- Cartan decomposition, 119
- coadjoint representation, 60
- complex structure, 46
- cone of attainability, 75
- connection, 131
- control affine system, 21
- control drift, 21
- control system, 19
- controlled vector fields, 21
- controllable, 23
- controllability criterion, 25
- cost-extended control system, 68
- covariant derivative, 138
- covariant derivative problem, 329
- curvature problem, 329
- cubic spline, 332
- Curve shortening equation, 399
- Darboux's theorem, 51
- Darboux curve, 248
 - anchored, 372
 - reduced, 373
 - periodic, 374
 - framed curves, 372
- Delauney–Dubins problem, 331
- diffeomorphism, 6
- differential form, 3
 - closed, 5
 - exact, 5
- Dirac, P., 210
- distribution, 14
 - integrable, 15
 - involutive, 15
- Dragovic, V., 313
- Dubins, L., 331
- elastic problem, 104
- elliptic geodesic equations, 202
- Elliptic geometry, 101
- elementary perturbation vector, 76
- escape time
 - positive, 6
 - negative, 6
- exterior derivative, 4
- extremal control, 67
- extremal curve, 74
 - normal, 80
 - abnormal, 80
- extremal trajectory, 67
- Euler–Griffiths problem, 250

- Euler quadratic form, 225
- Euler's elasticae, 105
- Fedorov, Y., 210
- Filament equation, 390
- flow, 6
- Fomenko, A.T., 160
- forward-backward principle, 72
- frame
 - moving, 222
 - absolute, 222
 - Darboux, 248
- Frechet
 - manifold, 376
 - tame, 376
- Frobenius theorem, 16
- generalized elastic rod, 257
- generalized upper half plane, 42, 127
- geodesic, 135
- geodesic symmetry, 138
- Grassmannian, 43
 - oriented Grassmannian, 129
- Griffiths, P., 105
- group action, 41
- Hamilton, R.S., 376
- Hamilton equation, 94
- Hamiltonian lift, 71
 - of a control system, 74
- Hamiltonian vector field, 49, 50
- Hasimoto, H., 394
- Heisenberg's magnetic equation, 389
- Hermann–Nagano theorem, 18
- Hermitian matrix, 269
- homogeneous space, 41
- horocycle, 110
- horizontal curve, 131
- horizontal lift, 131
- holonomy group, 132
