List of Figures .......................................................... viii  
List of Tables .......................................................... ix  
Preface ................................................................. xi  
Acknowledgments ...................................................... xvii  

Introduction .......................................................... 1  
Asymmetry’s Enduring Reality ........................................ 4  
Hegemony and Asymmetry ............................................ 5  
Definitions of Asymmetry ............................................. 7  
Asymmetry Theory and the Study of International Relations ... 23  
Method .................................................................. 31  
The Plan of the Book .................................................. 33

**PART I ASYMMETRY AND BILATERAL RELATIONSHIPS**

1 Basic Structure of Asymmetric Relationships .................... 39  
The Locatedness of Interests and Parametric Reasonableness ... 40  
International Relationships and International Relations .......... 42  
Country A and Country B ............................................. 43  
The Politics of Asymmetric Attention ................................ 47  
Autonomy, Deference, and Respect .................................... 51  
The Calculus of Asymmetric Interaction ........................... 53  
Asymmetric versus Dominant Relationships ........................ 56  
International Initiative ................................................ 59  
Change and the Deep Structure of Asymmetric Relationships .... 61

2 Asymmetry and Conflict .............................................. 68  
Hazards of Novelty ..................................................... 69  
Asymmetric Brinksmanship ......................................... 72
# Table of Contents

## Misperception and Negative Complementarity
- Asymmetric Hostility
- Settlers, Raiders, Teachers, Patrons, and Destroyers
- Occupation
- Stalemate
- From Stalemate to Normalcy

### Part II Asymmetric Systems

3. Multilateral Asymmetry
   - Multilateral Interactions, Chaos, and Uncertainty
   - Patterns of Triangular Asymmetry
   - Positions and Choices in Asymmetric Triangles
   - Example: Washington-Beijing-Taipei
   - Pseudo-Certainty in Multilateral Situations
   - Coping with Uncertainty
   - Patterns of International Alignment

4. Regional Asymmetric Relationships
   - The Ambiguity of Regions
   - Defining Regions
   - Regional Attention Patterns
   - Soft Power
   - Dilemmas of Regional Powers
   - Middle Earth: The World as Seen from Its Regions

### Part III World Systems

5. Cycles and Sustainability
   - The Ultimate Region
   - The Brightest House: Problems of Global Perception
   - Hegemonic Cycles
   - Managing Global Asymmetry
   - Coping with Global Uncertainty
   - Global Alignments

6. Multinodality and the Status ad Quem
   - Emerging Multinodality
   - The Structure of Multinodality
   - Bilateral Rivalry and Its Limits
   - Multinodal Mayhem
   - The Status ad Quem: Sustainability beyond Hegemonic Cycles

### Part IV Policy Implications

7. Asymmetric Prescriptions
   - National Intelligence and Asymmetric Apperception
   - Domestic Complications
Contents

Balancing Asymmetric Interactions 210
Structures of Bilateral Normalcy 212
Asymmetric Ethics 218
Global and Regional Relationships 221
The Interactive Learning Curve 224

Bibliography 229
Index 239
