

Subject index

ε -Optimal control, 106	Hamiltonian, 110
Absolute risk aversion, 112	Hawkes process, 323
Admissible set, 101, 104	Hedge-Fund, 6
Adverse Selection	Hidden, 13
market-making, 261	Hide-not-Slide, 12
Arbitrageurs, 7	Hit the bid, 18
Arrival Price, 135	
Bang-bang control, 117	Iceberg, 13
Benchmark price, 135	Immediate-or-Cancel, 13, 16
Closed-end Fund, 5	Implementation Shortfall, 135
co-integration factor, 60	Infinitesimal generator, 319–322, 324, 326
colocation, 50	Itô integral, 316
Continuation region, 123	Itô’s formula, 318, 320, 322, 324
Cox process, 322	Itô’s isometry, 317
Dark Pool, 175	
Day Orders, 12	Legendre Transform, 153
Discretionary, 13	lift the offer, 18
Doubly stochastic Poisson process, 322	likelihood, 298
Dynamic Programming Equation, 100, 107	Limit Order, 9
diffusion, 109	Limit Order Book, 9
jump, 117	
jump-diffusion, 121	Market Maker, 246
stopping, 125	Market Making
stopping and control, 130	adverse selection, 261
Dynamic Programming Principle, 100	at-the-touch, 254
Diffusion, 107	optimising volume, 257
jump, 115	Market Order, 9
jump-diffusion, 121	Maximum Likelihood Estimator, 298
stopping, 124	microprice, 46
stopping and control, 129	Midprice, 16
Efficient Market Hypothesis, 42	MLE, 298
Execution costs, 135	Mutual fund, 5
Feller process, 323	Non-routable, 12
Feynman–Kac theorem, 326	Open-end Funds, 5
Fill-or-Kill, 13	Optimal stopping problem, 122
Fundamental Price, 136	Optimal strategy, 101
Fundamental traders, 7	order flow, 43
Good-Till-Time, 13	Ornstein-Uhlenbeck process, 323
Grossman–Miller market making model, 21	
Hamilton–Jacobi–Bellman equation, 100	Pairs Trading, 273
diffusion, 109	Parent order, 134
jump, 117	Pegged, 12
	Percentage of Cumulative Volume, 214
	Percentage of Volume, 214
	Performance criteria, 104
	Permanent Price Impact, 136

POCV, 214
POV, 214
Proprietary traders, 7
Prorata, 10
Quasi-Variational Inequality, 130
Quoted spread, 16
Rebate, 13
Relative risk aversion, 112
reservation price, 188
robust, 44
Sharpe Ratio, 111, 276, 294
Slippage, 135
Spread, 16
Statistical Arbitrage, 273
Stochastic Differential Equation, 317
Stopping region, 123
Temporary Price Impact, 136
Tick, 16
Tick size, 16
Trade-through, 16
Value function, 101, 104
Variational Inequality, 125
Verification theorem, 112
viscosity solution, 125
VIX, 43
VWAP, 213, 226
Walking the book, 10
