<i>Preface</i>	<i>page ix</i>
1 Representation formulae for singular solutions of polyharmonic and parabolic inequalities	1
1.1 Introduction	1
1.2 Harmonic inequalities in the punctured ball	1
1.3 Polyharmonic inequalities in the punctured ball	5
1.4 Parabolic inequalities	16
1.5 Comments	20
2 Isolated singularities of nonlinear second-order elliptic inequalities	22
2.1 Introduction	22
2.2 Case $n \geq 3$	22
2.3 Case $n = 2$	48
2.4 Comments	63
3 More on isolated singularities for semilinear elliptic inequalities	65
3.1 Introduction	65
3.2 Local behavior of solutions	65
3.3 Global existence of solutions	76
3.4 Case $p = \frac{n+2}{n-2}$	81
3.5 Comments	87
4 Elliptic inequalities for the Laplace operator with Hardy potential	89
4.1 Introduction	89
4.2 Some comparison principles for the Laplace operator with L^1 potential	89
4.3 Elliptic inequalities with Hardy terms in cone-like domains	93

4.4	Elliptic inequalities with Hardy terms in smooth domains with boundary singularities	101
4.5	Elliptic inequalities with Hardy terms and higher dimensional singularity	111
4.6	Comments	120
5	Singular solutions for second-order nondivergence type elliptic inequalities	122
5.1	Introduction	122
5.2	Effective dimension and other important quantities	123
5.3	An Emden–Fowler equation	125
5.4	First result. Estimates on the critical exponent	131
5.5	Second result. The critical case	136
5.6	Examples	138
5.7	Comments	143
6	Isolated singularities of polyharmonic inequalities	144
6.1	Introduction	144
6.2	Polyharmonic inequalities in punctured balls	144
6.3	Polyharmonic inequalities in exterior domains	153
6.4	Comments	155
7	Nonlinear biharmonic inequalities	158
7.1	Introduction	158
7.2	Main results	160
7.3	Preliminary results	161
7.4	Case $n \geq 3$	168
7.5	Case $n = 2$	193
7.6	Comments	199
8	Initial blow-up for nonlinear parabolic inequalities	200
8.1	Introduction	200
8.2	Optimal exponents for a priori bounds	201
8.3	Parabolic inequalities with boundary conditions	214
8.4	Comments	234
9	Semilinear elliptic systems of differential inequalities	235
9.1	Introduction	235
9.2	Case $n = 2$	236
9.3	Case $n \geq 3$	245
9.4	Comments	259
10	Isolated singularities for nonlocal elliptic systems	264
10.1	Introduction: What is a nonlocal equation?	264
10.2	A nonlocal elliptic system with convolution terms	265
10.3	Some integral estimates	266

Cambridge University Press

978-1-107-13838-4 - Isolated Singularities in Partial Differential Inequalities

Marius Ghergu and Steven D. Taliaferro

Table of Contents

[More information](#)

<i>Contents</i>		vii
10.4	Case $\min\{\alpha, \beta\} \leq 2$	270
10.5	Some auxiliary results for integral systems	274
10.6	Case $\alpha, \beta \in (2, n)$	285
10.7	Comments	292
11	Isolated singularities for systems of parabolic inequalities	294
11.1	Introduction	294
11.2	Preliminary lemmas	295
11.3	The main results	306
11.4	Comments	317
Appendix A	Estimates for the heat kernel	319
Appendix B	Heat potential estimates	328
Appendix C	Nonlinear potential estimates	338
	<i>References</i>	341
	<i>Index</i>	348
