Subject index

- addressees 27–29
 distinguished by age 60, 348
 by request-types 35–36
 by status 348
 by utterance design 153–154, 328
see common ground; given and new
- affixes
 in acquisition 202
 first affixes used 304
 agentive 304–306
 in coinages 288–289
 and word class 203–205
 instrumental 305
 types 288–289
see word-formation
- agreement 216–218
- analyzing complex words 290–291
- Arabic 5, 68, 209, 381, 447
- argument structure
 for adult vs. child 104–105
 argument roles and grammatical relations
 235–236
 Preferred Argument Structure (PAS) 230–232
 and new information 231
see given and new; informativeness
- articles
 and common ground 356–357
 definite, given 204, 333, 355–357
 early constructional patterns 197–198
 early uses 135, 184–186, 212, 333–335
 overuse of the definite 212, 356–357
see given and new
- ASL 408, 429, 430
- attention
 attention-getters 47, 147
 to faces 43
 gaze 100, 146
 getting adult attention 48–50, 101–103
 gesture 100, 146
 in infants 146
 in non-human primates 151
 maintaining attention
 with gestures 43
 with pitch 36–38
 with repetition 40–41
 measures of discrimination 63–65
 conditioned head–turn, high amplitude
 sucking (HAS), head-turn preferences,
 heart rate 63–65
 summonses
 with deictic terms 42
 with gestures 42
 auxiliary verbs 236–246
- babbling 109–110
 age of onset 109
 consonants 109
 and early words 110
 and hemispheric specialization 409–410
 and intonation contours 110
 and motor practice 130–132
 syllabic structure 111–112
- Basic Child Grammar: *see* operating principles
- basic level assumption 142; *see* constraints on
 word acquisition
- Basque 388
- bilingualism 380
 in the brain 383
 brain cell density 383
 in childhood 382, 384–392
 conversational skill 394–398
 defined 381–384
 doublets 387
 and grammatical structure 392
 finite verbs 392
 naming patterns 394–398
 sentential negation 393
 language choice 394–395
 language dominance 394–395
 lexical structure 383
 mixing 388–390
 one system or two 383, 390–392
 in grammatical structure 392
 in the lexicon and morphology 383, 386–388
 in perception and babbling 384–386
 in the US 380–381
 thinking for speaking 399
 worldwide 380–381
- birth order
 and child-directed speech 53–54
 effects of linguistic experience 54
- bootstrapping

- semantic 203
 syntactic 218
see learning; word-classes
- brain asymmetry: *see* lateralization
- Broca's area 405
- canonical linking: *see* argument structure;
 grammatical relations
- case roles 104–105, 182
 case marking 207, 216–218
see argument structure
- categorical perception 65–66
- causal clauses 276–279
 cause-effect sequences 277
 connective choices 279
 external vs. internal causation 277–279
- causatives
 causative alternation 247–253
 CAUSE 149, 165–168, 247–253
 direct vs. indirect causation 251
 lexical vs. periphrastic verbs 251
 transitivity 232, 258
 verb errors 149
- change 434
- child-directed speech 24, 25–26
 adjusted to addressee 36–38
 amount 52–53
 characteristic properties
 clear articulation 38–40
 exaggerated intonation 36–38
 fluency and grammaticality 38–40
 high pitch 36–38
 pauses between utterances 39
 routines and formulas 29
 stress on final position 38, 76
- child attention to 37
- cultural variation 54–58
- degenerate input 25
- deictic terms 42, 100, 178–180
 as evidence about language 45
 as feedback 44–45, 48, 50
 getting attention 47
 here-and-now 31–32, 42, 99
 and interaction 50, 54–58, 99
 as language lessons 45
 lengthening
 final syllables and vowels 38–40, 428
 meaning relations 49, 160–162
 new word offers 139–140
 promoting comprehension 45
 questions 333
 reformulations 44–45, 48, 50
 semantic domains 48–50
 and siblings 54–58
 summonses 42
 taking turns 30–31, 44–45, 47, 318, 321–326
 verbs and constructions 195, 229–230
- universals 26–27, 54–58
- CHILDES Archive 19
- Chinese 68, 72, 73, 86, 363, 381, 414, 415
 Cantonese 248
 Mandarin 3, 12, 55, 73, 93, 109, 201, 202,
 205, 232, 381
- chunks
 attaching meanings 60–63, 75, 87–88
 familiar chunks (recognition) 40–41, 63–65
 vs. phonetic segments 112–115
 in the speech stream 66–67, 70
 word-boundaries 75
- code-switching
 in adults and children 388–390
 children follow adult usage 388–390
- coinages
 constructional alternatives to compounds 312
 filling gaps 288, 296–303
 glosses 293–294
 legitimate vs. illegitimate 296–303
 replacement through pre-emption 296–303
 spontaneous analyses 290–291
see productivity; word-formation
- common ground
 accumulation 188, 326
 adding new information 38–40, 189, 231,
 232, 326–329, 355–357
 article use 151–152, 184–186, 212, 333–335
 assessing common ground 153, 327, 328–329
 building up utterances 228–229
 conversational co-presence 27, 31–32, 48–50,
 98–99, 139–140, 146–150, 151–152,
 154–155, 317, 328, 334
 given and new 326–327, 329
 here-and-now 31–32, 42, 99
 matches vs. mismatches 328–329
 physical co-presence 27, 31–32, 48–50, 98–99,
 139–140, 146–150, 151–152, 153, 317,
 328, 334
 and preferred argument structure 230–232
 ratifying new information 33–34, 139–140,
 165–168, 318, 329, 335–340
 speech communities 347
 types of common ground 326–329
 updating common ground 327
see given and new; repetition
- complement clauses 273
 exceptions 273
 finite vs. nonfinite 270–273, 392
 and lexical specificity 272
 parentheticals (speaker attitude) 271
 solicitations 272
 stages in acquisition 272–273
- complexity
 clauses combinations 260–286
 conceptual 279–286
 coordination 262–265

564 Subject index

- complexity (*cont.*)
 cumulative 207
 formal 5, 201, 208–209, 279–286
 noun- and verb-phrase 50
 semantic 5, 201, 208–209
 subordination
 embedding 262–265, 270–286
- components of meaning: *see* semantic feature
 hypothesis
- compounding 288–289
 in production 308–311
 root compounds 291–293
 head noun identification 291
 for subcategorization 309
 synthetic compounds 310–312
 affix omission 310
 head noun identification 310
 order errors 310
 see word-formation
- comprehension vs. production
 achieving change 435–436
 asymmetry (production trails behind) 434
 as a check on meaning in production 436
 C-representations 436
 early onset 129–130
 P-representations 436
 representations in memory 436
 in word-formation 291–296
 see monitor-and-repair model
- conceptual basis
 cognitive dimensions 7–8, 441
 emergent categories 441
 see operating principles
- conditional clauses 279–286
 bribes and threats 281
 choices of form 281
 cognitive prerequisites 281–283
 contingency 280
 counterfactuals 285
 fantasy pasts 283–285
 future predictives 281–283
 genericity 281
 hypotheticality 280
 inference 280
 pragmatic conditions 280–281
 stages in acquisition 283–285
- conflicts 368–371
 adversative encounters 369
 with boys vs. girls, peers 365–368
 cross-linguistic comparisons 370
 disputes on the street 371
 giving reasons and justifications 369
 successful strategies in negotiation 370
 see genres of talk
- conjunctions 260–286
 and 262–265
 because 260–286
 before 273–276
 from 256–259
 when vs. *if* 283–285
 see coordination; subordination
- connectives: *see* coordination; subordination
- constraints on word acquisition 140–145
 basic-level assumption 142
 conceptual structure and word meaning 143
 constraints as defaults 145
 equal-detail assumption 142
 limiting the hypothesis space 141
 Quine and indeterminacy 141
 mutual exclusivity 144
 origins of constraints 143
 overriding constraints 145
 taxonomic assumption 142
 whole-object assumption 141
- constructions
 adding complexity 260–286
 in adult speech 229–230
 building on existing constructions 229–230
 causative alternation 247–253
 conservative acquisition 253–256, 421–422,
 448–451
 dative alternation 246, 253–256
 early constructions 193–200, 228–229
 identifying constructions 193
 and lexical specificity 197–198, 270–273
 locative alternation 253–256
 meanings of constructions 173–175
 passive 256–259
 productivity
 fixed vs. constructed 197
 frozen forms 197–198
- continuity 426–434
 alternate routes 427
 from babble to words 110
 in development and change 426–434
 discontinuity 110
 in functions 256–259, 426–434
 in phonology 427
 shared phonetic sequences 427
 in referring 427
 in speech acts 317
- contrast 147, 151
 explicit 154–155
 implicit 154–155
 observed early in development 151–152
 and perspective 158–160
 principle of 151
 and word formation 297–298
 see conventionality; pre-emption
- contributions to conversation
 acknowledgements 33–34, 327, 330–333,
 335–340
 adding new information 187–193
 designing pertinent utterances 192, 321–326

- routinized exchanges 29, 197–198,
 236–242, 318
 turns 321–326
- conventionality 5, 151
 conventional forms take priority,
 pre-emption 296–303
 conventions on use 151–155
 observed early 106
 principle of 151
 in word-formation 297–298
see contrast; pre-emption
- conversation 23–59
 adding further information 154–155
 addressees 25–26, 27, 30–31, 32–33, 34–35
 adult repairs understood 344
 child-initiated exchanges 321–326
 conditions 27, 317
 cooperative principle 47, 327, 351–352
 definite references 152–155, 212, 333–335
 following up child-initiated topics 32–33
 giving directions 329
 goals 42
 here-and-now 31–32, 42, 99
 initiating exchanges 28, 33–34, 147, 321–326
 locus of attention 317
 making oneself understood 34–35
 miscommunications 129–130
 persistence from children 343–345, 365
 referential pacts 335
 self-repairs in the child 34–36, 108–109, 129–130
 setting for acquisition 5–7, 47
 taking turns 28, 33–34
 triadic exchanges 321–326
 uptake of new words 139, 173–186, 335–340
 conversational co-presence: *see* conversation,
 joint attention, physical co-presence
- cooperative principle 47
- coordination 262–265
 comprehension 262
 connectives 264–265
 production 262–264
- coping strategies 162–165

 production
 aligning production with comprehension
 135–138
 articulatory programs 115–121
 asymmetry with comprehension
 135–138
 avoidance and selection 120–121
 C-representations in memory as targets
 80–84, 435–436
 consistency 116
 experimentation en route 80–84
 planning multiword utterances 132–135,
 175–178
 precision 116

- segments 112–121
 sequences of single words 132–135, 175–178
 simplifications by children 121–127
 sounds in babble and words 110, 115–121
 sounds in contrast 112–114
 templates for words 123–127
 variations in early word forms 108–109
 word avoidance 115–121
see preferences; simplifications in production;
 word shapes
- productivity
 constructions
 frozen vs. productive 197
 early productive patterns 212
 frequency 210–212
 inflections 206–207, 210–212, 432
 order of acquisition 296–303
 paradigms 302–303, 432
 productive options first 210–212
 transparency 300
 word-formation 301–302
see inflections; overregularization; paradigms
- pronouns 334
 and given information 334
- protoconstructions 184; *see* constructions;
 formulas
- protospeech acts: *see* intention; speech acts
- questions 236–242, 333
 auxiliary verbs 241
 formulaic frames 237–241
 in second language 238
 stages of acquisition 236–242
wh- forms 236
wh- questions 237–241
yes/no questions 241
- rate of speech 38–40
 to younger vs. older children 36–40
see child-directed speech
- ratification 139–140, 336
 with repeats 335–340
see repetition; uptake
- reading
 resource for language 53
- reference
 definite reference 334
 multiple terms, one referent 144, 149,
 151–152, 158–160
 referring expressions 333–335
 referential pacts 335
see meaning; perspective
- reformulations
 checking on child intentions 443
 children attend to them 444
 and contrast 443
 correcting errors 443
 positive and negative evidence 444
 side sequences 443
see child-directed speech
- regularity
 criteria for 222–223
 paradigms 204, 300, 301–302, 438–441
 regularization 204, 205, 210–212, 224–225
see inflections; overregularization
- relational terms
 adjectives 148–149, 153, 184–186, 202,
 213–218, 265–268
 conjunctions, temporal 148–149
 nouns, for kin 148–149
 prepositions, spatial 153, 162–165
 quantifiers 213–216, 357–358
- relative clauses 265
 in comprehension 266
 in production 265–268
 imitated 268–269
 referent specification 266
 relative pronouns 266
- repairs
 ensuring comprehension 343
 interpreting adult repairs 161–162, 344
 other-initiated 33–34, 42, 44–45, 129–130,
 175–178, 343–345, 435
 to pronunciation 129–130
 after rejecting misinterpretations 343–345
 to speaker intention 343
 spontaneous, self-initiated 129–130
 for unfamiliar addressees 344
- repetition
 child-directed speech 40–41
 common ground 333
 functions in conversation 337, 338
 imitation 336
 and learning 338
 after questions 336
 ratify the previous speaker 336, 337
 to signal uptake 336
 as verbal play 338
see common ground; conversation;
 reformulations
- representations for language
 in memory, for comprehension 85–86, 222, 434
 multiple representations 437
 in tallies 432
 writing systems 437
see C-representation; P-representation
- roots, stems: *see* word-formation
- routines 29
 and formulaic speech 29
 spontaneous descriptions 327, 328
see child-directed speech; temporal clauses
- rules 220–221
 inflections stored in memory 222
see schemas; regularization

572 **Subject index**

- Russian 5, 68, 69, 77, 78, 80, 209, 210, 216, 225, 226, 300, 381, 383, 399
- saliency
 in objects, actions, words 7–8, 43, 90, 91–92, 104–105, 160–162, 182
see given and new
- schemas 220–221
 inflections 220–221
see rules
- school talk 373
 answers evaluated 373
 questions repeated 373–374
 to teachers 346–358, 368, 373–374
see genres of talk
- second-language learning 380, 381–384, 395, 414–416
 exposure 414–416
 age of arrival and number of years 414–416
 grammaticality judgements 414–416
 language learning skill and age 383
- segmentation 61, 63–65, 66–67, 69–72
 in adults 428
 distributional patterns 72
 in infants 60–63, 428
 recurring sequences 428
 speech stream 60–63, 66–67
 bracketing, clustering, and reference 428
 statistical relations 66–67
 transitional probabilities 3, 9
 word-boundaries 72
see learning; similarity
- semantic feature hypothesis 148–149
 meaning components 148, 149
 semantic composition 148–149
 semantic features 148
 shape, as basis for word use 148
see meaning
- semantic relations 160–162; *see* child-directed speech
- semantic roles
 same for adults and children 104–105
 and new information 228–229
- sensitive period 410
 critical period 411
 feral children 413–414
 isolated children 413–414
 retardation 413
 emotional trauma 414
 left hemisphere injury 411–412
 second-language learning 414–416
see lateralization
- Serbo-Croatian 209, 210, 252
- Sesotho 57, 213, 257, 419, 420
- side sequence: *see* reformulations
- similarity 7–8, 71, 95, 428, 448–451
 and analogy 9, 10–12, 448–451
see learning
- simplicity of form
 in coinages 298–301
 simple forms first 299
 simplicity is relative 300, 301
 in word forms 298–301
see coinages; word-formation
- simplifications in production
 assimilations 121
 omissions 122
 substitutions 121
 templates for word shapes 123–127
see production; word shapes
- social basis of language 5–7, 12–17
- social class 50
 deictic forms 50
 expansions vs. prohibitions 51
 quantity of child-directed speech 52–53
 socioeconomic status (SES) 50
 topic continuations 51
- social roles
 addressees 353–355
 distinguished by age 348
 by power, status 348
 controlled improvisation 349
 gender 348, 350–351
 disputes and negotiation of play 362, 363, 364–365
 requests 348
 persuasion 365–368
 role stereotypes 348
 style, register 347
 defined 347
 prosody and phonology 349
 vocabulary and morphology 349
- social setting of acquisition: *see* conversation
- sounds
 contrasting segments 112–114
 position, initial 115–127
 medial 114–115, 123–127
 final 115–121, 122, 123–129
 in precocious two-year-olds 127–129
 vs. words 114–115
- speaker intentions 317
 children's actions 320
 children's inferences 320
 primates 146, 151
see intentions; speech acts
- specialization for language 65–66, 403, 405
 chinchillas, macaques, rhesus, quail 66
 innate language capacity 403
 language areas of brain 404–416
see lateralization; perception of speech
- speech acts 318–321, 340
 adding politeness 342
 aggravation vs. mitigation 363, 370

- costs and benefits 365
 development 318–321
 eliciting speech acts 342
 imperatives 353–355, 359–364, 366–367
 indirect requests 348, 353–355, 360–361, 366–367
 protospeech acts 319
 requests vs. offers 340–343
see intentions
- stage directions 371–373
 cross-linguistic comparisons 372
 nonpresent is *irrealis* 371–372
 in play 371
see pretense
- starting small
 ASL acquisition 429
 co-occurring morphemes 430
 discontinuous morphemes 431
 restricted resources 429–432, 448–451
 word-classes 430
see learning
- stress patterns
 in compound nouns 288–289, 291–293, 308–311
 in familiar words 72, 108–109, 123–127
 in multisyllabic words 75, 108–109, 123–127
 preferences in infants 70
 strong syllables 72, 123–127
 weak syllables retained 219–224
 word combinations 187–193
- subject
 omissions 232
 and metrical structure 233
 performance limitations 232
 reference to own actions 234
 subject pronoun 234
see grammatical relations; parameter-setting; Preferred Argument Structure
- subordination 260–286
 subordinating conjunctions 276
see causal, complement, conditional, relative, temporal clauses
- suffixes
 -*er* in coinages 293–294, 300, 301–302, 304–306, 310–312
see word-formation
- Swedish 69, 202, 293, 294, 300, 309, 310
- syllables
 in babbling 109–110
 early word shapes 110
 metrical templates 123–127
 multisyllabic words 123–127
 stressed 123–127
 timing 132–135, 382
 tone 85–86
see production; simplifications in production
- tally, keeping track 165–168, 432
 co-occurrence and distribution 433
 representations in memory 432
 types vs. tokens 210–212, 432
see frequency; productivity
- taxonomic assumption 142
 conceptual basis 143
see constraints on word acquisition
- templates
 metrical 219–224
 multisyllabic 123–127
 syllables preserved 123–127
 trochaic stress 123–127, 219–224, 233
 words 123–127
see production; syllables
- temporal clauses 273–276
 comprehension 275
 event order 274
 juxtaposition 274
 order of mention 275
 production 275–276
 sequence, in routines 274
 simultaneity 275
see subordination
- Thai 3, 202, 248
- thinking for speaking 399
- transition
 conversational "support" 321, 329, 330–333
 from gestures to words 101–103, 178–180
 trade-offs in pronunciation 132–135, 173–175
 words to segments 35, 127–129
 words to word combinations 92, 180–182, 232
- transitivity 234–235
- transparency of meaning 298–301
 affixes 298, 301
 changes in 301
 in children's coinages 298–301
 paradigms 300
 in word-formation 298–301
see coinages; word-formation
- Turkish 3, 4, 13, 41, 86, 93, 187, 188, 201, 202, 206, 215, 248, 252, 253, 267, 270, 352, 356, 375, 377, 378, 399
- turn-taking 318, 321–326
 answering questions 325–326
 coming in late 321–326
 imposed on infants 28
 interrupting turns 322, 324–325
 keeping track 323
 no gap, no overlap 32–33
 relevant intrusions 323, 324–325
 scaffolding 321
 and common ground 188
 switching pause 323
 timing 323, 325–326
see conversation

574 Subject index

- typology
 morphology, agglutinative 201
 analytic 201
 synthetic 201
 operating principles 441–443
 salience of linguistic notions 437
 Tzeltal 93, 196, 442
- uptake
 new words 336, 337
 repeats 139–140, 336, 337
see ratification; reformulations; repetition
- utterances across speakers 132–135,
 330–333
 scaffolding 188, 321, 322
- Verbs
 auxiliary 207, 213–216, 236–246, 257–258,
 430, 431
 and constructions 195
 denominal coinages 304
 event-types 152–155, 180–182, 193–200, 215,
 246–247, 260–286
 first forms 194, 195, 197–199, 202
 general-purpose verbs 195–196
 transitivity 232, 247–253
 verb classes
 achievement, accomplishment, activity,
 state 206–207, 215
 verb islands 194
 verb particles 306–308
see constructions; inflections; paradigms
- vocabulary
 early vocabulary 88–90
 estimated size by age 87–88
 intelligible words 88–90, 95–97
 restricted early uses 88–90, 155
 semantic domains 148–149, 153–155
- vocabulary spurt 90
 articulatory skill 91
 birth order 53–54
 criteria for spurts 90–92
 production vs. comprehension 92
 spurt as artifact 91–92
 symbolic value of words 91
- voice (passive) alternation 256–259
 action verbs vs. mental verbs 258
 be vs. *got* 257–258
 early expressions 257
from vs. because 257
from vs. *by* 277–279
 truncated passives 247, 257–258
- Wernicke's area 405
 wh- questions 236–242
 formulaic uses 237–241
 in a second language 238
- order of acquisition 236
 whole-object assumption 141
 conceptual basis 143
see constraints on word acquisition
- Williams Syndrome (WS) 422–423
 and encapsulated syntax 422–424
 general development 331
- word analysis
 elicited comprehension 291–296
 glossing new words 293–294
 identifying heads and modifiers 293–294
 spontaneous analyses 290–291
see word-formation
- word-classes
 determiners, articles 135, 204, 430
 distributional information 204, 430
 notional categories 203
 noun and verb emergence 93–95, 184–186,
 203
 at one-word stage 94–95
 open vs. pivot 182
 using inflections 213–216
- word combinations 180–182
 antecedents 173–178
 case roles 182
 cross-linguistic comparisons 180–182
 deictic terms 178–180
 event-types encoded 192
 formulas, limited scope 186, 191, 197
 frozen, intermediate, constructed 197
 gesture and word 178–180
 lexical specificity 198–199
 positional patterns 197–198
 sequences of single words 175–178
see informativeness; salience
- word extensions 95
 communicative function 95
 movement size, sound, texture 95
 narrowing down overextensions 97–98
 overextensions 95–97
 overlaps 97–98, 144, 151–152, 156–158
 shape 95
 underextensions 91
see meaning
- word-formation
 affixes 288–289, 301
 complexity 300, 301
 compounding 288–289
 derivation 288–289
 heads 291
 productive patterns 301–302
 root compounds 291–293
 simpler forms first 298–301
 transparent meanings 298–301
see coinages; compounding; derivation
- word order
 adult-child word order matches 187

- pragmatic 187–193
