montpellier 285 & 287 n5; publications 287 n6, 288 & n2
- earthworms 541 & n3
- Easton and Anderson: H. Darwin wishes to continue working at xxiii, 237–8 & 238 n2
- Echinocactus* 153 & n6
- Echinus* 153 & n6
- Eciton hamata* (now *Eciton hamatum*) 535 n4, 623 n4
- Edward, Thomas: 'A list of the birds of Banffshire' 151 n4, n8; and A. Newton 153, 154 & n2
- Eimer, Gustav Heinrich Theodor: CD thanks for book on *Lacerta muralis coerulea* 566, 567, 568 & n1, n2
- elasmobranch fishes 191 n6, 562 & n2
- Elgin, Lady (Constance Bruce) 183 & n6
- Eliot, George see Evans, Marian
- Elleparu (York Minster) 108 & 109 n4
- Ellis, William: *Narrative of a tour through Hawaii* 59 & n3; *Polynesian researches* 75 & 78 n4
- Engelmann, George: on gentians 472 & 473 n8
- Engelmann, Theodor Wilhelm: 'Über die Flimmerbewegung' 364 & 365 n10, 367 & n2
- Engelmann, Wilhelm: E. Haeckel's publisher 577 & 578 n6, 626 & n6
- Entomological Society of France: E. Desmarest requests photograph of CD 115, 604; elects CD as Honorary Member xxix, 114–15 & 115 nn 1–4, 127 & 128 n4, 603–4 & 604 nn 1–4, 630
- Entomological Society of London: M.E. Barber on *Papilio nireus* 427 n8, 482 & 484 n2; R. McLachlan 19 & n2, 482 & n1
- Entomologist's Monthly Magazine* 19 n2
- Entomostraca: and *Utricularia* 368 & 369 n4, 388 & n3, 389 & 390 n4, 420 & n6
- Eozoon canadense*: nature of 167 & 168 n13, 170 n6

- Epicharis* 218 & 220 n15
 epiphytic bladderwort *see Utricularia montana*
Equisetum (horsetail) 287 n6
Erica massoni (Masson's heath): CD asked for from J.D. Hooker in 1866: 342 n3
Erica tetralix (bog heather; cross-leaved heath): *Pinguicula* experiments 283 n4, 310 n3, 320 & n6, 334 & 335 n2; *Pinguicula* observations 412 n7
Eriothacus rubecula (European robin) 590 & 591 n6
 Erskine, Claudius James 514 & 515 n8
 Erskine, Edith Emma Hay 514 & 516 n9
 Erskine, Emily Georgina 514 & 515 n8
 Erskine, Maitland Katherine 514 & 516 n9
 erythrophyll 454 & 456 n8
Eucalyptus globulus (bluegum eucalyptus) 390 & n7
Euglossa 218 & 220 n14, 383 n4
 European fire-bellied toad (*Bombinator igneus*; synonym of *Bombina bombina*) 190 & 191 n13
 European robin (*Eriothacus rubecula*) 590 & 591 n6
 Evans, Godfrey M.: *Classified catalogue of the library of the Royal Geographical Society* 59 n4, 63 & n2
 Evans, John: Zoological Station appeal 248 n2
 Evans, Marian (George Eliot) 26 n3; séance xvii
 Evans-Lombe, Elizabeth 167 & 168 n3, 170 n14, 590 n5
 evening primrose (*Oenothera*) 462 & 463 n4
- facial expressions: T.L. Brunton 117, 126 & 127 n5, 138, 382 & n2, 524, 526 & nn 2–9; CD asked others about facial expression in photograph 526 n2; A. Dumas 117 & 119 n11; J.L. Gray 439 & 443 n14; E.A. Hart 526 & n8; J. Ross xxvii, 429–31 & 431 nn 1–4; L.A. Russell 117 & 119 n10; transformation of British face 40 & 41 n11, *see also* Darwin, C.R. (PUBLICATIONS, *Expression*); head gestures
- Faraday, Michael: Royal Institution's Friday evening lectures 502 n1
 Farie, Robert: Athenaeum 159 & 160 n3
 Farr, William: cousin marriages 31 & 32 n3, 90 & 91 n3, 555 & 556 n1; Statistical Society of London 548 & 549 n2, 556 n1
 Farrer, Emma Cecilia (Ida) 514 & 516 n9
 Farrer, Helen Cecilia 514 & 516 n9
 Farrer, Katherine Euphemia (Effie; *née* Wedgwood) 198 & 199 n7, 384 n2; Abinger Hall 503 n9; G.H. Darwin likes visiting Abinger 502; G.H. Darwin's visit 514 & 516 n10; marriage to T.H. Farrer 548 n3
 Farrer, Thomas Henry: Abinger Hall 503 n14, 629 n17; British shipping statistics for H. Darwin 549 n5; brother-in-law of S. Northcote 552 n3; CD asks favour about J.D. Hooker's Kew workload xxviii, 550–51 & 551 nn 2–5, 552 & n1; CD asks him to grow vine plant 573 & 574 n2; CD discusses Farrer's *Coronilla* article 343 & nn 2–5; CD suggests Farrer publishes *Coronilla* work 201 & nn 1–3; CD's plan about J.D. Hooker's Kew workload 548 & n3, 550 n4; *Coronilla* morphology 198 & n2; G.H. Darwin's visit 514 & 516 n10; Darwins visit at Abinger 263 n5, 349 & 350 n5, 375 & n9, 383 & 384 n6, 384 & n2, 389 n1, 392 n3, 393 & 394 n3, 419 & n4, 421 & n1, 628; family 198 & n7, n8; information on Norfolk Island population 25 & n2, n4, 27 n3; *Nature* article on *Coronilla* 201 n1, 343 & n2, n3, 391 n4; permanent secretary at Board of Trade 552 n1; Zoological Station 223 & n6
 Fawcett, Henry: to meet G.H. Darwin 556 & 557 n11
 Faye, Hervé-August-Étienne-Albans 45 & n3
 Fayrer, Joseph: and T.L. Brunton, article on *Crotalus*-poison 336 nn 1–4, 378 n2; and T.L. Brunton, article on venomous snakes 127 n8, 295 n2, 311 n5, 313 & 314 n4; CD makes suggestion about cobra poison experiments 343–4 & 344 n2, n3, 378 & n2; CD reports effect of cobra poison on *Drosera* 310–311 & 311 nn 2–5, 338 & 339 nn 2–5; cobra poison, effect on ciliary action 336 & n1, 339 n4, n5; cobra poison, effect on muscles 336 & n2, n3, 339 n4; hopes to meet CD in London 378 & n3; sends CD T.L. Brunton and Fayrer's article 313 & 314 n4; sends CD cobra poison 294 & n1, 295 n2, 375 & n7; suggests CD uses stronger cobra poison solution 313–14 & 314 nn 2–6; *The Thanatophidia of India* 295 n2, 345 & n3, n5, 378 & n1; thanks CD for return of book and glad for approval 378 & n1; welcomes CD's suggestion and sends CD his book 345 & nn 1–4
 Feeny, Michael: case of an epileptic idiot 543–4 & 544 n1, n3
 Fenton: *Observations on the state of aboriginal inhabitants of New Zealand* 7 n2
 Ferrier, David: experiments on muscular movement 524 & 526 n5, n6, n7
 Pfinden, George Sketchley 495 & n1; dispute with over Down schoolroom xxiii, 495 & n2; might leave Down for Deptford xxiii, 501 & 503 n9, 502
Field: couraging section 145 & 149 n9; editor, J.H. Walsh 91 n2; W.B. Tegetmeier 16 n3, 59 n1, 189 n1, n2
 fishes: Cyprinidae 110 & 111 n3, 112 & 113 n6, 121 & 122 n6; dead fish take on colour of adjacent object 424 & n8; elasmobranch fishes 191 n6, 562 & n2; embryology of sharks 190 & 191 n6, 295 & 298 n4, 562 & n2; *Mallotus* 112 & 113 n1, 121;

- Mallotus villosus* 110, 121 & 122 n5; *Monacanthus* 110 & 111 n1, 112 & 113 n2; starfish 153 & n5; W. Yarrell's *A history of British fishes* 113 n5
- Fiske, John: 'The beginnings of life' 560 & 561 n4; CD sends *Descent* 2d ed. 561 & n5; CD thanks for his book 527 & n2; met CD at H.E. Litchfield's house 527 n2; *Outlines of cosmic philosophy based on the doctrine of evolution* 527 & n2, 560–61 & 561 n2, n3
- Fissurellidae (keyhole limpets) 250 & n3
- FitzRoy, Robert: Fuegians brought to England 109 n4
- flea sedge (*Carex pulicaris*): on *Pinguicula grandiflora* 351 & 352 n7
- Fletcher, Alexander Pearson: CD supplies reference for C. Pearson 157 & n2, n3; requests reference for C. Pearson 155 & n1
- Flora*: A.F. Batalin's article 206 n2
- Florida leaf-footed bug *see* *Metapodius nasulus*
- Florida purple bladderwort (*Utricularia amethystina*) 480 & n1, 481 & n2, 498 n2
- Flourens, Marie Jean Pierre: hybrid fertility 5 n5
- Forbes, James David: viscous matter 549 & n7
- Forbes, William 147–9 & 150 n14, n16
- Ford, George Henry: CD discusses illustrations for *Descent* 2d ed. 185 & n1, n2
- Forel, Auguste: assistant physician München Oberbayerische Kreisirrenanstalt 523 & 524 n11, 621 & 622 n11; CD comments on Forel's book 498–9 & 499 n1, 500 n8, n9; CD thanks for book and recommends T. Belt's *The naturalist in Nicaragua* 480 & nn 2–5, 500 n9, 522 & 523 n3, 620 & 622 n3; *Les formis de la Suisse* 475 n2, n6, 498 & 499 n1, n2, n3, n6, 523 n9, 616 n2, n6, 622 n9; learns English 535 & n3, 622 & n3; 'Notices myrmécologiques' 523 & 524 n12, 621 & 622 n12; pleased by CD's comments and discusses ants 522–3 & 523 nn 1–9, 620–21 & 622 nn 1–9; sends CD his book on ants of Switzerland 473–4 & 475 nn 1–6, 615–16 & 616 nn 1–6; thanks CD for T. Belt's book 535 & nn 1–4, 622 & nn 1–3, 623 n4
- forked-leaf sundew *see* *Drosera binata*
- Formica exsecta* 474 & 475 n3, 615 & 616 n3
- Formica fusca* 474 & 475 n3, 615 & 616 n3
- Formica pratensis* 474 & 475 n3, 522 & 523 n6, n9, 615 & 616 n3, 621 & 622 n6, n9
- Formica rufa* 498–9 & 499 n7, 500 n8, 522 & 523 n6, 621 & 622 n6
- Formica sanguinea* 522 & 523 n9, 621 & 622 n9
- Formica trunicola* (synonym of *Formica truncorum*) 474 & 475 n3, 615 & 616 n3
- Forster, Edward Morgan Llewellyn: dinner at Farrers' 514 & 516 n16
- Forster, Samuel Strong 212 n6
- Fortnightly Review*: G.H. Darwin's defence of W.S. Jevons's book 555 & 556 n4, n7
- fossil plants 477 & 478 n3
- Foster, Michael: on aggregation of protoplasm 368, 369 & n5; CD discusses Zoological Station appeal 222–3 & 223 nn 2–7, 226–7 & 227 nn 2–5, 248 & nn 2–4, 249 & n2, 295 & 297 n2, n3, 298 nn 4–12; CD sends circular re Zoological Station appeal 195 & n6; G.H. Darwin met in Cambridge 393; physiological laboratory xxviii; printed appeal for Zoological Station xxviii, 223 & 223 n1, 248 n2, n4, 249 & n2, 295–7 & 298 nn 6–12; Zoological Station 129 & 133 n4, 173 & 174 n4, 178 & 179 n2, 193–4 & 194 nn 2–4
- Fox, Gilbert Basil 246 & 247 n10
- Fox, William Darwin: career 306 n2; CD seeks *Utricularia* and asks about *Pinguicula lusitanica* 299 & nn 1–3, 349 n2; CD thanks for butterflies, and tells of his life xvii, xxv, 252–3 & 253 nn 1–10; reminisces 245–6, 305 & 306 n6; sends CD butterflies xvii, 244–6 & 246 nn 1–9, 247 nn 10–13; unlikely to find *Utricularia* and *Pinguicula* 305 & 306 n2, n5
- François de Chaumont, Francis Stephen Bennet: candidacy for Royal Society 232; CD agrees to sign certificate for Royal Society 235 & n1; CD returns certificate for Royal Society 238 & n1; observations on his children xxvii, 232–4 & 234 nn 3–10
- Frankland, Edward: can supply sewage water 208 & n3; CD asks about putrefaction products xxvi, 428 & 429 nn 1–4; CD asks for phosphate of lime for *Drosera* experiments 202 & 203 n1; CD asks for sewage water 258–9 & 259 n2; CD asks for specific gravity of phosphate of ammonia 378–9 & 379 n1, n2, 385 n2, 428 & 429 n4, 489 n2; CD asks to visit Frankland to discuss *Drosera* 222 & n2; CD discusses primroses and birds xxiv, 231; CD seeks support for H. Parker 139 & n1; CD thanks for phosphate of ammonia information 491 & n1; CD thanks for phosphate of lime 211 & n1; CD thanks for putrefaction information 491 & n1; CD thanks for sewage water 262; CD's correspondence with on acids in digestive secretions of *Drosera* 222 n2; CD's letter to *Nature* 7 and 11 May 229 n2, 241 & 243 n5, 242, 243 n3, n8, 259 & n4; *Drosera*'s acidic secretion 374 & 375 n5; helps CD with work on insectivorous plants 429 n1; primroses and birds xxiv, 228 & 229 nn 2–4, 235–6 & 236 n2, n3, 243 n3; on putrefaction products 488 & 489 n3; sends CD phosphate of lime 207–8 & 208 n2; supplies J.S. Burdon

- Sanderson with acids at CD's request 226 n2
 Fraser, Thomas Richard *see* Brown, A.C.
Frazer's Magazine, F. Galton 167 & 169 n15
 Fremantle, Stephen Grenville: Pitcairn Islanders 20 & 22 n1
 Frere, Henry Bartle Edward: giant tortoises petition 182 & n8
 freshwater mussels (*Unio*) 267 & 268 n4
 freshwater snails *see* *Melania*
 Friedrich Vieweg und Sohn: *Journal of researches*
 German edition, Dieffenbach translated 158 n4
 Fuegia Basket (Yokcushlu) 66 n3, 108 & 109 n4
 Fuegians (Yaghans): health of 65–6 nn 1–3, 108–9 & 109 n2; *Journal of researches* 221 & n2; photograph of youths brought to England 66 n2
 fulmar petrels 142 & n3, n4
Fulmarus glacialis (northern fulmar petrel) 142 n4
Fulmarus glacialisoides see *Procellaria glacialisoides*
Fumaria capreolata: fertilisation 192 & n2, n4
Fumaria officinalis: fertilisation 192
Fumaria parviflora: fertilisation 192
- Galton, Douglas Strutt: Office of Works 124 & 125 n7
 Galton, Francis: at R. Strachey's 60 & 61 n7; Hereditary improvement 167 & 169 n15, 635; J.D. Hooker comments on hereditary improvement article 167 & 169 n15; pangenesis 593 n2; Royal Geographical Society mapping 61 n9; séance 26 & n4
 Galwey, James: greyhound Master McGrath's breeder 149 n2
 Gammie, James Alexander: sphinx moths on *Hedychium coronarium* 423 & n1, n2, 484 n4; sphinx moths on *Hedychium gardnerianum* 85–6 & 86 n1, 168 n1, 423 n1, 484 n4
Gardeners' Chronicle: CD's letter on humble-bees and beans 391 n2, 395 & 396 n2, 412 n9; A. Gray's article 256 n2, 275 & 276 n4; L. Lewis's letter 409 n1; M.T. Masters's article on CD with portrait 408 & 409 n4, 410 & n3; M.T. Masters's drawing 408 & 409 n1, 409; W. Masters's note 408 & 409 n1
 Gardner, Daniel T.: asks CD for a message celebrating A. von Humboldt 415 & n1; CD cites 573 & 574 n7; CD comments on Humboldt xvii, 422 & n2, 423 n3
 Gardner, George: *Travels in the interior of Brazil* 481 & n6
 Gärtner, Karl Friedrich von: CD notes flaws in hybrid fertility work 4 n2; F. Müller criticises conclusions on hybrid fertility 4 n2
 Gaterell, George 445 n2
 geckos 264 & nn 2–4
Genlisea (corkscrew plants), 576 & n5, 587
Genlisea africana 576 & n7
 gentians 472 & 473 n8
Geochelone gigantea 182 n2
Geochelone nigra 182 n5
 Geological Society: Burlington House 114 n1; *Coral reefs* 2d ed., presentation copy 633; C. Lyell's bequest 272 n3
 Gerstaecker, Adolph 218 & 220 n9, 219
 giant tortoises 179–82 & 182 nn 1–3, n5, 181
 Gilchrist Trust 581 & n3
 ginger lily *see* *Hedychium coronarium*
Ginkgo biloba (synonym of *Salisburia adiantifolia*) 477 & 478 n5
 Giraud-Teulon, Alexis: *Les origines de la famille* 532 & n1
 Gladstone, William Ewart: general election 40 n3, 66 n7
 Glaisher, James Whitbread Lee: encourages G.H. Darwin to submit paper to *Messenger of Mathematics* 555–6 & 556 n8
 Glaucopidae 217–18 & 220 n7
 glaucous-leaved plants: experiments with water on 169 & 170 n9
Glyptotermes canellae (was *Calotermes canellae*) 4 n3, 499 n5
 Glyptothek, Munich 520 & n3
 gnats (Diptera): on *Pinguicula grandiflora* 351 & 352 n2
 God: CD reflects on existence of 434 & n4
 Goeppert, Heinrich Robert 486 & 487 n11, 618 & 619 n11
 golden currant (*Ribes aureum*) 507 & n3
Gomphocarpus physocarpus (or *Asclepias physocarpus*; balloonplant or swan plant) 274 & n9
 Goodale, Walter T.: asks CD about development theory 69–70 nn 1–3; CD declines development discussion 111–12 & 112 n2
 Gordon, Arthur Charles Hamilton: CD and colleagues petition regarding giant tortoises 179–82 & 182 nn 1–11
 Gordon, Lewis Dunbar Brodie: pitch experiment 549 & n7
 Gordon-Lennox, Henry Charles George: cost estimate for new Herbarium at Kew 579 & 580 n8; Office of Works 124 & 125 n8, 561 & 562 n1
 Goette, Alexander Wilhelm von: work on toads and comparative morphology of vertebrates 190 & 191 n13
 Gould, Benjamin Apthorp: 'On force and will' 269 n3
 Gould, John: R.B. Sharpe's British Museum application 544 & n3

- graft hybrids: importance for study of sexual generation 573; G.J. Romanes 578; vines for 573 & 574 n7
- Graham, George: registrar-general 60 & 61 n3
- Graham, George Augustus: to G. Cupples for CD 145–7 & 149 nn 6–9, 150 n12
- Grandclément, Joseph Marie: informs CD of C.E. Blanchard's work and Grandclément's response 289 & nn 1–5, 613 & 614 nn 1–5; vaccination 236–7 & 237 nn 1–4, 612–13 & 613 nn 1–4
- Grant, Charles: *History of Mauritius* 180 & 182 n4; writes to T.H. Huxley 129 & 133 n2; Zoological Station 173 & 174 n5
- Gratiolet, Louise Pierre: determination expression 430 & 431 n4
- Gray, Asa: CD asks Gray to thank O.N. Rood 275 & 276 n11; CD asks for *Pinguicula* observations 314, 337 & n7; CD forwarded corrections to *Nature* 337 & n3; CD reports on *Pinguicula*'s omnivorous habits 314 & n1, 315 n2, n3; CD sends letter to C. Wright via 470 & n8; CD and teleology 278 & n4, 301 & 302 n3, n4; CD thanks for *Nature* profile of him xxix, 275 & 276 n3, 278 & n2, n4, 337 & n9; CD thanks for *Sarracenia* 337; *Drosera* and *Dionaea* work, encourages CD to publish xxvii, 564 & n3; duration of varieties, sends CD article 564 & n6; in Europe 590 n5; *Gardeners' Chronicle* articles on insectivorous plants xxvi, 256 n2, 275 & 276 n4; hoax articles prompted by Gray's insectivorous plants articles xxvii, 254 & 256 n5, 275 & 276 n9, 290 & 291 n2; C. Hodge's article, review of 290 & 291 n3, 337 & n6; J.D. Hooker, writes to 12 & n1, 123 & 124 n1, 129 & n6; T. Meehan's address to American Association for the Advancement of Science 471 & 472 n3; *Nation*, articles on insectivorous plants xxvi, 254 & 256 n2, n3, 275 & 276 n4, 290 & 291 n2; *Nature*, profile of CD xxix, 256 n2, 275 & 276 n3, 278 & n2, n4, 290 & 291 n1, 301 & 302 nn 1–3, 337 & n9; *Pinguicula* or *Utricularia*, unable to help with 564 & n1; O.N. Rood, sends CD note from xxvii, 254 & 256 n1, n8, 275 & 276 n2; Royal Society 12 & n4; M.L.A. Treat's work on *Utricularia* 564 & n2; and C. Wright 435 & 443 n1
- Gray, Jan Loring: backgammon 290 & 291 n6; CD sends regards to 275 & 276 n11; in Europe 590 n5; observations on expressions during Nile trip 439 & 443 n14; sends regards to Darwins 290, 564 & n4; writes to J.D. Hooker's sister 590 n5, 591 & 592 n2
- Gray, John Edward: health 167 & 168 n10; resignation from British Museum 544 & n2; R. Swinhoe's candidacy for Royal Society 71 & n1, 121 & 122 n3
- Green, William Charles: Athenaeum 160 & n6
- green-banded swallowtail (*Papilio nireus*) 424 & n8, 426 & 427 n8, 482 & 484 n2, 483
- green-finches (*Carduelis chloris*) 213–14 & 214 n3
- Gregg, John Robert, vicar of Deptford 503 n9
- Gregorie, George Wayne: Pitcairn Islanders 20 & 22 n3
- Grönland, Johannes: on *Drosera* 471 & n4
- Grove, James Grove Wood: J. Downing sends CD Grove's letter 47 & 49 n2; writes to J. Downing on proportion of sexes in cattle 48–9 & 49 n2
- Grove, William Robert: dead fish take on colour of adjacent object 424 & n8
- Günther, Albert: CD asks about *Monacanthus* and *Mallotus* 110 & 111 n1, n2; CD hears of G.H. Ford's health from 185 & n4; CD may hear of J.V. Carus from 188 & n3; discusses *Monacanthus* and *Mallotus* 112–13 & 113 n1, n3; invited to Down 193, 194 & n3; keeper, British Museum zoological department 544 & n2; publications 79 n2; R. Swinhoe's candidacy for Royal Society 71 & n1, 78–9 & 79 n1, 121 & n2; thanks CD for copy of *Journal of researches* 231–2 & 232 n1, n2; tortoises 79 & n2, 181, 232 n2
- Haast, Julius von 328 & 330 n19
- Hacon, William Mackmurdo: CD seeks advice regarding settlement on A. Ruck 209–210 & nn 1–7; land purchase for CD 184 & 185 n2
- Haeckel, Ernst Philipp August: *Amphioxus* 563 n6; *Anthropogenie*, comments on xxx, 517 & 518 n4, 577 & 578 n5, 619–20 & 620 n4, 626 & n5; CD comments on reception in England of *Anthropogenie* 588–9 & 589 n2; CD thanks for books received and admires his work xxix–xxx, 466–7 & 467 nn 1–5; CD's health xvii, 517, 619; *Coral reefs*, thanks CD for 517 & 518 n6, 620 & n6; *Coral reefs* 2d ed., presentation copy 633; Darwinism in Germany 517–18, 577 & 578 n3, n4, 620, 625 & 626 n3, n4; *Descent* 2d ed., presentation copy 633; *Descent* 2d ed., thanks CD for 577 & 578 n2, 625 & 626 n2; germ layer and Gastraea theory 577 & 578 n10, 626 & n10; T.H. Huxley's review of *Anthropogenie* xxii, 644–5; travels 517 & 518 n5, 577, 619 & 620 n5, 626
- Hagen, Hermann August: presented F. Müller's termites work to Boston Natural History Society 3 n2
- Haines, A. comments on *Descent* 466 & nn 1–3
- Halloran, Henry: New South Wales under-secretary 509 & 510 n4
- Hamilton, William: theory of sense perception 436

- & 443 n3
 Hancock, Albany 267 & n2
 Harper, Ellen Shephard 329 n6
 Harper, Gerald Samuel 329 n5
 Harris, George: CD thanked for *Theory of the arts* 69 n1; CD thanks for *Philosophical treatise* 71 & 72 n1, n2, 86 & n2; sends proof-sheets of *Philosophical treatise* for comment 68–9 & 69 nn 1–5, 72 n2, 86 & n2
 Harrison, Lucy Caroline: observations for CD 283 n3, 339 & nn 1–3; *Pinguicula* observations 420 & 421 n2; *Pinguicula* observations sent to E. Darwin 338 & n2; visits Down 530 & n5
 Harrison, Matthew James: marriage to Lucy Caroline Wedgwood 253 n6; visits Down 530 & n5
 Hart, Ernest Abraham: facial expressions 526 & n8
 Harte, Bret: 'The Heathen Chinese' 329 n16
 Hartnack, Edmund: immersion lens 121 & nn1–3, 604 & n1, n2, 605 n3
 Hartogh Heijns van Zouteveen, Hermanus: CD compliments on translation of *Expression* 93 & n1, n3; *Descent* Dutch ed. translated 93 n3, 119–20 & 120 nn1–3; *Expression* translated 93 & n1, 350 n3; suggests translating his Dutch notes in *Descent* Dutch ed. 119–20 & 120 nn 1–3
 Harvey, William Henry: and O.W. Sonder, *Flora Capensis* 576 & n4; *The genera of South African plants* 507 & n4
 Haughton, Samuel: and F.E. Nipher 566 & n8
Hawaiian Gazette: 1872 census returns 19 n3
 Hawaiian Islands population: CD received information on 25 n3; CD seeks information on 16–17 & 17 n2, n3; T.M. Coan sends information on xix, 19 n1, 74–7 & 78 nn 1–17, 80 n2, 304 & nn 1–3, 305 nn 4–6; L. Darwin 79; T.N. Staley sends information on xix, 72–3 & 73 n2, n5, n6, 96–8 & 98 nn 2–5, n9; unknown correspondent sends information on 18–19
Hawaiian Spectator: articles on Hawaiian population 76 & 78 n10, n11
 Hayden, Ferdinand Vandever, *Sixth annual report of the United States geological survey of the Territories* 234 n1, 261 & 262 n2
 Hayman, Henry: Rugby School 160 n6
 head gestures: CD replies to C. Wright 469–70 & 470 n4, n6; J.R. Lowell 442 & 443 n23; E.A. Sophocles 437 & 443 n9, 438, 439, 440; C. Wright xxvii, 435–43 & 443 nn 1–23, *see also* facial expressions
 Heath, Christopher: *Injuries and diseases of the jaws* 83 & 85 n5
 Heathcote, Maria Sophia: CD hears of C. Lyell's health from 434 & n3
Hedychium: CD thanks J.D. Hooker for information 484 & n4
Hedychium coronarium (butterfly-lily or ginger lily): frequented by sphinx moths 423 & n1, n2, 484 n4
Hedychium gardnerianum (Kahili ginger): CD thanks J.D. Hooker for information 169; frequented by sphinx moths 85–6 & 86 n1, 167 & 168 n1, 169 & 170 n3, 484 n4
 Heer, Oswald: organic change 272 & n2
 Heidenhain, Rudolf: on digestion 116 & 119 n5
 Heliotype Company Limited: illustrations for *Expression* 346 n3, 349 n2
 Hellwald, Friedrich Anton Heller: *Culturgeschichte in ihrer natürlichen Entwicklung* 577 & 578 n9, 589 & n5, 626 & n9
 Helps, Arthur: Privy Council 561 & 562 n1
Hemidactylus maculatus (spotted leaf-toed gecko) 264 & n3
 Hemming, Francis Richard: greyhound Peasant Boy's owner 149 n3
 Henry, Joseph 265 n2
 Henslow, John Stevens: death of 555 n3; W.D. Fox reminisces 246 & 247 n13; influence on CD 247 n13
herbae annuae paludosae (annual marsh herbs) 576 & n7
 Herbert, Robert George Wyndham: Colonial Office 25 & n2
 Herschel, John Frederick William: *Admiralty manual of scientific enquiry*, CD's geology chapter 459 n7, 460 n6
 Hewett, George John Routledge 514 & 516 n12
 Hickman, George W: to G. Cupples for CD 104
 hidden-fruited bladderwort *see Utricularia clandestina*
Hieracium 272 & n3

hooded pitcher-plant *see* *Sarracenia variolaris*

Hooker, Brian Harvey Hodgson: ill 167 & 168 n6

Hooker, Frances Harriet: death of 537 & n3, 547 n3, 550 & 551 n2, 554 & 555 n1, n2, 562 n2, 564 n5, 573 & 574 n8, 590 n4, 591 n3, 592 n5, 594 n2, 628; funeral 537 & n1, n4; intended Paris trip 167 & 168 n4; to remind J.D. Hooker of CD's request 26 & n5; translated E. Le Maout and J. Decaisne, *A general system of botany* 489 n1; visits Cheltenham 491 & 492 n9; visits Down 475 & n4, 628

Hooker, Grace Ellen: ill 167 & 168 n5; recovered from illness 417 & 418 n11, 419 & n6

Hooker, Harriet Anne: assists J.D. Hooker 481 & n4, 484 & n3, 490 n6, 494 n2; CD sends love to 548 & n5; and companion Miss Boycott 546 & 547 n2; getting on well 561 & 562 n3; intended Paris trip 167 & 168 n4; possible observations for CD 380 & n10; visits Down 475 & n3, 537 n2, 547 n3, 628

Hooker, Joseph Dalton: *Aldrovanda vesiculosa*, sends CD 481 & n3, 490 n6; and A.S. Ayerton 125 n7, 292 n7; BAAS, address to Belfast meeting xxv, 372 & n2, 375 n2, 379 & 380 n2, n3, 416 & 417 n1, 417 & 418 nn 7–9, 420 & n5, 424 n7, 426 & 427 n2, 427 n9, 486 & 487 n12, 510 n2, 618 & 619 n12; BAAS, returned from meeting xxx, 423–4 & 424 nn 1–10; F.M. Balfour visits 368 & n6; M.E. Barber's work on *Papilo nireus*, sends CD 484 n2; and G. Bentham, *Genera plantarum* 576 & n4; bereavement 546, 554–5 & 555 nn 1–4, 561 & 562 n2, 564 & n5, 594 & n2; bull-horn acacias 367 & 368 n2, 368 & 369 n1; CD appreciates help with *Dionaea* 447 & 448 n2; CD appreciates J.D. Hooker's interest in his work 383; CD asks about *Utricularia amethystia* 480 & n1; CD asks for bladders of *Utricularia montana* 447 & 448 n4; CD asks for specimens of *Byblis*, *Roridula* and *Sonchera* 489 & n1, n2; CD asks W.T. Thiselton-Dyer to pass on requests to 186 & 187 nn 1–3, 319 & 320 n4, 320; CD comments on séance xvii, 25 & 26 n3, n4; CD congratulates on address to BAAS 426 & 427 n2; CD discusses T.H. Huxley's Edinburgh decision 547–8 & nn 2–5, 551 & 552 n4; CD discusses their insectivorous plants work xxvi, 418 & 419 nn 1–3; CD gives permission for J.D. Hooker to use CD's material as he likes 383; CD has sent J.D. Hooker's workload document to T.H. Farrer xxviii, 551 & n2; CD invites to Down 194; CD on Linnean Society changes 128; CD reports work on *Utricularia montana* 464 & nn 2–4, 465 n5; CD returns A. Gray's letter 12 & n1; CD seeks copy of *Coral reefs* xviii, 12 & n3, 13 n4,

25 & n2, 29 & n7, 171–2 & 172 n2, 172; CD seeks others to observe *Pinguicula* (via W.T. Thiselton-Dyer) 282 & 283 n3; CD seeks support for H. Parker 25–6; CD sends T.H. Farrer's note about J.D. Hooker's Kew workload 552 & n1; CD sends yucca moths 194 & n2; CD thanks for *Aldrovanda vesiculosa* 482 & nn 2–4, 484 & n3; CD trying to grow *Aldrovanda* 484 & n3, 489 & 490 n6; CD waiting for J.D. Hooker's document about workload at Kew 548 & n3; CD welcomes him to Down following F.H. Hooker's death xxviii, 537 & nn 1–4; CD will introduce G.J. Romanes to Kew 573; CD wishes to introduce G.J. Romanes to Kew 578 & nn 1–3; CD's election to American Academy of Arts and Sciences 123, 129 & n6; CD's experiments on plants discussed 187 n2, n4; CD's notes on *Pinguicula* read 340 & n5; F.J. Cohn cited 486 & 487 n12, 618 & 619 n12; *Dionaea*, will send to CD 424 & n4; Down, visits xxviii, 339 & 340 n2, 341, 343 & n4, 345 & n4, 348 & n1, 451 n3, 464 & n3, 465 & n5, 467 & n2, 468 & 469 n3, 471 & n3, 475, 493 & 494 n2, 537 & n2, 546 & 547 n3, 550 & 551 n2, 628; *Drosera binata*, advises CD is right name 481 & n1; *Drosera* work, asks CD's permission to report to BAAS 372 & n2, 380 n2; *Drosera* work, CD gives permission to report to BAAS xxv, 373 & 375 n2; *Drosera* work summary, thanks CD for 379 & 380 n1; *Drosophyllum lusitanicum*, was to get for CD 187 & n7, 320 & n5, 579 & 580 n7, 582 & n5; experiments proposed on actinic effects of sunlight on leaves 187 & n9; family 167 & 168 nn 3–6, 170 n14; T.H. Farrer's kindness concerning Kew workload 561 & 562 n1; giant tortoises petition 182 & n7; *Hedychium gardnerianum* 86 n1, 167 & 168 n1; B.H. Hodgson, visits 491 & 492 n1; T.H. Huxley to give Edinburgh lectures 549–50 & 550 n1; T.H. Huxley writes to about Edinburgh lectures 546–7 & 547 nn 1–7; T.H. Huxley's letter about Edinburgh lectures, sends CD, 546 & 547 nn 1–7; Kew workload xxviii, 548 & n3, 550 n4, 550–51 & 551 nn 2–5, 552 & n1, 561 & 562 n1, 579 & 580 n8; E. Le Maout and J. Decaisne, *A general system of botany*, edited 489 n1; Linnean Society 28 n2, 124 & 125 n4, n5, 129 n2; J. Lubbock's proof of *On British wild flowers considered in relation to insects* 491 & 492 n8; *Lychnis viscaria* 368 & n3; *Marsilea* 368 & n3; G. Maw, to visit 491 & 492 n9; Mivart affair, CD asks if he should write to St G.J. Mivart xxi, 570–71 & 571 nn 1–3, 640; Mivart affair, CD does not expect to hear from St G.J. Mivart 591–2 & 592 nn 2–4; Mivart affair, CD informs he has written to St

G.J. Mivart (12 Jan 1875) 645; Mivart affair, CD sends J.D. Hooker T.H. Huxley's letter and copy of letter to St G.J. Mivart xxi, 586 & n2, n3; Mivart affair, CD thanks and discusses response 581–2 & nn 1–6; Mivart affair, discussing response with CD and T.H. Huxley xxi, xxii, 589–90 & 590 n2, n3, 594 n3, 595 & 596 nn 1–5, 644; Mivart affair, T.H. Huxley writes to J.D. Hooker about encounter with St G.J. Mivart xxi, 579–80 & 580 n1, n2, nn 10–13, 640–41; Mivart affair, informs J. Tyndall of Mivart affair 594 & n3, 644; Mivart affair, sends CD T.H. Huxley's letter reporting encounter with St G.J. Mivart xxi, 579 & 580 nn 1–5; Mount Lebanon visit 424 & n9; F. von Mueller, advised 293 n8; *Nature*, address to BAAS 380 n3, 510 & n2; *Nepenthes* experiments *see Nepenthes*; *Nepenthes rafflesiana*; D.F. Nevill, plant exchange with 424 n5; Office of Works 124 & 125 n6, n7, n8; D. Oliver to send CD *Byblis* and *Roridula* 490 n7, 491 & 492 n2; physiological laboratory (Jodrell Laboratory) at Kew 581 & n2; *Pinguicula grandiflora* described 348 & 349 n4; plants from Germany, helps CD obtain 456 n3; plants sent to CD November 1973: 335 n8; J. Ralfs as possible observer of *Pinguicula* 316 & 317 n5; reading 167 & 168 nn 11–15; and G.J. Romanes 581 & n1; Royal Society, president 29 n3, n9, 168 n2, 182 n7; Royal Society, presidential address 491 & 492 n7; *Sarracenia*, CD discusses 341 & 342 n5; *Sarracenia*, experiments 380, 417; *Sarracenia*, offers to experiment on 340 & n4; *Sondera* 491 & 492 n3; H.C. Sorby, sends CD letter from 454 & 456 nn 1–8; W.T. Thiselton-Dyer's help 417 & 418 n10; *Utricularia* for CD 340 & n6, 367 & 368 n1, 368 & 369 n3, 454, 467 & n2, 475 & n1, 481 & n2; *Utricularia neglecta* 494 & n7; work duties 167 & 168 n2, *see also* Mivart affair

Hooker, Maria 481 n8

Hooker, Maria Elizabeth (Minnie): death of 555 n3

Hooker, Reginald Hawthorn: ill 167 & 168 n5; school 579 & 580 n6

Hooker, William Jackson and J. Sowerby: *Supplement to the English Botany* 339 & n3

hop (*Humulus lupulus*): monoecious 404 & 405 n2, n4, 408 & 409 n1, 409

Hopedene House 514 & 516 n14, 515

Hopkin & Williams 489 n2; phosphate of ammonia 378 & 379 n2, 488 & 489 n2

Hopkins, Manley: *Hawaii* 75 & 78 n7

Hopkins, Mark: *An outline study of man* 69 & 70 n1, n2, 112 n2

Hopkins, William: viscous matter 549 & n7

hoppers (family Auchenorrhyncha; formerly Homoptera) 369 & 371 n3

horses: North American 261 & 262 n6

horsetail (*Equisetum*) 287 n6

Horst, Emma To de: teaches A. Forel English 535 n3, 622 n3

Houk, Eliza Phillips Thruston: sends CD unpublished paper 5–6 & 6 n1

Howitt, A.W.: on Australian ethnography 429 n4; CD thanks for offer of information from Australia 429 & nn 2–4

Howorth, Henry Hoyle: British face, transformation of 40 & 41 n11; *Descent* 2d ed., presentation copy 633; native populations 39–40 & 40 n3, n4, 41 n7; pigeons of Madeira 40 & 41 n10; sends New Zealand report on aboriginal inhabitants 6–7 & 7 n2, 40 n3

Huber, Jean Pierre: on ants 474 & 475 n5, 480 & n3, 616 & n5

humble-bees: *Gardeners' Chronicle*, CD's letter on humble-bees and beans 391 n2, 395 & 396 n2, 412 n9; pole beans 390–91 & 391 n1, n3, 412 n9; *Ribes aureum* 507 & n2, n3, 532 & n3; *Salvia* 411 & 412 n9

Humboldt, Alexander von: CD comments on for celebration xvii, 422 & n2, 423 n3; New York Liberal Club celebrating 105th birthday of 415

Humulus lupulus (hop): monoecious 404 & 405 n2, n4, 408 & 409 n1, 409

Hunt, William Holman: *The shadow of death* 117 & 119 n8

Hutchinson, Alice: visited Darwins 312 n6

Huxley, Henrietta Anne 207 & n3; CD hopes to meet T.H. Huxley 557 & nn 1–3

Huxley, Marian (Mady) 393 & 394 n7

Huxley, Thomas Henry: Aberdeen University 129, 130 & 133 n1, n5; Académie royal des sciences, des lettres et des beaux-arts de Belgique 584 & 585 n4; America, lecture tour 178 & 179 n4; *Amphioxius lanceolatus* paper 562, 562 & n1, 563 n4, 579 & 580 n9, 587 & n6; BAAS lecture xxx, 424 & n6; F.M. Balfour, T.H. Huxley speaks highly of 502 & 503 n17; breakdown 29 n10, 168 n8; CD comments on séances xviii, 49–50 & 50 n5; CD comments to J.D. Hooker about T.H. Huxley's Edinburgh lectures decision 547–8 & 548 n2; CD contributes to subscription for T.H. Huxley 268 n3; CD hopes to meet 557 & nn 1–3; and CD met, 6 Dec 557 n3, 558 & n8, 562 & n3, 628; classification of animal kingdom, paper to Linnean Society 550 n3, 589 & n8; critics of his work 207 & n2; *Critiques and addresses* 29 & n9; death falsely reported 130 & 133 n6, 267 & n1;

- Descent* 2d ed., brains note in xix, 173 & n3, 178 & 179 n1, 207 & n1, 210 & n1, 211 n2, 315 & nn 1–3; *Descent* 2d ed., presentation copy 633; F.A. Dohrn, news of 210; F.A. Dohrn writes to 129, 130–33 & 133 n3, nn 7–10, 605–7 & 607 nn 1–4; F.A. Dohrn's letters, sends CD xxvii, 129–30 & 133 n3; Down, visited 334 & 335 n6; Edinburgh University zoology lectures 550 n2, 551 & 552 n4; family 207 & n3; E. Haeckel's *Anthropogenie*, review of xxii, 644–5; health 167 & 168 n8, 546 & 547 n1, 548 n2; holidays 393 & 394 n8; J.D. Hooker, writes to about Edinburgh lectures 546–7 & 547 nn 1–7, 548 n2; lectures to working men 207 & n4; London School Board 547 & 548 n2; Mivart affair, CD informs of Mivart affair 558, 571 n1, 580 n1, 640; Mivart affair, CD sends J.D. Hooker T.H. Huxley's letter and copy of letter to St G.J. Mivart xxii, 586 & n2, n3; Mivart affair, CD thanks for his efforts xxi, 582–3 & nn 2–6, 586–7 & 587 nn 2–5; Mivart affair, discussing response with CD and J.D. Hooker xxi, xxii, 592 n3, 594 n3, 644; Mivart affair, St G.J. Mivart writes to T.H. Huxley xxi, xxii, 582 n3, n4, 584, 585 n2, 641–2, 642–4; Mivart affair, writes to J.D. Hooker about encounter with St G.J. Mivart xxi, 579–80 & 580 n1, n2, nn 10–13, 640–41; Mivart affair, writes to St G.J. Mivart and sends copy to CD xxi–xxii, 584–5 & 585 nn 1–5, 586 & n2, 586 & 587 n2, 592 n4, 642; and R. Owen 315 & n2; phylogeny 550 n3, 589 n8; Royal Society, secretary 29 n10, 122 n1, 129 n7; séance, reports on xviii, 41–4 & 44 n2, 42, 50, 60 & 61 n10; C.G. Semper's work, comments on 562 & n2; and J.H. Stirling's dispute 431 n1; subscription raised by friends 268 n3; vertebrate skull 562, 562 & 563 n4, 589 & n7; H. Wedgwood, spirit photographs from 178 & 179 n5; Zoological Station, fund raising 134 n2, 173 & 174 n6, 193 & 194 n2, 248 & n3, 297 n2, *see also* Mivart affair
- hybrid fertility 4 & n2, 5 n5
- Hyla* (tree frogs) 266 & 267 n2
- Hypericum montanum* (pale St John's wort) 454 & 456 n7

- Lowell, James Russell: head gestures 442 & 443 n23
- Lowry-Corry, Somerset Richard *see* Belmore, Lord
- Lubbock, Ellen Frances: E. Colville friend of 60 & 61 n8; ill health 495 & n4, 593 & n1; returns Zoological Appeal circular to CD 196 & n3; C.G. Semper sends greetings to 39 & n7, 600 & 601 n7; train derailment 1865: 495 n4
- Lubbock, John: BAAS, lecture on flowers and insects xxx, 419 n5, 424 & n6; CD comments on *Nature* articles 478–9 & 479 n2, n3; CD sends circular re Zoological Station appeal 195 & n6, 196 & n2, n3, 208 & 209 n3; CD sends MS on *Viola tricolor* and advises on plants for protusion of pollen-tubes 462 & n1, n2, 463 nn 3–4; CD suggests land purchase 107 & 108 nn 1–3; CD thanks for land purchase agreement 184 & 185 n2, n3; cited CD 463 n3; cited F. Delpino 462 n2; E. Colville friend of 60 & 61 n8; 'Common wild flowers considered in relation to insects' (*Nature*) 478 & 479 n2, n4; Down Friendly Club 571 & 572 n2; High Elms 557 & n2; land purchase xxiv, 115 & nn 1–3, 184 & nn 1–3; E.F. Lubbock's ill health 593; St G.J. Mivart's anonymous review of works by J. Lubbock and E.B. Tylor 399 n2, 403 n3, 504 n1, 558 n9, 570 & 571 n1, 580 n1, 583 n2, 596 n5, 636; *Monograph of the Collembola and Thysanura* 245–6 & 246 n7; 'Observations on the habits of ants, bees, and wasps' 571 & 572 n3; *On British wild flowers, considered in relation to insects* 419 n5, 463 n2, 491 & 492 n8; C.G. Semper sends greetings to 39 & n7, 600 & 601 n7; train derailment 1865: 495 n4
- Lubbock, John William: CD rented land from 108 n1
- Lucae, Johann Christian Gustav: critical of T.H. Huxley's work 207 & n2, 210 & 211 n3
- Lurgan, Lord (Charles Brownlow): greyhound Master McGrath's owner 149 n2
- Lychnis viscaria* (synonym of *Silene viscaria*; sticky catchfly or clanny campion) 340 & n5; CD seeks plant from J.D. Hooker 341 & 342 n4, 368 & n3
- Lyell, Charles: Athenaeum 29 & n5; BAAS, congratulates CD on theory of evolution at Belfast meeting xxx, 431–2 & 432 nn 1–3;

- bequest to Geological Society xxviii, 272 & n3; CD admires J.W. Judd's paper on volcanoes in the Hebrides 476 & nn 1–8; CD enjoyed Lyell's visit to Down 272 & n4, 628; CD met Lyell, Dec 4: 628; CD sends circular re Zoological Station appeal 195 & n6, 208 & 209 n3; CD thanks for letter and reflects on existence of God 434 & nn 2–4, 435 nn 5–7; CD will visit in London 16; *Coral reefs*, supplied CD with copy xviii, 25 & 26 n2; *Coral reefs* 2d ed., presentation copy 632; *Descent* 2d ed., presentation copy 633; F.A. Dohrn, sent a paper of to G.J.P. Scrope 272 & 273 n5; *Elements of geology* 6th ed. 201 & n3; glaciers in Forfarshire 432 & n9; health 167 & 168 n9; Hebrides 477–8 & 478 nn 1–7; and J.D. Hooker discuss T. Belt's book 29 & n6; J.W. Judd's work 477 & 478 n1, n2, 478; and R.I. Murchison, 'On the tertiary freshwater formations of Aix' 30 & 31 n7; *Principles of geology* 478 n2; *Student's elements of geology* 203 & n2, 478 n2; *Student's elements of geology* 2d ed. 534 & n2; Zoological Station 223 & n4, 223 & n1, 227 & n5, 272 & n2
- Lyell, Marianne: Darwins send greetings to via C. Lyell 476 & n7
- McGilvray, Maria 590 n5
- Mackinnon, Lauchlan: *Argus* 291 & 292 n4
- McLachlan, Robert: Entomological Society of London 19 & n2, 482 & n1; Royal Society 19 & n1
- McLennan, John Ferguson: CD informs of A. Giraud-Teulon's book 531 & n1, n2; *Descent* 2d ed., presentation copy 633; development of marriage systems 55–7 & 57 n2; *Primitive marriage* xxviii, 57 n2, 240 & n3, 247 & n2, 249–50 & 250 n2, n3, 257 & nn 1–3, 532 n2; thanks CD for *Anthropologia* 247 & n1
- McNeill, Archibald: breeding deerhounds 54 & 55 n7, n8
- McNeill, Duncan (Lord Colonsay): breeding deerhounds 53 & 54 n3
- McQuillen, John Hugh 83 & 85 n4
- Macroactylus subspinosus* 280
- Malibran, Maria Felicia 372 & n4
- Mallet, Robert: on volcanoes 476 & n8
- Mallotus* 112 & 113 n1, 121
- Mallotus villosus* 110, 121 & 122 n5
- Malm, August Wilhelm 516 & 517 n5
- Malo, David: 'On the decrease of population on the Hawaiian Islands' 76 & 78 n10
- Manchester Literary and Philosophical Society: H.H. Howarth 40 & 41 n6
- Marcgravia* 343 & n5
- marriage systems: development 55
- Marsh, George Perkins: beavers 313 & n4
- Marsh, Othniel Charles: North American horses 261 & 262 n6
- marsh titmouse (*Parus palustris*; now *Poecile palustris*) 143 n6, 151 n7
- Marshall, Henry Cowper 369 & 371 n2
- Marshall, Theodosia Louise: observations for CD 283 n3; *Pinguicula* observations 369–70 & 371 nn 1–9
- Marshall, William Cecil: CD asks about insects on *Pinguicula* 279 & 280 n1; CD thanks for specimens 428 & n2; CD's interest in *Pinguicula* started due to Marshall's observations 428 n2; H. Darwin, friend of 371 n7, 446 n2; observations for CD 283 n3; sends *Pinguicula* observations and specimens 427–8 & 428 n2, n3, 445–6 & 446 nn 2–5
- Marshall, William Elliot 149 n4
- Martin, James H.: prepares for meeting on Darwinism and theology 27–8 & 28 nn 1–3
- Martin, John McLellan 101 & 105 n6
- Martins, Charles Frédéric: almond-peach stones for CD 284 & 286 n1; Montpellier lectures with H. Sicard 284–5 & 287 n2
- marvel of Peru (*Mirabilis jalapa*) 462 & 463 n4
- Mascarene Islands: giant tortoises 179 & n1, 180
- Masson's heath *see Erica massoni*
- Massy, W.H.: to G. Cupples for CD 100
- Master McGrath (greyhound) 145 & 149 n2
- Masters, Maxwell Tylden: asks CD if he objects to Masters' proposed article with portrait for *Gardeners' Chronicle* 408 & 409 n4; CD glad hop of interest and agrees to *Gardeners' Chronicle* portrait 409–410 & 410 nn 2–4; drawing for W. Master's note in *Gardeners' Chronicle* 408 & 409 n1, 409; on monoecious hop sent by CD (from L. Lewis) 408 & 409 nn 1–4
- Masters, William: hops note in *Gardeners' Chronicle* 408 & 409 n1
- maternal imagination: effect on unborn offspring 532–3 & 533 nn 1–4
- Maudsley, Henry: cousin marriages 8 & 9 n9, 32 & n4; G.H. Darwin corresponded with 216 & n5
- Mauritius: giant tortoises 179–82 & 182 n1, n3
- Maw, George: J.D. Hooker to visit 491 & 492 n9
- Max Müller, Friedrich: *Contemporary Review* article 396 & n2; 'Lectures on Mr. Darwin's philosophy of language' 403 n1, n2
- Maxwell, James Clerk: Cavendish professor of experimental physics, Cambridge 503 n15; G.H. Darwin not seen him 502 & 503 n15; G.H. Darwin reports lectures start 60 & 61 n13; on governors in steam engines 515 n7; informs G.H.

- Darwin of G. Hirn's work 34 & 35 n4, 45 n5; *On the stability of the motion of Saturn's rings* 31 n12
- Mayer, Alfred Marshall: on *Culex* mosquito 555 & 556 n2, 556
- Medicago* 465 & n5
- Medical Record*: T.L. Brunton 126 & 127 n4
- Meehan, Thomas: American Association for the Advancement of Science, address to 471–2 & 472 nn 2–4, 490 & n2; CD comments on Meehan's work 490 & nn 1–5; colour in relation to sex 472 & n5; Scrophulariaceae and Bignoniaceae 274 & n10
- Megaloceros giganteus* (synonym of *Cervus megaceros*) 37, 37 & 38 n9
- Meinert, Frederik Vilhelm August: work on ants 522 & 523 n4, 620 & 622 n4
- Meissner, Georg: on digestion 116 & 119 n6
- Melania* (synonym of *Thiara*; freshwater snails) 30 & 31 n3, 267 & 268 n4
- Melbourne Botanic Garden 291–2 & n5
- Melipona* 2–3, 218 & 220 n12
- Mellersh, Arthur 9 & n3
- Mellichamp, Joseph Hinson: *Sarracenia variolaris* 254 & 256 n4, 290 & 291 n5, 342 n5
- Merope* (ship to New Zealand) xxiii, 329 n1, n3, n8, 493 & n1, 497 & n2
- Merriam, Clinton Hart: CD asks for copy of F.V. Hayden 1873: 234 & n1; CD thanks for report 274 & 275 n1; sends US Geological Survey report 261–2 & 262 nn 1–6
- Merrin, Joseph: *Butterflying with the poets* 245 & 246 n3, 252 & 253 n2
- Mertensia maritima* see *Pulmonaria maritima*
- Metapodius nasulus* (synonym of *Acanthocephala femorata*; Florida leaf-footed bug) 280 & 281 n3
- Meteyard, Eliza: asks CD to sign memorial (petition for Civil List pension) again 216 & 217 nn 1–4; *The life of Josiah Wedgwood* 217 n4, 332 & 333 n2; pension 332 & 333 n1; *The Wedgwood pottery* 216 & 217 n4; on work-related matters 332–3 & 333 nn 1–10
- Meteyard, William Horatio 332 & 333 n8
- Metzler, Eduard, on digestion 116 & 119 n5
- Micrococcus* 385 & n1
- Mill, John Stuart: *System of logic* 212 & n8
- Milne-Edwards, Henri 219 & 220 n18
- Mimosa albida*: J.D. Hooker sent specimen to CD 335 & n8; specimen growing well 447 & 448 n5
- Mirabilis jalapa* (marvel of Peru) 462 & 463 n4
- mistle-thrush (*Turdus viscivorus*) 142 n5, 150 & 151 n4, n5, 153–4 & 155 n3, 156
- Mitchell, Arthur: 'Blood-relationship in marriage considered in its influence upon the offspring' 60 & 61 n1
- Mitchell, Hugh: on Old Red Sandstone 432 & n5
- Mitchell, Silas Weir: snake venom, effects on nervous system 336 & n5
- Mitford, Algernon Bertram: Office of Works 125 n7
- Mivart, St George Jackson: anonymous rejoinder in *Quarterly Review* to G.H. Darwin's letter 505 & n7, 558 n9, 585 n5, 586 & n3, 592 & n6, 639–40; anonymous review of *Descent* xxi, 402 n9, 407 n9, 413 n5, 504 n2; anonymous review in *Quarterly Review* xix–xx, 389 & n2, n4, 394 n1, 396 & 397 n3, 398 n2, n4, n5, 399 n2, 400 n2, n3, 401 n4, 403 & n3, 407 n3, 413 & n4, 504 n1, 516 n19, 558 n9, 570 & 571 n1, 580 n1, 583 n2, 596 n5, 636–7; CD believes St G.J. Mivart is anonymous reviewer 504 & n1, n2; CD knows St G.J. Mivart is anonymous reviewer 401, 638; CD's correspondence with xxi, xxii, 645; T.H. Huxley writes to xxi–xxii, 584–5 & 585 nn 1–3, 586 & n2, 586 & 587 n2, 592 n4, 642; Linnean Society, secretary xxii, 580 n11, 595 & 596 n3, 644; natural selection 402 n9, 504 n2, 583 n3; previous anonymous criticism of CD's work xx; W.W. Roberts xxi, 579 & 580 n2, 580 & n13, 582 & n3; writes to T.H. Huxley xxi, xxii, 582 n3, n4, 584, 585 n2, 641–2, 642–4, see also Mivart affair
- Mivart affair xx–xxii, 635–45; CD advises on G.H. Darwin's letter to *Quarterly Review* xx, 395 & n1, n2, 397–8 & nn 2–6, 401 & nn 2–8, 402 n9, 412 & nn 2–4, 637–8; CD asks J.D. Hooker if he should write to St G.J. Mivart xxi, 570–71 & 571 nn 1–3, 640; CD asks J.T. Knowles to republish W.D. Whitney's article 396 & n1, n2, 397 n3; CD believes anonymous reviewer is St G.J. Mivart 504 & n1, n2; CD comments on *Quarterly Review* Oct 1874 to J. Murray 504 & n1, n2, 640; CD informs J.D. Hooker he has written to St G.J. Mivart (12 Jan 1875) 645; CD knows St G.J. Mivart is anonymous reviewer 401, 638; CD suggests G.H. Darwin seeks advice from a Counsel re *Quarterly Review* article xx, 388–9 & nn 2–4, 637; CD tells T.H. Huxley of 558 & n8, 571 n1, 580 n1, 640; CD thanks J.D. Hooker for efforts and discusses proposed letter to St G.J. Mivart 581–2 & 582 nn 1–6; CD thanks T.H. Huxley for efforts xxi, 582–3 & 583 nn 2–6, 586–7 & 587 nn 2–5; CD writes to St G.J. Mivart (12 Jan 1875) 645; CD writes to J. Murray with G.H. Darwin's letter xxi, 413 & nn 1–5, 638; G.H. Darwin discusses response to *Quarterly Review* article xx, 392–3 & 394 nn 1–4, 398 n6, 400 & nn 1–8, 405–6 & 407 nn 2–10, 407–8 &

- nn 2–4, 637–8; G.H. Darwin, On beneficial restrictions to liberty of marriage xix, xx, 397, 398 nn 2–4, 400 n2, n3, 401 n5, 635–6; G.H. Darwin's letter in *Quarterly Review* xxi, 398 n6, 400 n6, 407 n3, 412 n2, 413 n2, 414 & n1, n2, 504 n1, 558 n9, 571 n2, 638–9; G.H. Darwin's review of W.D. Whitney's 'Darwinism and language' 511 & n4; J.D. Hooker sends CD T.H. Huxley's letter reporting encounter with St G.J. Mivart xxi, 579 & 580 nn 1–5; J.D. Hooker writes to CD discussing T.H. Huxley's letters 589–90 & 590 n2, n3; T.H. Huxley writes to J.D. Hooker about encounter with St G.J. Mivart xxi, 579–80 & 580 n1, n2, nn 10–13, 640–41; T.H. Huxley writes to St G.J. Mivart and sends copy to CD xxi–xxii, 584–5 & nn 1–5, 586 & n2, 586 & 587 n2, 592 n4, 642; J.T. Knowles cannot republish Whitney's article 399 & n1, n2, 402 & n1, n2; St G.J. Mivart, anonymous rejoinder in *Quarterly Review* to G.H. Darwin's letter 505 & n7, 558 n9, 585 n5, 586 & n3, 592 & n6, 639–40; St G.J. Mivart, anonymous review in *Quarterly Review* xix–xx, 389 & n2, n4, 394 n1, 396 & 397 n3, 398 n2, n4, n5, 399 n2, 400 n2, n3, 401 n4, 403 & n3, 407 n3, 413 & n4, 504 n1, 516 n19, 558 n9, 570 & 571 n1, 580 n1, 583 n2, 596 n5, 636–7; St G.J. Mivart, writes to T.H. Huxley xxi, xxii, 582 n3, n4, 584, 585 n2, 641–2, 642–4; overview xx–xxii, 635–45; overview (notes) 398 n2, 399 n2, 407 n3, 558 n9, 571 n1, 580 n1, 583 n2, 585 n1, 594 n3; W.W. Roberts xxi, 579 & 580 n2, 580 & n13, 582 & n3; J. Tyndall informed of Mivart affair 594 & n3, 644
- Moberly, Charles Henry: Easton and Anderson 415, 416 & n1
- Moggridge, John Traherne: CD admires his drawings 288 & 289 n4; CD discusses seed experiments 141; CD mentions his work showing seeds affected by weak acids 288 & n3; CD pleased to hear of J. Duval-Jouve 288 & n2; fertilisation of *Fumaria capreolata* 192 & n2; ill health and death 141 n4; seed experiments, effect of formic acid 134–5 & 136 n3, n4, n6, 288 n3; sends CD almond-peach stones 284 & 286 n1; sends CD M. Ziegler's abstract on *Drosera* 134 & 136 n2, n9; *Supplement to Harvesting ants and trap-door spiders* 136 n6, 286 & 287 n11; trapdoor spiders 285–6 & 287 nn 7–10, 286
- molluscs 30 & 31 n3, n4, 250 n3, 267 & 268 n4
- Monacanthus* 110 & 111 n1, 112 & 113 n2
- Monro, Cecil James: birds and flowers 229 & n1, n2, 241 & 243 n4
- Montagu, George: *Ornithological dictionary* 142 & 143 n6
- Monteagle, Lord *see* Rice, Thomas
- Monthly Notices of the Royal Astronomical Society*: J.C. Maxwell abstracted in 45 n 4
- Moore, David: CD requests help with *Utricularia* 283 n3, 334 & n1, 349 n3, 365 & n2; CD seeks *Drosophyllum* 334 & n2; CD thanks for plants 365 & n2, n3; *Pinguicula grandiflora* 350 & 351 n4; *Sarracenia* exhibit at BAAS 424 & n7; sends CD *Drosophyllum* 350 & n2, 365 & n1; sends CD *Utricularia vulgaris* 350 & n1; W.T. Thiselton-Dyer suggested to CD for *Pinguicula* observations 283 n3, 334 & n1
- Moore, Samuel William: globulin for CD 258 & n3; supplied pepsin to CD 266 & n4
- morality 174 & 175 n3
- Morgan, John Edward: article on St Kilda 6 & 7 n4, 40 & 41 n8
- Morgan, Lewis Henry: *The American beaver* 313 n3; 'Australian kinship' 240 & n2
- Morse, Thomas: to G. Cupples for CD 101–2
- Morselli, Enrico: CD thanks for paper on malar bone anomaly 202 & n1, n2
- moths: *Fumaria capreolata* 192; Glaucopidae 217–18; pheromone distribution organs 220 n8; silver Y moth caterpillar 351 & 352 n6; yucca moths 194 & n2, *see also* sphinx moths
- Motley, John Lothrop: *Rise of the Dutch republic*, print quality 203 & 204 n3, 221 & 222 n5
- Moulinié, Jean Jacques: *Descent* translated xxix, 24 n2, n4, 58 & n1, n2, 599 n2, n4; *Expression*, ceases translating 24 n3; *Origin of species* translated 24 n2, 37 n2, 599 n2; *Variation* translated 24 n2, 599 n2
- Moulton, John Fletcher: review of H. Spencer's books 167 & 168 n14, 170 n5
- mouth: expression of determination 430–31 & 431 nn 2–4
- Mozart festival 372 & n3
- Mueller, Ferdinand von: Melbourne Botanic Garden 291–2 & n5, n6, 293 n8; *Ribes magellanicum* 291 & 292 n1, n3
- Müller, Fritz: *Abutilon* experiments 4 n2; CD sends F. Müller's letter to *Nature* 74 & n1, n2; CD sends T. Belt's *Nicaragua* and suggests experiment 4, 169 & 170 n8, 396 n3, 500 n9; *Cecropia* 368 & 369 n2; drawing by 81; *Facts and arguments for Darwin (Für Darwin)* 527 & 528 n2, 575 n5; M.J.P. Flourens contrasted with CD on hybrid fertility 5 n5; Gärtner's conclusions on fertility of hybrids 4 n2; habits of various insects 217–19 & 220 nn 1–20; home 220 n4; *Nature* publishes letter 82 n2; publications sent to CD 4 n1; received T. Belt's

- Nicaragua* 217 & 220 n3; stingless honey-bees 2–3 & 3 n8, 70, 218–19 & 220 n10, n12, n20; termites 1–2 & 3 n2, n7, 4 n1, n3, 499 n5
- Müller, Hermann: 'Anwendung der Darwin'schen Lehre auf Bienen' 80 & 82 n3, 538 & n2, n3, 540 & 451 n2; CD sent money for translation of *Für Darwin* 74 & n5; *Descent* 2d ed., presentation copy 633; 'Fertilisation of flowers by insects' 70 & n4; F. Müller's comments on his work 80 & 82 n3; presents F. Müller's work 220 n20; stingless honey-bees 3 & 3 n8, 220 n20; *Trigona liliput* 220 n17
- Müller, Johannes Peter: E.B. Baxter comments on ability to control muscles 347 & n1, 348 n2
- Müller, Wilhelm: *Ueber das Urogenitalsystem des Amphioxus und der Cyclostomen* 190 & 191 n12
- Murchison, Roderick Impey and C. Lyell: 'On the tertiary fresh-water formations of Aix' 30 & 31 n7
- Murray, John: CD comments on *Expression* 530 & 531 n4; CD discusses *Descent* 2d ed. with 221 & 222 n4; CD discusses *Insectivorous plants* title 571 & n1; CD discusses print quality of *Descent* 2d ed. 203 & n1, n2, 204 nn 3–5, 221 & 222 n4; CD finishes work on *Descent* 2d ed. 185–6 & 186 nn 1–6; CD recommends J.F. McLennan's book merits reprinting xxviii, 249–50 & 250 n2, 257 n2; CD thanks for granting of request 530 & 531 nn 2–4; CD's publisher from *Origin of species* onwards xx, 394 n3, 407 n5; R.F. Cooke's election to Athenaeum 63 n2; *Descent* 2d ed. price 537 n1; *Descent* 2d ed. published 1874: 263 & n2, 290 n1, 529 & n1, n2; *Expression* 528 & n5; *Expression*, illustrations 346 n3; *Insectivorous plants* published 1875: 529 & n3; Italian guidebooks 190 & 191 n14, n15, 208, 209 & n2; *Journal of researches* 2d ed., stereotype technique 521 & n3; C. Lyell, *The student's elements of geology* 2d ed. 534 & n2; J.F. McLennan, *Primitive marriage* 240 & n3, 247 n2, 249–50 & 250 nn 1–3; Mivart affair, CD believes anonymous reviewer is St G.J. Mivart 504 & n1, n2; Mivart affair, CD can't approach J. Murray with G.H. Darwin's draft response 397 & n2; Mivart affair, CD comments on *Quarterly Review* Oct 1874: 504 & n1, n2, 640; Mivart affair, CD considers action regarding *Quarterly Review* article 389 & n4; Mivart affair, CD's draft letter to xx–xxi, 406 & 407 n10, 407–8; Mivart affair, CD's letter to with G.H. Darwin's letter xxi, 413 & nn 1–5, 638; Mivart affair, G.H. Darwin thinks would publish his response 393 & 394 n3; Mivart affair, *Quarterly Review* to publish G.H. Darwin's letter 414 & n1, n2, 638; *Orchid* and *Origin of species* 6th ed., sends CD payment for 394–5 & nn 2–5; *Origin of species* 6th ed. 394 & 395 n3, 534 & n2; printers *see* Clowes & Sons; *Quarterly Review* publisher 389, 394 n3, 401 n8, 407 n5, 408 n3, 412 n1, 413 n1, 582 n4; sale dinner, November 456 n3, 534 & 535 n4, 537 & n2, 538 & 539 nn 1–4, 541 n4, 545 & 546 n4; M. Somerville's book, asks CD for suggestion of someone to revise 395 & n5; stock levels of CD's books 527–8 & nn 1–5; *Variation* 2d ed. published 1875: 85 n1, 230 & n2, *see also* Cooke, R.F.
- Murray, John, Jr: answers CD's enquiry about his books 456 & nn 1–3
- Museum of Practical Geology: T.H. Huxley lectures at 207 & n4
- Musters, George Chaworth: *At home with the Patagonians* 502 & 503 n16
- Myers, Frederick William Henry: séance xviii, 41 & 44 n2
- Natal, Africa: native peoples 574–5 & 575 n3
- Nation*: A. Gray's articles 254 & 256 n2, n4, 275 & 276 n4
- native peoples: Australia, *Journal of researches* 75, 78 n2; California, T. Coulter 40 & 41 n7; H.H. Howorth 6–7 & 7 n2, 39–40 & 40 n3, n4, 41 n7; India 149 n4; Natal, Africa 574–5 & 575 n3; New Zealand 6–7 & 7 n2, 25 n3, 40 n3
- natural selection: C.E. Blanchard 289 n4, 614 n4; G.H. Lewes 333 n10; J.S. Mill 212 & n8; St G.J. Mivart 402 n9, 504 n2, 583 n3; O. Pickard-Cambridge 89, 95 n2; G.J. Romanes 353, 354, 356, 358, 359, 360, 361, 387 & 388 n1; H. Spencer 362 n5, 388 n1, 392 n3; J. Struthers 166 n1; J. Tyndall 402 n1, 415 n2; A. Wigand 144, 569 & n4, 608, 625 & n4
- natural selection (CD): first public announcement of theory 158 n3; intended longer exposition of theory 155 n6, 253 n8; rudimentary organs 362 n3; structures of no obvious utility 144 n3, 609 n3; views natural objects under light of 160
- Nature*: J.S. Burdon Sanderson, *Dionaea* article xxv, 287 & 288 n1, 303 & n5, 380 n2; CD recommends publishing F. Müller's letter 70 n2, n3, 74 & n2; T.H. Farrer, paper on fertilisation in *Coronilla* 201 n1, 343 & n2, n3, 391 n4; A. Gray's profile of CD xxix, 256 n2, 275 & 276 n3, 278 & n2, n4, 290 & 291 n1, 301 & 302 nn 1–3, 337 & n9; A. Gray's profile of CD, corrections to 302 n3; J.D. Hooker's address to BAAS, Belfast meeting 380 n3, 510 & n2; T.H. Huxley, on classification of animal kingdom (summary) 589 & n8; J.N. Lockyer, editor 256 n3, 291 n1; J. Lubbock,

- 'Common wild flowers considered in relation to insects' 478 & 479 n2; J.H. Mellichamp, *Sarracenia variolaris* 342 n5; J.T. Moggridge, fertilisation of *Fumaria capreolata* 192 & n2; H. Muller, 'Fertilisation of flowers by insects' 70 & n4; F. Muller's letter published 82 n2; P.H. Pye-Smith, review of E. Haeckel's *Anthropogenie* 577 & 578 n7, 626 & n7; G.J. Romanes's letters 353 & 362 n1, n2, 355 & 362 n6, n7, 357–8 & 363 n13
- Nature* (CD's letters): complemental males in Cirripedes 191 n7; fertilisation of Fumariaceae 192 & nn 1–3; primroses and birds xxiv, 213–14 & 214 nn 1–3, 228 & 229 n2, 230 n4, 239 n2, 240–43 & 243 nn 1–9, 256 & n3
- negroes: and relationship to Caffre people 574–5 & 575 n3
- Nemesia caementaria* 285 & 287 n8
- Nemesia eleanora* 285
- Nemesia elongata* (synonym of *Cyrtanthenus elongatus*) 287 n9
- Nemesia meridionalis* 285
- Nepenthes* (J.D. Hooker's work): BAAS address xxv, 375 n2, 379 & 380 n3, n4, 417, 420 & n5, 424 n7; CD believes work merits publication 383 & 384 n8; CD comments on digestion 341–2; CD comments on possibility of different species acting differently 383 & n5; CD's suggestions for experiments 342 & 343 n2, 344–5 & n1, n2, 366 & n2, n3, 368 & n4, 372 n1, 380 n6, 417 n4, 420 n5; experiments 169 & 170 n12, 339 & 340 n3, 342 & 343 n1, n2, 342 n7, 348 & n2; experiments, assisting CD on insectivorous plants 424 n7; experiments, with cartilage 416 & 417 n2, 419 n1; experiments, on digestive powers of *Nepenthes* 462 n6; experiments, effect on seeds of pitcher fluid 380 & n6, 417 & n2, n4; experiments, with fibrin and seeds 372 & n1, 416–17 & 417 n2, n4; experiments, intentions for results 379, 383 & 384 n8; experiments, report to BAAS xxv, 375 n2, 379 & 380 n3, n4; genus of tropical pitcher-plants with numerous species 383 n5
- Nepenthes* (W.T. Thiselton-Dyer's work) 169 & 170 n12, 277 & n3, 334 & 335 n5, 339 & 340 n3, 342 & 342 n7, 342 & 343 n1
- Nepenthes rafflesiana* (Raffles' pitcher-plant): J.D. Hooker's experiments 380 & n7; D.F. Nevill 461 & 462 n6
- Nephila rivulata* (now *Nephilengys malabarensis*) 89 n4
- Nerium oleander* 274 & n7
- nettles: curdling milk 312
- Nevill, Dorothy Fanny: cats 449–50 & 450 n3; CD receives *Drosera dichotoma* and inquires about epiphytic *Utricularia* 446–7 & n1, n2, 447 & 448 n6; CD reports on *Utricularia* work 596 & n1, n2; CD requests *Utricularia montana* 447 & n2, 465, 473 & n2; CD returns *Drosera dichotoma* 449 & n1; CD uses name *Drosera dichotoma* for *D. binata* 481 n1; CD would like to see *Drosera dichotoma* 435 & n2, n3; delighted to help CD with studies xxvi, 473 & n2, n3; *Dionaea*, J.D. Hooker suggests CD approach for 424, 426 & 427 n6, 433 & n3, 447 & 448 n2; *Drosera binata*, supplies 446–7 & n1, n2, 447 & 448 n6, 481 n1; *Drosera capensis* 461 & 462 n5; *Drosera dichotoma*, growing conditions 448 & n2; *Drosera dichotoma* and *Sarracenia*, offers CD 433 & n4; garden xxvi, 168 & 169 n16, 424 n5; orchids for CD's work 433 & n2; photograph sent by CD xxvi, 450 & n4, 450 & 451 n5, 461 & 462 n2; *Utricularia*, enquires about CD's work on 590 & 591 n2; *Utricularia montana*, bladders 450 & 451 n2, 461 & 462 n3, 465 & n2; *Utricularia montana*, supplies xxvi, 448 & n3, 449 & n2, 449 & 450 n2, 450, 461 & 463 n3, 465 n2, 473 & n2, 490 n5, 576 n2, 590 & 591 n2, 596 n1, n2
- Nevill, Reginald Henry 433 & n5
- New York Liberal Club: celebrates A. von Humboldt 415 & n1
- New Zealand: immigrants 329 n3; native population 6–7 & 7 n2, 25 n3
- Newton, Alfred: CD discusses birds 150 & n3, 151 n5, n6, 155–6 & 156 nn 1–6; CD seeks support for H. Parker 139–40 & 140 n1, 142 n2; discusses birds 142 & n4, n5, 143 n6, 153–4 & 155 n3, n5, n8, 159 & nn 2–4; giant tortoises petition 182 & n11; H. Parker's candidacy for Athenaeum 141 & 142 n2; R.B. Sharpe's British Museum application 544 & n3; R. Swinhoe's candidacy for Royal Society 67 & n1; Zoological Society, vice-president 182 n11; Zoological Station appeal 298 n8
- Newton, Isaac: law of cooling 512 & 515 n2
- Nicholson, Edward: CD thanks for *Indian snakes* 421 & nn 1–3
- Nicol, Patrick: CD intends to write to 8 & 9 n4
- Nipher, Francis E.: on effect of maternal imagination on unborn offspring 532–3 & 533 nn 1–4, 564–6 & 566 nn 1–8
- Nipher, Roxalana Powell Tilden 533 & n3, 565 & 566 n4
- Nitschke, Theodore: *Drosera* 375 & n8
- Nobbs, George Hunn 20 & 23 n5, 21–2
- Noiré, Ludwig: CD thanks for sending book 540 & n2; *Die Welt als Entwicklung des Geistes* 540 n2
- Norfolk Islanders 18 n2, 23 & n3; CD seeks information on 17
- Norman, Ebenezer: CD instructs to finish G.H.

- Darwin's work 529 & 530 n2; CD's copyist 556 n1; copyist on *Descent* 2d ed. 186 & n3; copyist on *Insectivorous plants* 528 n2; G.H. Darwin asks to send political economy manuscript to CD 531 & n3; G.H. Darwin's cousin marriages paper 555 & 556 n1; G.H. Darwin's political economy manuscript 556 n7
- Norman, George Warde 150 & 151 n6
- Northcote, Stafford: CD's plan about J.D. Hooker's Kew workload 548 & n3, 550 & 551 n5, 551 & n2, 552 n1, 562 n1; J.D. Hooker visits 167 & 168 n8
- Octopus rugosus* (now *O. vulgaris*) 112–13 & 113 n7
- Oenothera* (evening primrose) 462 & 463 n4
- Office of Works 124 & 125 n6, n7, n8
- Oliver, Daniel: *Aldroanda vesiculosa* var. *australis* fragment, sends CD 506 & 507 n3; *Byblis*, *Roridula* and *Utricularia*, sends CD 496 & nn 1–4; CD asks for epiphytic or marsh species of *Utricularia* 489 & n3; CD returns plants and comments on ranges of species 506 & nn 2–6; CD thanks for *Utricularia* species sent 497–8 & 498 n2; *Genlisea* 576 & n6, n7, 587; *Genlisea* and *Polypompholyx*, sends CD 587 & n2; J.D. Hooker instructs to send CD *Byblis* and *Roridula* 490 n7, 491 & 492 n2; insectivorous plants 274 & n6; plants, CD sends 12 & n5; range of species 507 & n4, n5, 575–6 & 576 n3, n4; Royal Botanical Gardens, keeper of herbarium 489 n3; *Utricularia*, paper on 481 n5, 482 & n4; *Utricularia*, supplied 506 & n5, 575 & 576 n2; *Utricularia amethystina* and *Utricularia nelumbifolia* sent to CD 480 & n1, 498 n2; *Utricularia jamesoniana* 475 & n2, 575 & 576 n2
- Opuntia*: W.T. Thiselton Dyer experiments on 273, 273 & 274 n2, n3
- Opuntia monacantha* 273 & 274 n3
- Opuntia polyacantha* 273 & 274 n3
- Orchideae 274 & n5
- Orchis mascula* (early purple orchid) 201 & n2
- organs: reduction in size of 362, 371, 388 n1
- orioles: and *Ribes aureum* 507 & n2, n3
- Oryx* (common quail) 261
- Orundellico (Jemmy Button) 108 & 109 n4
- Ossian 54 & 55 n10
- Ostrea columba* (synonym of *Rhynchostreon suborbiculatum*) 30 & 31 n2
- Owen, Richard: British Museum, superintendent of natural history department 182 n9; CD's view of 129 & n7; giant tortoises petition 182 & n9; and T.H. Huxley 315 & n2; Linnean Society changes 128 & 129 n1; national herbarium 125 n2; R. Swinhoe's candidacy for Royal Society 121 & 122 n3
- Owen, William Fitzwilliam: commanded British voyage to Africa 458 & 459 n6
- oysterleaf *see Pulmonaria maritima*
- Pacific Ocean: United States Exploring Expedition 376 & 376 n4, 377 nn 4–7
- Page, Frederic James Montague: assistant to J.S. Burdon Sanderson 300 & 301 n2, 318 & n4
- Paget, James: post offered to F. Darwin 411 & 412 n11
- Palau (Pelew) islands 38 & 39 n5, 600 & n5
- pale butterwort *see Pinguicula lusitanica*
- pale St John's wort (*Hypericum montanum*) 454 & 456 n7
- Pall Mall Gazette* 393 & 394 n5; report on Kalmouk 271 & n6
- Palmer, Henry Spencer: head of British expedition to observe transit of Venus 320 & 329 n2, 322, 327
- Palmerston, Lord (Henry John Temple) 21, 23 n10
- Panagaeus crux-major* 246 & 247 n12
- pangenes: CD asks E. Haeckel for his comments 467 & n4; F. Galton's experiments 593 n2; G.J. Romanes interested in testing 573, 574 n7, 578; *Variation* 467 n4
- papaw fruit juice 266 n5, 344 & n5, 444 n4
- Papilio nireus* (green-banded swallowtail) 424 & n8, 426 & 427 n8, 482 & 484 n2, 483
- parasitic goose barnacle (*Anelasma squalicola*) 209 n5
- Parker, Alfred Traill: Athenaeum 160 n5
- Parker, Henry: Athenaeum candidacy and election xxviii, 26, 29 n5, 137 & n1, 138 & n1, n2, 139–40 & 140 n1, 139 & n1, 141 & 142 n2, 156 & 157 n1, 159–60 & 160 n1, n2, 195 & 196 n3, 313 n2
- Parkes, Edmund Alexander: Royal Society 232 & 234 n1
- Parkes, Henry: G. Krefft appeals to 509 & 510 n1; New South Wales, colonial secretary 510 n4
- Parnassus grass (*Parnassia palustris*) 411 & 412 n4
- Parslow, Joseph: instructions from G.H. Darwin 50 & n1
- Parus ater* *see* coal titmouse
- Parus palustris* *see* marsh titmouse
- passenger pigeons 142 n3
- Patella* (true limpet) 250 & n3
- Patti, Adelina 372 & n5
- Pavo cristatus* 85 n1, 93 n4
- Pavo muticus* 93 n4
- Pavo nigripennis* 85 n1
- Payne, George: T.H. Farrer's gardener 574 n5
- Peacock, Thomas Beville 151 & 152 n3
- peafowl 85 & n1, 92 & 93 nn2–5, 106–7 & 107 n4, 230 & nn 1–4

- Pearson, Charles: applies to Northern Assurance Company 155 & n1, 157 & n2, n3
- Pearson, George: engraver for *Descent* 2d ed. 185 & n3
- Peasant Boy (greyhound) 145 & 149 n3
- Pennypacker, Samuel Whitaker: control of his nostrils xxvii, 452–3 & 453 n1
- Perfil'eva, Praskov'ja Fedorovna: on bulldogs 105–6 & 106 nn 1–5, 602–3 & nn 1–5; CD sends photograph 143
- Periparus ater* see coal titmouse
- Pezophaps solitaria* (solitaire) 180 & 182 n6
- Phaseolus multiflorus* see pole beans
- Phelsuma andamanense* (Andaman Islands day gecko) 264 & n4
- Phillips, John: CD declines invitation to visit Oxford 179 & n2; *Cetiosaurus oxoniensis* 156–7 & 157 n2, 179 & n2; death of 227 & 228 n1, 267 & n2; Oxford University Museum of Natural History 228 n3; H. Parker's candidacy for Athenaeum 156 & 157 n1; Yorkshire Museum 179 n4
- Phillips-Jodrell, Thomas Jodrell: Jodrell Laboratory, Kew 581 n2
- Philosophical Transactions of the Royal Society*: two parts 451 n3
- photographs: G.S. Anderson sends photograph of representation of bear-like animal 265 & n1; F.M. Balfour sends photograph of Zoological Station xxvii, 190 & 191 n17, 209 & n4; T.L. Brunton sends photograph of J. de Ribera's picture 477 & n3, 520 & n2, 520–21 & 521 n1, n2; CD sends photograph to D.F. Nevill xxvi, 450 & n4, 450 & 451 n5, 461 & 462 n2; CD sends photograph to P.F. Perfil'eva 143; CD thanks T. Meehan for photograph 490 & n1; CD thanks J. Steenstrup for photograph 264 & n1, 265 n2; E.M. Courtenay sends photographs of an epileptic idiot 543 & 544 n1; Entomological Society of France, photograph of CD 115, 127, 604; Fuegian youths 66 n2; T. Meehan sent photograph of E.D. Cope 471 & 472 n1; C.H. Merriam seeks a signed photograph from CD 262; P.F. Perfil'eva requests CD's carte de visite 105, 603; O.G. Rejlander's photographs for *Expression* 65 n1; K.S. Sievert sends photograph of himself and his wife 52 & n6, 601 & 602 n6; spirit photographs to T.H. Huxley from H. Wedgwood 178 & 179 n5; H. Stecki sends photograph of portrait of hen with human face 615 & n7; Zoological Station 130
- phylogeny: T.H. Huxley's view 550 n3, 589 n8
- physiological botany xxv
- Pickard-Cambridge, Octavius: birds 159 & n4; CD discusses sexual selection 94–5 & 95 n1, n2; doubt concerning sexual selection 89; 'The numerical proportion of sexes among spiders' 88
- pictures of CD: Simms, *Nature's revelations of character* 454 n2, 455; woodcut portrait in *Gardeners' Chronicle* 408 & 409 n4, 410 & n3
- Piderit, Theodor: determination expression 430 & 431 n4; *Mimik und Physiognomik* 117 & 119 n12
- Pieris brassicae* 482 & 484 n3
- pigeons: Madeira 40 & 41 n10; passenger pigeons 142 n3
- pigs: absence of cleft 466 & n2
- Pinguicula* (butterwort): T. Aitken's observations 311–12 & 312 nn 2–5; genus of carnivorous plants of family Lentibulariaceae 342 n1, 383 n5; L.C. Harrison's observations 420 & 421 n2; Laplanders use to curdle milk 312 & n3, 320 & n7; W.T. Thiselton-Dyer's observations 315–16 & 317 nn 2–7, 318–19 & 319 nn 2–6
- Pinguicula* (butterwort; CD's work): CD asks J. Ralfs for observations of leaves and seeds on 317 & n2; CD and F. Darwin have worked well on *Pinguicula* 341; CD experiments on since 31 May 299 n3, 342 n2; CD reports on progress to W.T. Thiselton-Dyer and asks questions 277 & n4, n5, 282–3 & 283 nn 1–8, 308 & n2, 309 n5, 309–10 & 310 nn 2–4, 319–20 & 320 nn 2–7, 333 & 334 n1, 334, 340–41 & 341 nn 1–3; CD reports on to J. Ralfs 348 & 349 n2, nn 4–6; CD sends notes on to W.T. Thiselton-Dyer 334 & 335 n4, 340 & n1, 340 & n5; CD tells J.S. Burdon Sanderson of work 287 & 288 n4, 303 & n2; cells 471; F. Darwin observes in Switzerland xxiii, 384 n2, 410, 410–411 & 411 n1, n2, 412 nn 3–12; W.E. Darwin sends references 298 & 299 nn 3–5; digestion of animal matter and seeds 384 n5, 446 n5; digestion compared to *Drosera* 282; draft letter, CD requests observations assistance 281–2 & 282 n1; draft letter, possible recipients 282 n1; experiments with cabbage seeds 279 n2; experiments with carbonate of ammonia 340 & 341 n2; experiments on digestion 275 & 276 n8, 277 & n4, n5, 282 & 283 n5; experiments with fibrin 303 & n2; experiments with flies 309–310 & n2; experiments with meat 340–41; experiments with milk 320 & n7; experiments with seeds 282 & 283 n2, 283 n4, 314, 371 & n8; experiments with spinach 308 & n2; J.D. Hooker charmed by CD's notes on 340 & n5; interest in started 428 n2; leaves on specimens 333 & 334 n1, 334, 348; T.L. Marshall's observations 369–70 & 371 nn 1–9; W.C. Marshall letter draft used for letters to several correspondents 280 n2; W.C. Marshall's

- observations 283 n3, 427–8 & 428 n2, n3, 445–6 & 446 nn 2–5, 446 n2; movement of leaves 337 & n8, 341 n3; omnivorous habits 314 & n1, 315 n2, n3; order Lentibularineae 283 n8; possible observers of 282 & 283 n3, 316 & 317 n5
- Pinguicula alpina* (alpine butterwort) 311, 339 & n3, 412 n7
- Pinguicula filifolia* 315–16 & 317 n3
- Pinguicula grandiflora* (large-flowered butterwort) 316; CD received plants from J. Ralfs 365 & n3; J.D. Hooker's description 348 & 349 n4; leaves and seeds on 348, 351; D. Moore's observations 350 & 351 n4; J. Ralfs's observations 351–2 & 352 nn 2–7; reference 339 & n3
- Pinguicula lusitanica* (pale butterwort) 298, 305 & 306 n5, 311; CD asks W.D. Fox to observe 299 & n2, 349 n2; J. Price comments on 390 & n5; J. Ralfs reports difficult to observe 351 & 352 n8; reference 339 & n3
- Pinguicula vulgaris* (common butterwort) 311–12, 316; G. Bentham described in *Handbook* 412 n10; J. Price comments on 390 & n5; reference 339 & n3
- Pinguicula vulgaris* (common butterwort; CD's work): CD works on 348; experiments with phosphate of ammonia 384 n2
- Pipilo erythrophthalmus* (cheewink) 261
- Piscus pubescens* 261
- Piscus villosus* 261
- Pitcairn Islanders xix, 17, 18 n2; move to Norfolk Island 18 n2, 20–21 & 22 nn1–4, 23 & n3
- Platero and children 66 n4

- Sievert, Karl Siegwart: *Alter des Menschengeschlechts* 52 & n4, n5, 601 & 602 n4, n5; *Der Communisten-Staat* 52 & n3, 601 & n3; sends CD photograph of himself and his wife 52 & n6, 601 & 602 n6; thanks CD for *Examiner* and comments on support for CD's theory 51–2 & 52 nn 1–3, 601 & nn 1–3
- Sigillaria* 477 & 478 n3
- Silene viscaria* *see* *Lychnis viscaria*
- Silliman, Benjamin: founder of *American Journal of Science and Arts* ('Silliman's Journal') 302 n4
- silver Y moth caterpillar (*Autographa gamma*): on *Pinguicula grandiflora* 351 & 352 n6
- Simms, Joseph: *Nature's revelations of character* 454 n1, 455; picture of 455; sends CD his book and requests outline of CD's foot xxx, 453 & 454 nn 1–3
- Simpson, Alexander: *The Sandwich Islands* 59 & n5
- Sims, James Marion: daughter's expressive face 526 & n9
- Sketchley, Alexander Everingham: death of 501 & 503 n9; vicar of Deptford 495 & n1
- skullcap 390 & n5
- small heath butterfly (*Coenonympha pamphilus*) 373 n3
- Smeathman, Henry: king and queen termites 1 & 3 n6
- Smith, Andrew: bite from non-venomous snake 421 n3; *Procellaria glacialis* 142 n4
- Smith, Angus: on visit to St Kilda 6 & 7 n4, 40 & 41 n9
- Smith, Archibald: *Athenaeum* 29 n5
- Smith, Frederick: Brazilian insects 2 & 4 n8, n9, 219 & 220 n19
- Smith, James Edward and J. Sowerby: *English botany* 338 & n2, 339 & nn 1–3
- Smith, John: assists W.T. Thiselton Dyer 273 & 274 n2; CD asks W.T. Thiselton-Dyer to thank for seeds 334 & 335 n2
- Smith, Kenneth G.V. 96 n7
- Smith, Stephen: address to American Public Health Association 548 n4
- Smith, Susan Emma 29 & n5
- Smith, William: *Quarterly Review* editor 394 n3, 407 n6, 413 n1, 414 n2, 579 & 580 n10, 582 n4
- Smith, Elder & Co.: CD asks for return of his copy of *Coral reefs* xviii, 13 & n4; CD had asked to buy *Coral reefs* images 13 n3; CD suggests he pays extra cost of corrections to *Coral reefs* 173, 632; CD suggests new edition for *Coral reefs* 12 n3, 165 n4; *Coral reefs* first published 13 n1, 632; will publish new edition of *Coral reefs* 13, 14 n2, 33 n3
- snakes: T.L. Brunton and J. Fayrer 127 n8, 295 n2, 311 n5, 313 & 314 n4; S.W. Mitchell 336 & n5; E. Nicholson 421 & nn 1–3, *see also* *Crotalus*
- Society of Antiquaries, Burlington House 114 n1
- solitaire (*Pezophaps solitaria*) 180 & 182 n6
- solitary bees 218
- Somerville, Mary: *On the connexion of the physical sciences* 395 & n5
- Sonder, Otto Wilhelm: and W.H. Harvey, *Flora Capensis* 576 & n4
- Sondera* (synonym of *Drosera*) 489 n1; CD seeks 489 & n1; J.D. Hooker described 491 & 492 n3, *see also* *Drosera*
- song thrush (*Turdus philomelos*) 142 n5, 151 n4, 153–4 & 155 n3
- Sophocles, E.A.: head gestures 437 & 443 n9, 438, 439, 440
- Sorby, Henry Clifton: *Drosera* hairs colouring 454 & 456 nn 5–8
- South American Missionary Magazine* 66 n3
- Sowerby, James *see* Hooker, W.J.; Smith, J.E.
- space perception: philosophy of 442 & 443 n22
- Spalding, Douglas Alexander: CD sends G.H. Darwin's direction notes to 284; death of patron Lady Amberley xxiv, 377 & n2; *Descent* 2d ed., presentation copy 633; experiments 269 n4; Instinct article 242 & 243 n7, 377 n3; thanks CD for letter and G.H. Darwin for notes 377 & nn 1–4; tutor to F. Russell 377 & n2; visits Down xxiv, 269 & n2, 270 & n4, 284 n4, 377 & n4, 628

species change by slight modifications 202

Spencer, Herbert: asks CD about examples for animate and inanimate discussion 533–4 & 534 nn 1–3; CD finds his style hard work 560; G.H. Darwin comments on response to J.F. Moulton 169 & 170 n5; *Descent* 2d ed., presentation copy 633; J.D. Hooker, Christmas with 590 & n4; J.F. Moulton, response to review by 167 & 168 n14; natural selection 362 n5, 388 n1, 392 n3; ‘physical truths’ 170 n5; *Principles of biology*, no obvious changes due to G.J. Romanes’s suggestions 363 n21; *Principles of biology*, Romanes refers to 355 & 362 n5; *Principles of sociology* 534 n1, n3; G.J. Romanes sends CD abstract of his letter to Spencer 387–8 & 388 nn 4–7; G.J. Romanes sends CD copy of his letter to Spencer 355–62 & 362 nn 5–7, 363 nn 8–21; G.J. Romanes sends CD copy of Spencer’s letter 386

Spencer, John Charles: cattle breeding 49 n1

sphinx moths: family Sphingidae 423 n2; and *Hedychium coronarium* 423 & n1, 484 n4; and *Hedychium gardnerianum* 85–6 & 86 n1, 167 & 168 n1, 169 & 170 n3, 423 n1, 484 n4

spiders: CD’s spider specimens (*Beagle voyage*) 95 & 96 n7; proportion of sexes 88; secondary sexual characteristics of 95 & n6; trapdoor spiders 136 n6, 285–6 & 287 nn 7–11, 286

spiritualism: T.G. Appleton seeks CD’s views on xviii, 182–3 & 183 nn 1–7, 184 n8, n9; W. Crookes investigated mediums 49 & 50 n3; and telegraphy 183 & n7; H. Wedgwood interested in 183 & 184 n8, *see also* séances

Spottiswoode, William: asks G.H. Darwin to lecture at Royal Institution 500 & 502 n1, 505 n3, 531 & n2; G.H. Darwin writes to about proposed lecture 513 & 515 n4, 531; E.F. Lubbock plans to go with to J. Lubbock’s lecture 594 & n1

Spowers, Allan: *Argus* 291 & 292 n4

Sprengel, Christian Konrad: CD mentions in *Orchids* 302 n2; on orchids 478–9 & 479 n3

squash bug (*Coreus tristis*; now *Anasa tristis*) 280 & 281 n3

Stainton, Henry Tibbats: R. McLachlan’s nomination for Royal Society 19 & n1

Staley, Thomas Nettleship: H.W. Bates uncertain of whereabouts 63 & n3; CD asks for information on Sandwich Islands population 16–17 & 17 n2, n3; CD received information from 19 n1; fruit in Hawaii 111; ‘Hawaii before the introduction of Christianity’ 72 & 73 n6, 97 & 98 n3; information on Hawaiian population to CD xix, 72–3 & 73 n2, n5, n6, 96–8 & 98 nn 2–5, n9

Stapelia: CD asks W.T. Thiselton-Dyer to

experiment with water on leaves 186 & 187 n6, 273 & 274 n4

Staphylinidae (rove beetles): on *Pinguicula grandiflora* 351 & 352 n5

starfish 153 & n5

starlings: increase in 150 & 151 n6, 154 & 155 n7

Statistical Society of London: CD suggests G.H.

Darwin sends cousin marriages paper to 548 & 549 n2; G.H. Darwin reads cousin marriages paper 284 n1, 517 n6, 554 n3, 556 n1; G.H. Darwin will offer cousin marriages paper to 555 & 556 n1

Stecki, Henryk: bristling of hair, case of 161–2 & 162 nn 1–8, 609–610 & 611 nn 1–8; hen with human face, case of 425–6 & nn 1–8, 614–15 & 615 nn 1–8

Steenstrup, Japetus: CD thanks for photograph of 264 & n1, 265 n2; supplied CD with specimens for research on cirripedes 265 n2

sticky catchfly *see* *Lychnis viscosa*

sticky sage (*Salvia glutinosa*) 412 n9

stingless honey-bees 2–3 & 3 n8, 70, 218–19 & 220 n10, n12, n20

Stirling, James Hutchison: dispute with T.H. Huxley 431 n1

Stirling, Waite Hockin: mission at Ushuaia 109 n5; B.J. Sullivan reports comments of 108 & 109 n1; to visit B.J. Sullivan 65 & 66 n1

Stokes, George Gabriel: Royal Society, secretary 122 n1

Story-Maskelyne, Thereza Mary: birds and primroses xxiv, 238–9 & 239 n2, 243 n6

Strachey, Richard: bees biting flowers for nectar 230 n3; G.H. Darwin visits 60 & 61 n6; Linnean Society changes 124, 125 n4; Royal Geographical Society mapping 61 n9

Sullivan, Bartholomew James: *Beagle voyage* 10 & n7; CD sends condolences on loss of son 10 & n2; CD’s health xvii, 10 & n6; on Fuegians 65–6 & 66 nn 1–3, 108–9 & 109 nn 1–5; sends magazine for children of S.A. Mission 9 & n2

Sullivan, Thomas Edward 9 & n1, 10 & n2

sundew *see* *Drosera*

supernumerary mammae 204 & n1, 214 & n3

swamp rainbow (*Drosera heterophylla*) 506 & n4

swan plant *see* *Gomphocarpus physocarpus*

Swertia 472 & 473 n8

Swinhoe, Robert: candidacy for Royal Society xxviii, 67 & n1, 71 & n1, 79 n1, 88 & n1, 113 & n1, 121 n2, 122 nn 2–4; elected to Royal Society 122 n2

Symmes, Americus 62 n1

Symmes, John Cleves (1742–1814) 62 & n7

- Symmes, John Cleves (1780–1829): Symmes' Hole 62 & n1
- Symmes, John Cleves (1824–1895): asks CD about 'Darwin's Golden Secret' 61–2 & 62 n1
- Talpa europaea* (European or common mole) 190 & 191 n13
- Tamarindus indicus* (tamarind tree): from Kew 187 n3; value of observing 208 & n2
- Tatusia peba* (now *Dasyus novemcinctus*) 88 n4
- Taylor & Francis: printers of *Report of the British Association for the Advancement of Science* 402 & 403 n2
- Tegetmeier, William Bernhard: CD asks for greyhound birth statistics 58–9; CD subscribes to Tegetmeier's ed. of Boddaert 187 & 188 n2, n3; CD thanks for information 93–4 & 94 nn 1–3; 'Display of the argus pheasant' 189; edits P. Boddaert, *Table des planches enluminées* 188 n3; *Field* 16 n3, 59 n1, 189 n1, n2; responses from J.H. Walsh and C.M. Browne 91 & n2; sent CD greyhound birth statistics 16 n3
- Tegitula yuccasella* see *Promuba yuccasella*
- teleology and morphology 278 & n4, 301 & 302 n3, n4
- Temple, Henry John (Lord Palmerston) 21, 23 n10
- Tennent, James Emerson: *Ceylon* 464 & 465 n5
- termites 1–3 & 3 n2, nn 4–7, 4 n1, n3, 70, 74, 499 n5
- Tester, James: CD's footman 385 n3
- Testudo daudini* 181
- Testudo elephantina* 181
- Testudo indicus* 182 n5
- Tetramorium caespitum* 499 n6
- Tetrapdia* 218 & 220 n15
- Thiara* see *Melania*
- Thiselton-Dyer, William Turner: *Brassica* seeds on *Pinguicula* leaves 278–9 & 279 n2, n3; CD asks about action of water on plants 276 & 277 n2; CD has requests for J.D. Hooker 335 & nn 7–9; CD reports on his *Pinguicula* experiments 277 & n4, n5, 282–3 & 283 nn 1–8, 308 & n2, 309 n5, 309–10 & 310 nn 2–4, 319–20 & 320 nn 2–7, 333 & 334 n1, 334, 340–41 & 341 nn 1–3; CD requests epiphytic species of *Utricularia* 335 & n9; CD requests plants 186–7 & 187 nn 3–5, 320; CD sends *Pinguicula* notes to 334 & 335 n4, 340 & n1, 340 & n5; CD thanks for 'all sorts of information' 334 & 335 nn 2–4; CD thanks for *Erica tetralix* information 333 & 334 n1; CD thanks for *Opuntia* observations 276 & 277 n1; CD thanks for seeds and plants 208 & n2, 319; *Erica tetralix* on *Pinguicula* specimens 310 n3, 319, 334 & 335 n2; J.D. Hooker's assistant 417 & 418 n10, 454 & 456 n4, 550 & 551 n3; J.D. Hooker's assistant, resigned as 550 & 551 n3; insectivorous plants 274; Linnean Society changes 124, 125 n4; *Nepenthes* experiments 169 & 170 n12, 277 & n3, 334 & 335 n5, 339 & 340 n3, 342 & 342 n7, 342 & 343 n1; *Opuntia* experiments 273, 273 & 274 n2, n3; *Pinguicula* observations 315–16 & 317 nn 2–7, 318–19 & 319 nn 2–6; Royal Botanical Gardens, appointed assistant director 1875; 456 n4
- Thomson, Charles Wyville: J.V. Carus stands in for 346 n4, 547 n4, 550 n2; HMS *Challenger* 27 n1, 263 n2, 547 n4, 550 n2
- Thomson, Thomas: *Aldrovanda vesiculosa* 491 & 492 n4
- Thomson, William: life on earth theory 254 & 256 n6
- thread-leaved sundew see *Drosera filiformis*
- thrips (thunder-flies) 462 & 463 n5
- thrushes 142 n5
- Tiddeman, R.H.: supernumerary mammae cases 214 n3
- toads: A.W. von Götte 190 & 191 n13
- Todas people 149 n4
- Tollet, Ellen Harriet: comments on *Coral reefs* 2d ed. 632; visits Down 172 & n3
- Tomes, Charles Sissmore: CD thanks for teeth information 87–8 & 88 n4; lateral incisors (teeth) 84; On the existence of an enamel organ in an armadillo 88 n4; J. Tomes & C.S. Tomes, *A system of dental surgery* 82–4 & 85 nn 2–10
- Tomes, John and C.S. Tomes: *A system of dental surgery* 82–4 & 85 nn 2–10
- Torrum (deerhound) and descendants 146 & 149 n10, 150 n15
- tortoises: giant tortoises 179–82 & 182 nn 1–3, n5, 181; A. Günther's work 79 & n2, 181, 232 n2
- Towneley, Charles: cattle breeding 47 & 49 n4
- Transactions of the Geological Society of London*: CD's papers 164 n6
- trapdoor spiders 136 n6, 285–6 & 287 nn 7–11, 286
- Treat, Mary Lua Adelia: CD asks about *Dionaea* catching insects 306 & n2; *Dionaea* observations 280 & 281 nn 1–4, n6, 306 & n2, 510 & n1, n2; *Drosera* observations 281 & n5, 553 n1; *Utricularia* observations xxvi, 553 & n1, 554 n2, n3, 564 & n2
- Trécul, Auguste Adolphe Lucien: on *Drosera* 471 & n4
- tree frogs (*Hyla*) 266 & 267 n2
- Trigona* 2, 3, 218 & 220 n12, n17
- Trigona jaty* 218 & 220 n13
- Trigona liliput* (informal name) 220 n17
- Trigona limão* 219 & 220 n19
- Trigona minima* 220 n17

Trigona mirim 218 & 220 n16, 218–19 & n16

Trimen, Henry: Linnean Society changes 125 n4

Tripp, Charles George 321 & 329 n6

Tristram, Henry Baker: R. Swinhoe's candidacy for Royal Society 88 & n1, 113 & n1, 125–6 & 126 n1

Trotter, Coutts 530 & n7

true limpet (*Patella*) 250 & n3

trumpet pitcher-plants *see* *Sarracenia*

Turdus philomelos (song thrush) 142 n5, 151 n4, 153–4 & 155 n3

Turdus viscivorus (mistle-thrush): 142 n5, 150 & 151 n4, n5, 153–4 & 155 n3, 156

Turner, Effie Elizabeth 590 & n4

Turner, Joseph Mallord William: paintings 442 & 443 n21

Turner, Mary Anne: death of 481 & n8

Turner, William: wrote to T.H. Huxley about lecturing in Edinburgh 547 & n5; Zoological Station appeal 227 & n4

Tylor, Edward Burnett: St G.J. Mivart's anonymous review of works by J. Lubbock and E.B. Tylor 399 n2, 403 n3, 504 n1, 558 n9, 570 & 571 n1, 580 n1, 583 n2, 596 n5, 636

Tyndall, John: asks CD to check his address for BAAS xxx, 402 & n1, 403 n2, n3; BAAS, presidential address xxx, 402 & n1, 403 n2, n3, 413–14 & 414 n2, n3, 414 n2, 414 & 415 n2, 419 n5, 431 & 432 n1, n3; CD compliments Tyndall on BAAS address xxx, 414 & 415 n2; CD has not yet received proofs of BAAS address 413–14 & 414 n2, n3; CD seeks support for H. Parker 140 & n1; CD's concerns about E.F. Lubbock's health 593 & n1, n2; evolution theory 431 & 432 n1; J.D. Hooker, Christmas with 590 & n4; J.D. Hooker, informed him of Mivart affair 594 & n3, 644; J.D. Hooker, news of 594 & n2; E.F. Lubbock's health 594 & n1; prayer, efficacy of 432 n2

Unio (freshwater mussels) 267 & 268 n4

United States Exploring Expedition 376 & 376 n4, 377 nn 4–7

Unknown correspondents: CD asks for help for G.H. Darwin's work 31–2 & 32 n1; CD declines offer of books 144; CD seeks support for H. Parker 139 & n1; CD suggests he ought to be ordinary member of club 7–8 & 8 n1; CD thanks for 4th edition of work sent by correspondent 204–5 & 205 n1; CD thanks for election to club 5 & n1; CD thanks for note and is indifferent how name is used 535 & n1; CD unable to comment on chemistry paper 1; favourable comments

on *Origin of species* 451–2 & 452 n1; sends CD information on Sandwich Islands population 18–19

Untersuchungen zur Naturlehre des Menschen und der Thiere 116 & 119 n4

Uroopa 66 n2, 109 n2

Usborne, Alexander Burns 9 & n3

Utricularia (bladderwort): F.J. Cohn's work 484–6 & 486 nn 1–3, 486, 487 n7, n9, n10, 494 & n6, 617–18 & 618 nn 1–3, 618, 619 n7, n9, n10; Orchidioides section 496 & n4; *Polypompholyx* now a subgenus of 587 n2

Utricularia (bladderwort; CD's work): aquatic species in Ceylon 464 & 465 n5; calyx lobes 576 & n6; CD believes absorbs putrefaction products 420 & n6, 428 & 429 n2, 447, 447 n2; CD believes on right track after fruitless experiments xxvi, 427; CD compares his failure with to J.D. Hooker's with *Cephalotus* 418 & 419 n3; CD interested in bladders of xxvi, 428, 447 & n2, 447 & 448 n2, 465 & nn 2–4, 467 & n2, 498, 596 & n2; CD looks forward to discussing with J.D. Hooker 447; CD requests help from D. Moore 283 n3, 334 & n1, 349 n3; CD seeks plants 299 & n1, 305, 334 & n1, 335 & n9, 340 & n6, 341 & 342 n2, 345 n3, 348 & 349 n2, n3, 383, 388 n2; CD started intensive work in September 451 n1; CD supplied with plants xxvi, 351 & 352 n1, 365 & 365 n2, 365 & 366 n2, 404 & n2, 506 & n5; CD works on xxvi, 341 & 342 n2, 388 n2, 445 n5, 447, 553 n1; CD's interest inspired by R. Holland's paper 283 & n7; F. Darwin assists CD xxvi, 368 & 369 n1, 388 n2, 420 n4, 488 n2, 553 n1; W.E. Darwin seeks 348 & 349 n2, 365 n2; W.E. Darwin sends references 298 & 299 nn 3–5; epiphytic species 335 & n9, 366 & n3, 489 & n4, 490 n4; genus of bladderworts 334 n1, 373 n1, 486 n3, 618 n3; J.D. Hooker seeks plants for CD 340 & n6, 367 & 368 n1, 368 & 369 n3, 454, 467 & n2, 475 & n1, 481 & n2; microscopical observations 463 & n2; D.F. Nevill enquires about CD's work on 590 & 591 n2; order Lentibulariaceae 283 n8, 383 n5; J. Ralfs sends specimen morsel xxvi, 351 & 352 n1, 365 & 366 n2; H.M. Wilkinson's observations 373, 403–4 n1, n3, 461 & n1

Utricularia alpina *see* *Utricularia montana*

Utricularia amethystina (Florida purple bladderwort) 480 & n1, 481 & n2, 498 n2

Utricularia caerulea (blue bladderwort) 498 n2

Utricularia clandestina (synonym of *U. geminiscapa*; hidden-fruited bladderwort): M.L.A. Treat's observations 553 & n1, 554 n2, n3

Utricularia griffithii (Asian bladderwort: synonym of

- U. uliginosa*) 498 n2
- Utricularia jamesoniana*: D. Oliver's work 475 n2, 482 n4
- Utricularia minor* (lesser bladderwort): CD studying 388 & n2, 465 n3; W.E. Darwin sends references 298 & 299 n5; plants supplied by J. Price 388 n2, 390 & n2, 391–2 & 392 nn 2–4, 449 & n3
- Utricularia montana* (synonym of *Utricularia alpina*; epiphytic bladderwort): bladders 447 & 448 n4, 450 & 451 n2, 461 & 463 n2, 464; CD asks J.D. Hooker for bladders of 447 & 448 n4; CD asks D.F. Nevill for 447 & n2, 465, 473 & n2; epiphytic or terrestrial 490 n5; first epiphytic bladderwort CD observed 464 n2; habits 490 n5; D.F. Nevill supplies xxvi, 448 & n3, 449 & n2, 449 & 450 n2, 450, 461 & 462 n3, 465 n2, 473 & n2, 490 n5, 576 n2, 590 & 591 n2, 596 n1, n2; D. Oliver supplies 575 & 576 n2; Orchidioides section 496 n4; tubers 465 n2, 475
- Utricularia multicaulis* 498 n2
- Utricularia neglecta* (synonym *Utricularia australis*) 465 n3, 481; CD's specimens 484 & n2, 494 & n7; learns from J.D. Hooker his chief *Utricularia* work is on *U. neglecta* 494 & n7
- Utricularia nelumbifolia* 480 & n1; from Organ mountains, Brazil 481 & n2, 498 n2; G. Gardner 481 & n6
- Utricularia orbiculata* (now *U. monoliformis*) 498 n2
- Utricularia stellaris* 465 n5
- Utricularia unifolia*: Orchidioides section 496 n4
- Utricularia vulgaris* (common bladderwort) 298 & 299 n5; F. Darwin assists CD 368 & 369 n3, 390 n3, 392 & n4, 465 n3, 494 & n7; J.D. Hooker supplies plant 368 n1, 475 & n1; initial observations puzzling 368 & 369 n3, 383 & n3, 392; D. Moore sends plant 350 & n1; J. Price's observations 390, 448 & 449 n2
- Vachellia farnesiana* see *Acacia farnesiana*
- Vair, James (D.F. Nevill's head gardener) 435 n3, 451 n4, 473 n3; *Dionaea* 168 & 169 n16
- Vancouver, George, Hawaii 97 & 98 n6
- Vaughan, Charles John 501 & 503 n10, n11, 502
- Venn, John: looks at G.H. Darwin's political economy work 555 & 556 n5; to meet G.H. Darwin 556
- Venus, transit of: American expedition 327 & 330 n18; British expeditions 320 & 329 n2, 322, 327, 370 & 371 n9, 493 n1; L. Darwin xxiii, 493 n1, 497 n2, 503 n19, 516 n21, 546 n1; Indian Ocean stations 458 n2, 460 n2; *Merope* 493 & n1
- Venus fly trap see *Dionaea*
- Verity, Robert 332 & 333 n9
- Verneuil, Philippe Edouard Poulletier de 46 & n1
- Vernonia* 217 & 220 n7
- Verrell, James: CD apologises for trouble caused and asks for journals 451 & nn 1–5; CD informs *Nature* has not arrived yet 469 & n1
- Versammlung Deutscher Naturforscher und Ärzte: E.J. Cohn's paper 486 & 487 n10, 618 & 619 n10
- vertebrate skull 562 & 563 n4, 589 & n7
- vines for graft hybrids 573 & 574 n2, n7
- Viola tricolor*: CD sends MS to J. Lubbock 462 & 463 n3
- Virchow, Rudolf Carl: eulogy of J.P. Müller 347 & n1, 348 n2
- Volutidae (predatory sea snails) 250 & n3
- Vries, Hugo de: CD thanks for memoir on Climbing Plants 94 & n1
- Wake, Charles Staniland: 'Marriage among primitive people' 240 & n2, 247 n1
- Walhalla, Regensburg 520 & n5

- Wallace, Alfred Russel: *Descent* 2d ed., presentation copy 633; *Descent* 2d ed., thanks CD for 559 & n1; *Geographical distribution of animals* 559 & n2; C. Lyell's *Antiquity of man*, review of 54 & 55 n9; On the tendency of species to form varieties (CD and Wallace) 158 n3; trapdoor spiders 286 & 287 n10
- Walsh, Benjamin Dann 93 & 94 n2
- Walsh, John Henry (Stonehenge): brother of B.D. Walsh 93 & 94 n2; editor of *Field* 91 & n2
- Wammestruggins (Threeboys Button) 66 n2, 109 n2
- Ware, William Robert 443 n7
- Waring, Robert: Waring name in Darwin family originates from 212 n4
- Waring, William: breeding sporting dogs 14–15, 205 & 206 nn 1–3; CD asks about rearing of greyhound puppies 10–11 & 11 n2, 15–16; CD thanks for information 206 & n1
- water starworts (*Callitriche*) 468 & 469 n4
- Watling, Henry Wyat 20 & 23 n6, 21 & 23 n15
- Watts, Henry, *A dictionary of chemistry* 239 & 240 n3, 257 & 258 n2, 378 & 379 n1, 416 & n3, 428 & 429 n4
- Watts, Horace N. 109 n3
- Way, Albert 246 & 247 n11, 252
- Wealden Exploration Fund 215 n3
- Weale, James Philip Mansel: *Gomphocarpus physocarpus* 274 & n9
- Wedgwood, Caroline Sarah: CD gives news of 252 & 253 n6; W.D. Fox enquires about 245; W.D. Fox's memories 305 & 306 n6

- Wedgwood, Hensleigh: CD shows photograph from T.L. Brunton 526 n2; dinner at Farrers' 514 & 516 n16; response to St G.J. Mivart's answer to G.H. Darwin's letter 514 & 516 n19; séances xviii, 25, 41 & 44 n2, 45 n6, 50 n6, 179 n5, 183 & n5; spirit photographs 178 & 179 n5; spiritualism, interest in 183 & 184 n8; supports CD's legal advice idea to G.H. Darwin 388 & 389 n3
- Wedgwood, Hope Elizabeth 198 & 199 n8; dinner at Farrers' 514 & 516 n16
- Wedgwood, Josiah, I: biography by E. Meteyard 217 n4, 332 & 333 n2
- Wedgwood, Josiah, III 253 n6; Darwins visit 628 & 629 n18; family visits Down 530 & n5; *Pinguicula* information from Smith and Sowerby 338 & n2
- Wedgwood, Katherine Elizabeth Sophy 252 & 253 n6
- Wedgwood, Lucy Caroline: marriage 252 & 253 n6
- Weisz, Béla: CD lacks knowledge of political economy 247–8 & 248 nn 1–3
- West, Samuel Hatch: assists T.L. Brunton 444 & n2
- West Riding Asylum 526 n6, n7
- Wharry, Robert: assists T.L. Brunton 444 & n2
- Wharton, William James Lloyd: commander HMS *Shearwater* 458 n2; on Rodriguez 459–60 & 460 nn 1–7; on Zanzibar 457–8 & 458 nn 2–5, 459 nn 6–9
- White, Adam 96 n7
- Whitney, William Dwight: 'Darwinism and language' 396 & n1, 399 & n1, 403 & n1, n2
- Wichelo, Alice Clara 514 & 516 n9
- Wigand, Julius Wilhelm Albert: CD on natural selection 160 & 161 n3; critical of CD's theory 144, 569 & n4, 608, 625 & n4; sends CD *Der Darwinismus und die Naturforschung Newtons und Cuviers* vol 1: 143–4 & 144 nn 1–4, 608–9 & 609 nn 1–4
- wild carrot (*Daucus carota*) 472 & 473 n6
- Wilkes, Charles: Pacific Ocean survey 376 & n4, 377 nn 4–7
- Wilkinson, Henry Marlow: observations and experiments on *Utricularia* and *Drosera* 373 & n1, 403–4 & 404 nn 1–3; *Utricularia* almost gone 461 & n1
- Willett, Henry: CD refers to revised *Origin of species* discussion of Weald's denudation 215 & nn 1–4
- William Clowes & Sons *see* Clowes & Sons
- Williams, Charles E.: hired by G.H. Darwin xvii, 26 n3, 29 n4; T.H. Huxley reports on séance 41–4 & 44 n2; séances at W. Crookes 49 & 50 n4
- Williams, E.L.: to G. Cupples for CD 101
- Williams, Edmund: captain of *Merope* 321 & 329 n8, 322
- Williams and Norgate: books to Entomological Society of France 127 & 128 n4; CD makes payment and requests *Flora* 206 & n1, n2
- Wilson, Edward: *Argus* 291 & 292 n4
- Withers, William: appreciates CD's work 109–110 & 110 nn 1–4
- Wolff, Henry Drummond Charles 66 n7
- Wood, Thomas Fanning: cooperating with M.L.A. Treat 281 & n6
- Wood, Thomas W.: illustrations for *Descent* 189 n2; illustrations for *Descent* 2d ed. 189 n2, 195 & 196 n2, n4
- Woodd, Charles Henry Lardner 306 n5
- Woolner, Thomas: CD seeks support for H. Parker 140
- worms 541 & n3
- Wright, Chauncey: CD recommends publishing his views 469–70 & 470 nn 2–8; head gestures xxvii, 435–43 & 443 nn 1–23
- Wright, John: to G. Cupples for CD 103–4 & 105 n9
- Wright, William Aldis 211 & 212 n2
- Wyllie, Robert Crichton: *Answers to questions* 76 & 78 n13, n16
- Wyman, Jeffries: insectivorous plants 254 & 256 n4
- Yaghans *see* Fuegians
- Yarrell, William: *A history of British fishes* 113 n5; *History of British birds*, revision by A. Newton 142 & n5, 153 & 155 n3
- Yokcushlu (Fuegia Basket) 66 n3, 108 & 109 n4
- Youmans, Edward Livingston 74 & 78 n1
- Young, John 21 & 23 n13, 22
- yucca moth *see* *Pronuba yuccasella*
- Zanzibar 457–8 & 458 nn 3–5
- Zeitschrift für rationelle Medizin*, G. Meissner 119 n6
- Ziegler, Martin: abstract on *Drosera* 134, 135–6 & 136 n2, n9, 607–8 & n1, n2; *Atonicité et Zoicité, applications physiques, physiologiques et médicales* 543 n3, 624 n3; 'Atonicité et Zoicité, Sur un fait physiologique observé sur des feuilles de *Drosera*' 141 & n2; sends CD his work on *Drosera* 542 & n1, n2, 543 n3, n4, 623–4 & 624 nn 1–4
- zoological gardens, Regent's Park: giant tortoises 182 n3
- Zoological Society: A. Newton, vice-president 182 n11; P.L. Sclater, secretary 195 n3
- Zoological Society of Argentina: CD elected honorary member 631
