---

- Abelian theorem, 336
- absorbing Brownian motion, 137
- abstract Wiener space, 276
- action integral, 298
- adapted process, 10
- Appell sequence, 307
- arbitrage opportunity, 284
- arcsine law, 122
  
- Bessel process, 172
- Black–Scholes model, 282
- Black–Scholes formula, 292
- Blumenthal 0-1 law, 105
- Borel cylinder set, 3, 134
- Borel isomorphic, 333
- Borel  $\sigma$ -field, 2
- Brownian bridge, 182
- Brownian motion, 9
- Brownian motion with constant drift, 169
- Burkholder–Davis–Gundy inequality, 70
  
- Cameron–Martin subspace, 6, 8
- Cameron–Martin theorem, 40
- Chapman–Kolmogorov equation, 5
- Clark–Ocone formula, 219
- class (D), 34
- class (DL), 34
- classical path, 298
- closable martingale, 19, 29
- closable submartingale, 19, 29
- complex Brownian motion, 97
- conditional expectation, 11, 332
- conditional probability, 332
- cone, 130
- conformal martingale, 97
  
- conservative process, 136
- continuous semimartingale, 61
- coordinate process, 9
- countably generated, 333
  
- Dambis–Dubins–Schwarz theorem, 74
- Delta, 293
- diffusion matrix, 137
- diffusion measure, 136
- diffusion process, 135, 136
- Dirac measure, 228
- Dirichlet problem, 126
- Doob decomposition, 15
- Doob’s inequality, 22, 30
- Doob–Meyer decomposition, 35
- drift, 137
- Dynkin class, 329
- Dynkin class theorem, 329
  
- entrance boundary, 171
- equivalent martingale measure, 284
- Euler number, 307
- Euler polynomial, 307
- European call option, 291
- European contingent claim, 288
- European put option, 292
- exercise price, 291
- exit boundary, 171
- explosion, 140
- extension (probability space), 78
  
- Feynman–Kac formula, 117
- filtered probability space, 9
- filtration, 10
- first hitting time, 11

- $\{\mathcal{F}_t\}$ -Brownian motion, 37
- fundamental solution, 111, 240
- Gauss kernel, 5
- generalized Wiener functional, 205
- generator, 136
- geometric Brownian motion, 140
- Girsanov's theorem, 158
- Greeks, 293
- Gronwall's inequality, 329
- Haar function, 7
- Hamiltonian, 298
- harmonic function, 109
- harmonic oscillator, 265
- heat equation, 111
- heat kernel, 5, 111
- Hermite polynomial, 199
- Hörmander's condition, 238
- hypercontractivity, 207
- hypergeometric function, 327
- implied volatility, 293
- increasing process, 34
- index (Bessel process), 172
- integration by parts formula, 225
- Itô process, 61
- Itô's formula, 62
- Itô's representation theorem, 82
- Itô–Tanaka formula, 91
- Jensen's inequality, 12
- Kac's formula, 120
- Kato class, 123
- Kazamaki condition, 160
- KdV equation, 305
- Khasminskii's condition, 176
- Khinchin's law of iterated logarithm, 39
- Koebe's theorem, 126
- Kolmogorov diffusion, 239
- Kolmogorov operator, 239
- Kolmogorov's continuity theorem, 3, 334
- Laplace transform, 335
- large deviation, 47
- Legendre function, 327
- Lévy's modulus of continuity, 39
- life time, 133
- linear fractional transformation, 319
- local martingale, 52
- local time, 87
- locally square-integrable martingale, 53
- Malliavin calculus, 195
- Markov family, 134
- Markov process, 134
- Markov property, 103
- Markovian type, 140
- martingale, 13, 24
- martingale problem, 156
- martingale transform, 14
- mean-value property, 126
- measurable (stochastic process), 10
- measurable space, 1
- Meyer's equivalence, 202
- modification, 3
- modified Bessel function, 324
- monotone class, 330
- monotone class theorem, 330
- multiplicative class, 329
- natural boundary, 171
- natural process, 34
- non-degenerate (Wiener functional), 224
- Novikov condition, 160
- occupation time formula, 93
- optional sampling theorem, 20
- optional stopping theorem, 16
- Ornstein–Uhlenbeck operator, 203
- Ornstein–Uhlenbeck process, 67, 141, 182
- Ornstein–Uhlenbeck semigroup, 203
- pathwise uniqueness, 142
- piecewise  $C^m$ -class, 120
- piecewise continuous function, 120
- pinned Brownian motion, 182
- Pitman's theorem, 96
- Poincaré cone condition, 130
- Poincaré metric, 318
- Poisson integral formula, 132
- portfolio, 282
- predictable process, 14, 55
- price, 291
- probability distribution, 2
- probability law, 2
- probability measure, 1
- probability space, 1
- product (for stochastic differential), 67
- progressively measurable process, 10
- pull-back, 228
- put-call parity, 292

- quadratic form (on Wiener spaces), 257  
 quadratic variation process, 36, 53
- random field, 334  
 random variable, 2  
 random walk, 5  
 recurrent, 108  
 reflecting Brownian motion, 93  
 reflectionless potential, 305  
 regular boundary, 171  
 regular conditional probability, 332  
 regular point, 128  
 regularly varying (function), 335  
 replicable, 288
- sample path, 3  
 scale function, 168  
 scattering data, 305  
 Schauder function, 7  
 Schilder's theorem, 43  
 Selberg's trace formula, 319  
 self-financing, 282  
 semigroup, 123  
 shift, 103  
 $\sigma$ -field, 1  
 Skorohod equation, 93  
 Skorohod integral, 217  
 slowly varying function, 335  
 Sobolev space (over Wiener space), 198  
 soliton solution, 305  
 special linear group, 319  
 speed measure, 169  
 standard measurable space, 333  
 standard probability space, 333  
 stochastic area, 240, 269, 300  
 stochastic differential, 67  
 stochastic differential equation, 138  
 stochastic flow, 183  
 stochastic integral, 56, 59, 60  
 stochastic process, 3
- stock price process, 282  
 stopping time, 11, 16  
 Stratonovich integral, 69  
 strong Markov family, 135  
 strong Markov property, 106  
 strong solution, 143  
 submartingale, 13, 24  
 successive approximation, 152  
 supermartingale, 13, 24  
 support problem, 193
- Tanaka's formula, 87  
 Tauberian theorem, 336  
 time change, 164  
 time change process, 164  
 time-homogeneous equation, 140  
 transformation of drift, 157  
 transient, 108  
 transition probability, 135
- uniformly integrable family of random variables, 331  
 uniqueness in law, 142  
 upcrossing number, 17  
 upper half plane, 318  
 usual condition, 10
- value process, 282  
 Van Vleck, 297  
 volatility, 281
- well measurable process, 55  
 well posed martingale problem, 156  
 Wiener chaos, 201  
 Wiener functional, 5  
 Wiener integral, 40  
 Wiener measure, 4  
 Wiener process, 9  
 Wiener space, 5
