.....  
Every effort has been made in preparing this book to provide accurate and  
up-to-date information that is in accord with accepted standards and practice  
at the time of publication. Although case histories are drawn from actual cases,  
every effort has been made to disguise the identities of the individuals involved.  
Nevertheless, the authors, editors, and publishers can make no warranties that  
the information contained herein is totally free from error, not least because  
clinical standards are constantly changing through research and regulation.  
The authors, editors, and publishers therefore disclaim all liability for direct or  
consequential damages resulting from the use of material contained in this  
book. Readers are strongly advised to pay careful attention to information  
provided by the manufacturer of any drugs or equipment that they plan to use.
