## Index

- Abakumov, E., 148, 168  
 absolutely continuous measure, 2, 3  
 adjoint, 25  
 Agler, J., 81, 112  
 Ahern, P., 42, 50, 56, 110, 158, 207  
 Akhiezer, N., 279  
 Aleksandrov  
   Clark measure, 248, 251  
   disintegration theorem, 245, 299  
   operator, 248  
 Aleksandrov, A., 119, 148, 168, 245, 250, 252, 256  
 Aleman, A., 103, 125, 168  
 analytic  
   continuation, 153, 155, 156  
   self-map, 126  
   Toeplitz operator, 90  
 angular derivative, 46, 50, 158, 232  
 anti-unitary operator, 170  
 Arithmetic–Geometric Mean Inequality, 76  
 Aronszajn, N., 112  
 Arov, D., 184  
 Arveson, W., 206  
 associated inner function, 178  
 Atkinson’s Theorem, 30  
 automorphisms of the disk, 32  
  
 backward shift, 99, 104  
 Bagemihl, F., 55, 145  
 Ball, J., 252  
 Banach–Alaoglu Theorem, 4, 7, 23  
 Baranov, A., 301, 302  
 Bari, N., 279  
 basis  
    $C$ -real orthonormal, 172  
   Riesz, 271, 277, 281  
   TMW, 120  
 Bercovici, H., 195, 213, 230  
 Bergman space, 81, 82, 125  
 Berman, R., 168  
 Bessonov, R., 301, 302  
 Beurling’s Theorem, 85, 102  
 Beurling, A., 85  
 bilateral shift, 93  
 biorthogonal sequence, 260, 262  
 Blaschke  
   condition, 37, 80  
   product, 37, 80  
 Boas, R., 279  
 Borel  
    $\sigma$ -algebra, 1  
   function, 1  
   measure, 1  
   set, 1  
 Bottcher, A., 90  
 bounded  
   analytic functions, 33  
   operator, 24  
   type, 74, 144  
   variation, 4  
 Brown, A., 91–94, 96, 201, 301  
  
 Calkin algebra, 30  
 Carathéodory Extension Theorem, 5  
 Carathéodory, C., 50  
 Cargo, G., 168  
 Carleson measure, 250, 267  
 Carleson, L., 8, 250, 293  
 carrier of a measure, 1  
 Cauchy

- Integral Formula, 60, 66
- kernel, 60
- Schwarz inequality, 23
- transform, 242, 250
- Chalendar, I., 301, 305
- characteristic function, 214
- Chevrot, N., 183, 305
- Christensen, O., 115, 279
- Cima, J., 57, 119, 122, 131, 135, 156, 157, 213, 245, 248, 249, 256, 257, 303
- Clark
  - measure, 232, 250, 258, 299
  - unitary operator, 212, 236, 299, 304
- Clark, D., 42, 50, 56, 110, 158, 207, 236, 239, 252, 256, 257, 279
- Closed Graph Theorem, 24
- closed span, 24
- cluster set, 294
- Coburn, L., 206
- Cohn, W., 168, 250
- Collingwood, E., 32, 34, 42, 45, 55, 131, 294
- commutant, 26, 96, 229, 304
- commutant lifting theorem, 215, 227, 229
- commutator ideal, 206
- compact operator, 29
- complete sequence, 260
- completely non-unitary, 195
- completeness problems, 277
- complex symmetric operator, 190, 279, 291
- composition operator, 126, 130, 247–249
- compressed shift, 187, 189, 197, 215, 229, 235, 279, 283, 286
- compression of an operator, 188
- conjugate analytic Toeplitz operator, 90
- conjugation, 170, 173, 180, 276, 291
- constant of uniform minimality, 263
- contraction operator, 25, 27, 28, 195
- Conway, J., 31, 206, 211
- Corona Theorem, 293
- Cowen, C., 127, 249
- Crofoot transform, 135, 139, 142, 255, 303
- Crofoot, B., 142
- cyclic, 26, 86, 107, 151, 152, 167, 194
  
- Darlington synthesis, 184
- Davidson, K., 206, 211
- de Branges, L., 124
- de Branges–Rovnyak space, 123, 252
- defect operator, 28, 217
- derivative of a measure, 2
- difference quotient operator, 101, 132, 204
- dilation of an operator, 188, 216
- dimension, 22
- Dirichlet problem, 10
- Dirichlet space, 82, 125, 142
- discrete measure, 3
- disk algebra, 119, 198, 296
- disk automorphisms, 32
- divisors of an inner function, 41
- Douglas, R., 129, 149, 156, 157, 168, 178, 179, 184, 206
- Duren, P., 11, 31, 32, 37, 58, 78, 82, 102, 127, 141, 279
- Dyakonov, K., 119, 125, 142, 279
  
- Ebbinghaus, H., 184
- El-Fallah, O., 82, 142
- Erdélyi, I., 27
