Every effort has been made in preparing this book to provide accurate and up-to-date information that is in accord with accepted  
standards and practice at the time of publication. Although case histories are drawn from actual cases, every effort has been made to  
disguise the identities of the individuals involved. Nevertheless, the authors, editors, and publishers can make no warranties that the  
information contained herein is totally free from error, not least because clinical standards are constantly changing through research  
and regulation. The authors, editors, and publishers therefore disclaim all liability for direct or consequential damages resulting from  
the use of material contained in this book. Readers are strongly advised to pay careful attention to information provided by the  
manufacturer of any drugs or equipment that they plan to use.
